CAESAR's wife wouldn't stand much show with the present legislature. There are a few rubs who would insist upon being shown.

GENEROUS America! Of the \$258,000 sent the Swedish-Norwegian famine sufferers, America subscribed \$85,000 or about one-third of the total sum.

SMITH T. CALDWELL, the well-known South Platte politician, died at his home near Edgar, Sunday, of Bright's disease, in his 58th year. He was a pioneer Nebraskan.

THE heart grows sick in contemplating the contests, guessing matches, premium offers being everywhere offered the public. Why not transact business on business principles and leave the grafters to their own.

HINKY DINK has had another troubled vision in which he saw it were the "businessmen of McCook making fools of themselves and thereby driving a (prospective) beet-sugar factory out of Redwillow county." Hinky must be tussling with a particularly tough worm in his little insides.

ONE of the severest storms of the winter prevailed in the mountains, Wednesday, coming as far east as the Nebraska state line. There were regular cyclone conditions, heavy snow, severe wind and low temperature. The loss to stock was the greatest of the winter. Business and traffic in Denver were suspended during part of the day.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure
relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad eating, sour risings, a sense of fullness after breath, indigestion, dyspepsia and all stomach troubles.

Lincoln Letter.
Lincoln, Neb., March 16, 1903.
Special Correspondence.

The house spent the greater part of last week in the consideration of the revenue bill, several evening sessions being held for that purpose. Great headway was made and it is expected that the house will finish the consideration of the bill this week and send it along to the senate. The members of the latter body have been carefully watching the amendments offered by the house, and the general belief is that they will be generally accepted there, and the bill passed on short consideration.

Some of the objections urged against the new bill at the start were that it would increase the taxes of the farmers by taking valuation in the winter when they had a large amount of grain on hand. This was changed by the house, and the date of the assessment will be the same as under the old law. Stock under six months of age is expressly exempted from assessment. The proposition to make taxes a first lien on personal property from and after the first of April was changed, so that the date is now the first of October.

The principal contest in the consideration of the bill, therefore, hung on the proposition advanced by the Democratic platform, that railroads should be assessed on the basis of their stocks and bonds. The Fusionists were lined up on this question by their party whip, and some few Republicans were also caught by the plausible argument. The debate on the question lasted two days and on the final vote the fusion arrangement was defeated by a vote of 58 to 36, the Douglas county members generally joining with the Democrats.

During the progress of the discussion on this bill it developed that the largest railroad system in the state would under the democratic experiment be assessed practically on a capitalization of \$10,000, its stocks and bonds having been all withdrawn by the Northern Security company, a non-resident corporation. This and some other features of the proposition showed that the Democratic amendment was either foolish or purposely vicious. The leading fusionists admitted that they were advocating it in order to furnish an issue for the coming campaign. The bill as finally amended in this section provides for arriving at the valuation of railroads from every obtainable source, being more stringent than the old law.

An attempt was made during the week to have a sifting committee appointed in the house, but the move was a failure. The members decided that until the revenue bill was out of the way and a start was made on the regular appropriation bills, there was no need for the services of a sifting committee. It is expected that the appropriation bills will be taken up this week. There will be an effort to dispose of them and get them over to the senate in time so as to avoid the haste and confusion which has always marred and sometimes disgraced the closing hours of past sessions.

The senate has introduced 303 bills, and the house 487. Of these, 19 have passed both houses and have been signed by the governor. One bill has received the veto of the executive.

The sifting committee of the senate comprises Warner of Dakota, Wall of Sherman, Day of Nuckolls, Way of Platte, Hastings of Butler, O'Neill of Lancaster, Hall and Saunders of Douglas. It will be the duty of this committee to examine the bills on general file and decide each day which ones shall come up for consideration.

One of the bill "sifted" out by the senate committee is H. R. 136, providing for the depositing of county money in banks on the payment of 2 per cent interest, and providing that the money be deposited in banks outside the county where the county banks have pooled and refused to pay interest, as has often been the case heretofore. There is no question that this bill will reach the governor in a few days, will result in the correction of the abuse of handling county.

What's In A Name.
Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago, discovered some years ago, how to make a salve from Witch Hazel that is a specific for piles, hemorrhoids, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases. DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine.

Burlington Grants Increase in Wages.
BURLINGTON, Iowa, March 17.—The officials of the Burlington system have authorized the announcement of an increase of ten per cent in the pay of station agents, telegraph operators, station employes, bridgemen, pumpmen, round-house men, pump men, bridge men, water service men, car repairers and others who yet have not been given an increase. Home for Families of Bandits.
Not actuated by remorse, but by pure philanthropy, Jim Jenkins, hunter of outlaws, has concluded to devote all his money to the maintenance of a home for the orphans and widows of men he has run to earth, in particular, and of criminals of the great Southwest in general. Jim Jenkins, now of Kansas, is now 65 years old and has spent forty years as a scout and hunter of bandits and train robbers. In this way he has made about \$50,000. Among the distinguished outlaws he has chased were Jesse James and his brother, Bob Ford, Bill Dalton and Bill Cook, while he was the leader of the band that caught Cherokee Bill in 1895. In the Dalton raid in Coffeyville, Kas., Jenkins was shot eight times. He estimates his bag of bad men at about 150. The home, which is being built on a 5,000-acre farm owned by Jenkins, near Pryor Creek, I. T., is to cost \$20,000.—Buffalo Express.

"Back" Pay For Old Soldiers.

WASHINGTON, March 14.—Shortly before leaving Washington for Nebraska, Representative-elect G. W. Norris of the Fifth district received a letter from an old soldier in McCook enclosing a circular letter from a firm of lawyers in this city. The circular letter was to the effect that the veteran was entitled to collect a sum of money from the United States government, and the attorneys agreed to make the collection upon a contingent fee of 40 per cent. The amount of the alleged claim and its nature were not stated and the old soldier was ignorant of any money due him from "Uncle Sam."

Mr. Norris was unable to attend to the matter before he departed and Senator Dietrich consented to investigate it. The result of the investigation reveals the fact that a number of old soldiers have been credited with certain amounts of back pay because the date of muster has been found to have been earlier than the date formerly ascertained, and for other reasons. The amount due any one soldier is scarcely ever more than \$100 or \$200, and the cases in point are not numerous.

It is thought by the war department officials that several firms of attorneys have secured lists of names of old soldiers, probably from clerks on the inside, and have sent their circular letters broadcast over the country in the hope of rounding up a large number of clients, for it has been found that many old soldiers, who have received similar letters, have nothing coming to them from the government upon the grounds suggested. In a number of cases, according to officials at the war department, veterans have received five or six letters from as many different lawyers or firms, asking permission to make collections alleged to be due.
