

TROUBLE COMING

ROYALISTS ACCUSED OF OPPOSITION TO CATHOLIC SCHOOLS.

LEADERS DENY THE CHARGE

Claim Movement is Entirely Spontaneous on the Part of the People—Ministerial Organs Assert that Breton Peasants Were Deluded.

PARIS, Aug. 16.—The semi-official announcement, made after yesterday's cabinet meeting, that the royalists are directing the agitation against the closing of religious schools in Brittany has evoked considerable comment.

Catholic leaders and the Catholic press deny that the movement is anti-republican. Count Albert de Mun, who, with Abbey Gayraud, is the guiding spirit of the resistance in Finisterre, declares that the movement is entirely spontaneous on the part of the people themselves, and that not an act nor a shout has occurred in Brittany to justify the allegation that a royalist conspiracy exists. Count Albert de Mun says the "Marsellaise" has been sung everywhere and that it is evident the government is embarrassed by the situation and has invented the royalist scare in order to create a diversion.

Francois Coppee in an interview expressed a similar opinion in more violent and picturesque language. The Patrie says it is rumored that the government intended to arrest the royalist senator from Finisterre, M. de Chamillard. Ministerial organs assert that the government possesses information as to the manner in which the Breton peasants were deluded into a belief that they could successfully resist the republic.

The situation at St. Meen and Folget remains unchanged. An important pilgrimage to Folget took place today, on the occasion of the Feast of the Assumption, 15,000 people gathering from the surrounding country. Processions from nearby villages arrived during the morning, headed by priests bearing crosses and banners and chanting.

Admiral De Cuverville, Abbe Gayraud, who is a member of the Chamber of Deputies, and Councillor Soubigon have addressed a protest to the premier, M. Coombes, on account of the allegations of royalism, saying: "We protest against the attempt to give a political character to the demonstrations of an indignant public conscience. While applauding the legitimate protests of the population who are grateful to the sisters, we shall continue to strive to prevent acts of violence. Long live the liberal republic."

Members of religious orders expelled from France, especially sisters, are applying to the vatican authorities for permission to settle in the United States.

PLANS FOR PEKIN BUILDING.

Architect is to Be Sent to China by Treasury Department.

WASHINGTON, Aug. 16.—Complying with the request of the secretary of state, the treasury department will detail an expert architect to go to Peking, China, to complete the plans and specifications for the new United States legation buildings there and superintend their construction.

The French architect who performed a like service for his government and who was engaged to plan and construct the buildings for the United States has gone to France and will not return. As his plans were not altogether favorable, Minister Conger has asked that a competent architect be sent from the United States. The selection of a man will be made very soon.

European Cold Wave.

BERLIN, Aug. 16.—The weather continues cold and rainy. The temperature yesterday in southern Saxony stood at 32 degrees F., and snow fell in the Erz-Gebirge and in the Vosges mountains in Alsace. The North sea summer resorts are practically deserted and persons on vacations are returning to their homes. Army officers are wearing their winter overcoats.

Rests with the Police.

INDIANAPOLIS, Ind., Aug. 16.—Attorney General Taylor decided today that Governor Durbin has no right to interfere in boxing contests, but that the local police of cities must control them.

Turks and Bulgarians.

VIENNA, Aug. 16.—Local newspapers publish reports of a sanguinary fight between two battalions of Turkish infantry under the command of Nedim Pasha and a band of Bulgarian Macedonia revolutionists, commanded by an ex-Bulgarian army officer, Stojanoff. The engagement occurred near Uskub, European Turkey. The revolutionists were cut to pieces and the Turks had many men killed or wounded.

SITUATION VERY CRITICAL.

Sacking of Barcelona Continues and Valuable Property Destroyed.

WASHINGTON, Aug. 15.—Under date of Wednesday, August 13, Minister Bowen, at Caracas, reports to the state department that the situation there is very critical.

Minister Bowen in the dispatch, the contents of which the state department made public today, says he "is advised by the United States consul at Barcelona that the revolutionists are sacking that town and searching private houses. They are demanding money from foreign residents in exchange for a guaranty of safety of lives and property."

At the time of filing his dispatch he had heard nothing from the Cincinnati or Marietta. He says the sacking of Barcelona continues and that much valuable property is being destroyed.

At the navy department a cablegram has been received from Commander McLean, reporting the arrival of the Cincinnati at Barcelona. The Marietta is at Port of Spain, Trinidad, and is subject to the orders of Commander McLean.

The dispatch from Commander McLean was sent since that of Minister Bowen.

