A Burlington Enginemen's Event.

The Burlington Enginemen's ball will be the event of the season. Each and every year they give a ball and each is entirely different in all ways except the dancing. They don't believe in repetitions; something new and novel is their watchword and all who attend the fifth annual ball given by them at the auditorium, February 21st, will be well entertained. The concert will commence promptly at 8:30 p. m. and one and one half hours will be devoted to showing our citizens the moving pictures of Lincoln streets and railroad trains taken by Mr. Selig of Chicago, when is Lincoln, last week. Elegant music will make merry the entertainment. Then come the grand march led by those in colonial costume. This has many new and novel features. The decorations of the building are colonial and entirely new. Tickets have been selling so fast that they now know the capacity of the auditorium will be taxed. Special trains from Havelock and Omaha will help to make it the merriest crowd ever assembled under the spacious roof of the auditorium.—Lincoln Journal.
