Graceful Women

A Desire for a Perfect Figure is inseparable from a Love of the Beautiful.

The scent of the violet or rose is as precious as the lovely flowers whose breath they are, and while the lives of flowers are brief and we can only enjoy them for a day, the beautiful woman gives the pleasure of her fragrance to us as a permanent blessing. The soft fragrance of a beautiful woman suggests purity, health and elegance; she is the refinement of civilization; an index always of good taste and an unerring badge of gentility.

Henry Kleven entertained a number of his gentlemen friends, Tuesday evening, at his home, in honor of Principal E. A. Brittenham. The boys admit having a fine time. Those present were: Charles Knowles, Casper Hoagen, David Benedict, Henry Wallingford and Frank Hassler.

The entertainment given by the Culbertson high school Saturday night was attended by a large number of patrons and citizens of this place and was thoroughly enjoyed. Without giving a detailed account of the exercises we will say that several parts were well rendered reflecting no little credit upon teachers and pupils participating in the program. After all, however, there is a question whether the time expended in these annual school entertainments could not be more profitably employed in the regular school work.

The Culbertson ditch has been over-hauled and is now in splendid working order, due to the indefatigable efforts of E. E. Maxon and C. H. Meeker of McCook. The ditch was in very bad shape, owing to the rotten condition of the wooden flumes which have been in use since the ditch was first constructed, a dozen years ago. We understand that it is the intention of the Standard Beet Co. to replace these old structures with steel pipe or earthen dikes or dykes, which will make this ditch one of the most successful in the west.

The Standard Beet Sugar Co. is busily engaged in thinning the beets in its 400 acre field north of town. It is an interesting sight to witness from 75 to 100 children crawling along the beet rows on their hands and knees thinning out the beets so that one plant is left standing every six to eight inches. The children are paid by the row and work under overseers who are held responsible for the work. It will take eight or ten days yet before the company will get through with the work of thinning, and all who wish to witness the scene can do so within the time mentioned.

The telephone service installed by the Nebraska Telephone Co. in Culbertson is something wonderful to contemplate. Two party lines connect us with the McCook exchange, each line having 20 or more subscribers, and it is a rare thing to get a chance to use the line in case of an emergency. When Sallie Jones who by the way is one of the most persistent users of the line, calls up Willie Smith at McCook, which is quite frequent, the conference usually lasts from an hour to an hour and a half, all the other subscribers on the line are compelled to wait until Sallie and Willie get through with their silly twaddle, which all are compelled to hear. We are living in hope that the company will put up an extra wire and make it possible to hold a conversation with some privacy. The Wray Telephone Co. is building from the west and will have its line completed

to Trenton in a few days. We are informed it is their intention to build on through to McCook, when we will at least have the opportunity of choosing between competing lines.

When the Sap Rises weak lungs should be careful. Coughs and colds are dangerous then. One Minute Cough Cure cures coughs and colds and gives strength to the lungs. Mrs. G. E. Fenner of Marion, Ind., says: "I suffered with a cough until I run down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by L. W. McConnell.

Thousands can testify to that. Mrs. C. B. VanMetre of Shepherdsboro, W. Va., says: "I had a severe case of bronchitis and for a year tried everything I heard of, but got no relief.