KILLED BY AN AUTOMOBILE.

Charles Fair and Wife of Can Francisco Meet Death in France.

EVEREUX, France, Aug. 15.—Mr. and Mrs. Charles Fair, Americans, who were related to Mrs. W. K. Vanderbilt, jr. (Miss Virginia Fair), were returning to Paris from Trouville today when their automobile swerved and crashed into a tree fifteen miles from here.

Both were killed. The chauffeur became insane as a consequence of the shock.

Mr. and Mrs. Fair had been staying at Trouville during racing week. They had a very fast forty-five horse power automobile, which attracted considerable attention, and with which they were highly pleased. Mr. Fair had been from Trouville to Paris and back again in one day on the machine. The bodies of Mr. and Mrs. Fair were taken to the Chateau Buisson du Mai.

SAN FRANCISCO, Aug. 15.—United States Senator J. R. Burton of Kansas, chairman of the sub-committee of the senate that has been instructed to visit Hawaii and inquire into ex-Queen Liliuokalani's claims to crown lands, has arrived and expects to sail for Honolulu on the next steamer.

Senator Burton expects to spend four or five weeks in Hawaii in company with Senator Mitchell of Oregon and Senator Foster of Washington. They will make a thorough investigation of the affairs and conditions in the islands and among other things will inquire into the crown land question.

ON TO BARCELONA

CINCINNATI SAILS FROM PORTO CABELLO UNDER ORDERS.

CRUISER NOW PROBABLY THERE

Commander McLean Sets Sail Immediately After Receiving Orders—Minister Power Says that Revolutionists Committed Depredation.

WASHINGTON, Aug. 14.—Over night the Navy department received word that Cincinnati had sailed yesterday from Porto Cabello for Barcelona, under the instructions cabled yesterday to Commander McLean, directing either Cincinnati or Topeka to proceed immediately to that point.

Commander McLean, who is the senior officer present, evidently decided to go himself and leave Topeka to protect American interests at Porto Cabello. It is probable that Cincinnati already has arrived at Barcelona, but that fact may not be known officially here for several days, as Minister Bowen cabled the State department from Caracas today that the cable from Caracas to Barcelona again had been cut by the revolutionists.

On Monday he reported that this cable had been cut, but presumably it had been repaired in the interim and his last dispatch indicates that the connection again has been lost.

Neither the State nor the Navy department have received confirmation of the press dispatches from the port of Spain, which were conveyed there from Barcelona, by boat, of the extent of the fighting at Barcelona and of the report that the American, Italian and Dutch consulates had been pillaged. The officials of the Navy department are confident that Commander McLean with Cincinnati will be able to take care of American interests there.

Owing to the general disturbed condition of affairs all along the line of the Venezuelan coast and the appeals of Minister Bowen for warships, the question whether our naval force in those waters is sufficient to take care of the existing situation and to meet future contingencies has been canvassed. For the present it has been decided that it is unnecessary to send an additional vessel. We now have three ships at the three critical points, Cincinnati at Barcelona, Topeka at Porto Cabello, where the Germans already have landed a force, and Marietta at the mouth of the Orinoco, which was declared blockaded by the Castro government.

The question of affording an asylum to President Castro aboard an American warship in case he should be obliged to flee from the country and should have no other means of escape, has not been seriously considered by the State department and it is not believed that his condition at present is desperate enough to make such a move imperative. Besides, it is reported through the press dispatches that he has a vessel at La Guayra upon which he can embark for France if the necessity should occur.

BIG DEAL IN TIMBER LANDS.

Hill Said to Be in the Scheme and Another Railroad the Result.

QUINCY, Cal., Aug. 14.—T. B. Walker, the lumberman of Minneapolis, has just closed a deal by which he secures a tract of timber land in Plumas county aggregating 65,000 acres. It is understood that the price paid was \$18 an acre.

Four corps of engineers are at work in this section and it is rumored that Mr. Walker and J. J. Hill, president of the Great Northern railroad, are working together, to the end that a railroad, which will eventually develop into a transcontinental line, will tap the timber lands purchased by Mr. Walker. A survey for a transcontinental road through this section was made in 1893.

Rare Picture of the Pope.

ROME, Aug. 14.—Cardinal Ledowchisky's will has been opened and it is announced that he appoints as sole legate his nephew, Count Ledowchisky, a retired officer of the Austrian army, who resigned his commission as a protest against the practice of dueling in the army. A painting of great value is left to the pope and the secretary of the former prefect of the propaganda inherits the cardinal's silver service.

Bourcart May Come Here.

