### What's a Dollar?

It's a hard thing to get when you haven't got one, and an easy thing to get rid of after you've got it. Dollars usually go like sheep—in flocks—and when one starts to go they all follow. It's an easier thing to accumulate your second dollar than your first, and it is easier to get rid of your second hundred than your first. Many a woman throws away the dollars that her husband works hard to get—not wilfully, but "just because." The women who are helping their husbands save money are ordering their Boys' Clothing from our new Fall Catalog. Look on page nine and see what lovely Suits we are selling for \$2 and \$2.60—Ladies, we can't see how you've got the heart to buy these Suits of your home merchant and pay him 25 per cent more than these prices. On page two of our Fall Catalog we show some very fine Suits for Men at \$10. Send for samples or look in the book and see. If you haven't a Catalog we'll send it free.
