### A PROMINENT CHURCH WORKER SAYS SHE OWES HER LIFE TO PE-RU-NA.

Mrs. Hattie La Fountain, Treas. Protected Home Circle and Catholic Ladies of Ohio, writes from Galion, O., as follows:

"After my first child was born I suffered for several months with bearing down pains accompanied by dreadful headaches. I was afraid my health was ruined for life, and felt very downcast about it. One days when a friend was visiting me she told me of Peruna and what it had done for her when she suffered with irregular menstruation. My husband procured a bottle the same evening and I began to take it daily according to directions. Before the first botte was used I was entirely well, ar you certainly have one grateful woman's blessing. I have also advised my friends to use it."

HER GREAT FORTUNE.

A Woman Saved From Life-Long Misery and Made Happy and Useful.

A woman confined to the house for scyeral years with a chronic female derangement had finally given up hope of being

She had tried physician after physician, and remedy after remedy, without any per-

manent improvement. Her treatment had cost her husband, who was a poor man, hundreds of dollars. They had been obliged to deny themselves many comforts of life in order to get money enough to pay the physicians.

The woman had become weak, nervous and wretched, and scarcely able to keep out of her bed. Her children were growing up neglected and ragged because of the want of a mother's care. Her husband was becoming discouraged and broken down with overwork.

Picking up the paper one day she happened to read an item which contained the news that Dr. Hartman would treat such cases free of charge by letter. She immediately wrete the dector describing her case, and giving him all her symptoms.

She soon received a letter telling her exactly what to do, and what medicines and appliances to get. She legan the treat-ment (the principle remedy being Peruna) at once, and in a few weeks she was well and strong again, able to do her own work. This offer of free home treatment to wom-

en is still open to all who may need the servces of this eminent physician. All letters applying for treatment will be promptly answered, and be held strictly confidential Miss Annie Hoban, Post Pocahontas of Yemassee Council of Red Men (Women's Branch), writes from 872 Eighth Ave., New York:

"Three months ago I was troubled with backache and a troublesome heaviness about the stomach. Sleep brought me no rest for it was a restless sleep. The doctor said my nervous system was out of order but his prescriptions didn't seem to relieve me. I was told that Peruna was good for building up the nervous system. After using it for two months I know now that it is. I want to say that it made a new woman of me. The tor turing symptoms have all disappeared and I feel myself again. Perun Jid me more good than all the other medicines I have taken.'

ANNIE HOBAN. Miss Mamie Powell, Lake Charles, Louisiana, writes:

"I sincerely believe that Peruna is woman's best friend, for it has certainly been that to me. I had had headaches, backaches and other aches every month for a long time, but shortly after I began taking Peruna this was a thing of the past, and I have good reason to be grateful. I take a bottle every spring and fall now, and that keeps my health perfect, "I have known several women who were | and I certainly am more robust now than MISS MAMIE POWELL

NEBRASKA'S SOD SCHOOLS. Many Have Been Replaced with More Pretentious Buildings.

The rapid decrease in the number of sod school houses is one of the evfdences of the advancement in material growth of the public schools of Nebraska. The number of school dis tricts in the state last year was 6,666 Of the 6,813 school houses then in existence 5 900 were frame, 237 brick, 26 stone, 121 log, three iron and 425 sod. The change-in number will not be known until all the counties file re ports with the state superintendent. Eighteen counties had one or more log schools and 37 counties had one or more sod schools.

While many people living in the state have never seen a sad house of any kind, the western part of the state, particularly in the grazing region, is dotted with school houses made of sod. The fine school buildings in towns of one thousand or more inhabitants usually attract the favorable attention of visitors to the state. The tourist rarely finds the interior districts where the sod house still reigns supreme. Out of 6,813 school buildings in the state last year, 436 were of sod. The reports that have thus far reached State Superintendent Fowler's office indicate a decrease of at least 100 in this number. Custer county, partly a grazing and partly an agricultural region, comprising territory as large as four ordinary counties and containing 250 school districts, still leads the list in the number of "soddies." Last year it hadd 99, this year it has only 73. Mc-Pherson, purely a grazing region, had a total of six school houses last year, and they were all of the sod variety. It has the same number this year.

street, in that city, says: "With my nightly rest broken, owing to irregularities of the kidneys, suffering intensely from severe pains in the small of my back and through the kidneys, and annoyed by painful passages of abnormal secretions, life was anything but pleasant for me. No amount of doctoring relieved this condition, and for the reason that nothing seemed to give me even temporary relief I became about discouraged. One day I noticed in the newspapers the case of a man who was afflicted as I was and was cured by the use of Doan's Kidney Pills. His words of praise for this remedy were so sincere that on the strength of his statement I went to the Hugh Murrey Drug Co.'s store and get a box. I found that the medicine was exactly as powerful a kidney remedy as represented. I experienced quick and lasting relief. Doan's Kidney Pills will prove a blessing to all sufferers from kidney disorders who will give them a fair trial."

#### The Kaiser's Artistic Tacte.

The refusal of the German National Gallery to purchase Professor Kampf's The Sisters," which was the pictura of the season, still excites German con' noisseurs. The cause of the refusal is the kaiser and the often-expressed belief that art should express only that which is cheerful and pleasant. According to the commonly accepted story during the exhibition the kaiser was being piloted around by Professor Kampf himself. When he reached the picture his majesty wanted to know who had painted those two miserable little girls. Kampf admitted he had done it. The kaiser made no comment but notice of the refusal of the gallery to buy the picture followed a few days

#### New York's Sea Cow.

New York may be a bit shy on the' bones of extinct animals, but she boasts of a fine collection of living monsters that are very rare. There is now on exhibition in the aquarium a sea cow weighing \$00 pounds. It was caught a week ago last Tuesday in the Indian river, about four miles from Roseland, Fla. The sea cow has the general appearance of a seal, except that it has a beaver's tail, is minus hind legs and has a perfect cow's mouth. It is found along the Atlantic coast of North, Central and South America, and goese up the Amazon to the border of Peru. It generally lives in the lower parts of rivers and brackish lagoons.

#### BUSY DCCTOR

The physician is such a busy man that he sometimes overlooks a valuable point to which his attention may be called by an intelligent patient who is a thinker.

"At the time my own health was bad and I was pretty well rundown but I saw in a minute that the theories behind Grape-Nuts were perfect and if the food was all that was claimed for it it was a perfect food so I commenced to use Grape-Nuts with warm milk twice a day and in a short time began to improve in every way, and now I am much stronger, feel 50% better and weigh more than I ever did in my life.

"I know that all of this good is due to Grape-Nuts and I am firmly convinced that the claims made for the food are true. I have recommended and still recommend the food to a great many of my patients with splendid results, and in some cases the improvement of patients on this fine food has been wonderful.

Origin of the Hansom. The hansom was the invention of Joseph Hansom, the architect of the Birmingham town hall. But the twowheeled cab he patented in 1834 little resembles the vehicle which now bears his name. It had a square, sedan-chair-shaped body, hung between two wheels nearly eight feet high. The driver's seat was in front, as also was the door; the fare entered the cab between the wheel and the shaft. The modern hansom was adapted from this original by Messrs. Gillet & Chapman.