BERNE, Switzerland, Aug. 14.—Charles D. Bourcart, Swiss minister to Great Britain, is here in connection with the proposition to transfer him to Washington. M. Bourcart is unable to leave England, where he has spent a decade, and he especially objects to being dismissed to make room for Dr. R. Carlin, whose removal from Rome was made necessary by the recent disagreement between Switzerland and Italy.

ELECTRICITY MAY SAVE LIFE.

Last Resort by Physicians in the Case of Ex-Senator Roach.

NEW YORK, Aug. 13.—Former Senator William A. Roach of North Dakota, who has been exceedingly ill here a long time, is improving. His illness, which arose from the growth of a malignant tumor, had been pronounced incurable and for days he lay at the point of death. The knife had been used several times without avail.

Finally the physicians resorted to the X-ray treatment. The great machine was placed in the senator's room and electric treatment was given daily, the wire springs of the bed acting as conductors. A tube was inserted in the incision made by the former operation, and through this the X-ray was applied to the affected part, the attempt being to dry up the tumor which the surgeons had failed to remove thoroughly with the knife. Gradually the dangerous symptoms have been lessened and at last there is genuine ground for hope.

QUAY IS TO TRY HIS HAND.

Pennsylvania Senator Will Attempt to Settle Anthracite Strike.

ATLANTIC CITY, N. J., Aug. 13.—Senator Quay says he is willing to do all in his power to end the strike of the anthracite coal miners. George Llewellyn of the citizens' alliance of Wilkesbarre called upon the senator and asked the latter to use his good offices in an endeavor to end the strike.

Senator Quay, after his talk with Mr. Llewellyn, said:

"I am ready to do anything in my power to bring about a settlement of the strike in the anthracite regions."

The senator said he deeply regretted the present differences and that he was willing to meet the miners, operators, or both, if it would aid in restoring industrial peace. Any suggestions, he said, that may be made by Chairman Llewellyn will be promptly taken under consideration.

NEBRASKA CROP CONDITIONS.

Rainfall During Past Week Ample in Practically All of State.

Weekly bulletin of the Nebraska section of the climate and crop service of the Weather bureau for the week ending August 11, 1902: The last week was cool, with sufficient rain for good growth. The daily mean temperature has averaged 4 degrees below normal. The rainfall exceeded an inch in the central and a few northern counties, and was light, generally less than half an inch, in southern and western counties.

The last week was very favorable for stacking, threshing and haying except on Friday and Saturday, when showers occurred quite generally, which somewhat interfered with the work. Small grain is now about all cut and threshing is in progress in the Northern counties. Corn has grown well and continues to promise a very large crop; in several of the southern counties more rain would be beneficial to corn, but in only a very small area in the southwestern portion of the state has the crop been damaged by lack of rain.

SARATOGA, N. Y., Aug. 13.—The horses in training owned by Clarence H. Mackay were sold in the paddock here today. Ten were sold for a total of \$61,400. As expected, the two-year-old Mexican brought the top price. Starting at \$10,000, with L. Waterbury, F. J. H. Healy and W. L. Powers as bidders, his price advanced to \$20,000. R. T. Wilson, jr., secured him.

Refuse to Pay Lemon Duty.

NEW YORK, Aug. 13.—The appraiser at this port has sold for the government in the last three weeks 100,000 boxes of lemons because the importers declined to pay duty on them. Most of the lemons imported here come from Mediterranean ports and the amount has been greatly increased within a few years. They used to come in sailing vessels, but now they come in steamers, which bring much larger cargoes.

He chooses two children from one of the neighboring tribes, keeps them a year and then exchanges them for other children. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Intoxicated by Eating Beans.

Among the peasants of southern Italy, Sicily and Sardinia a curious malady has been noticed by physicians, which is caused by eating beans. One of the most remarkable effects of the malady is a species of intoxication resembling that produced by alcoholic drink. In some cases persons predisposed to the malady are seized with the symptoms of intoxication if they pass a field where the bean plant is in flower, the odor alone sufficing to affect them.

Old Ship Broken Up.

What is stated to be the oldest ship in the world has recently been sold at Tenerife to be broken up. This is the Italian ship Anita, registered at the port of Genoa. The Anita, which resembled Christopher Columbus' ship, the Santa Maria, was built in Genoa in 1548, and effected her last voyage at the end of March, 1902, from Naples to Tenerife, six or seven weeks ago. The Anita was of tremendous stout build, and had weathered countless storms and tornadoes in all parts of the world, but she was also the slowest ship afloat.
