"Go West,"

Ranch it and rough it and you'll soon get rid of that weak chest and that hacking cough. That is what the doctor said to a young married man with a wife and child to care for and a modest salary to support them on. He couldn't go West. Love and duty tied him to his desk in the city.

People don't have to travel to cure coughs or strengthen weak lungs. Dr. Pierce's Golden Medical Discovery cures obstinate, deep-seated coughs, bronchitis, bleeding of the lungs, weakness, emaciation and other forms of disease which if neglected or unskillfully treated terminate fatally in consumption.

"I will write you what Dr. Pierce's Golden Medical Discovery has done for me," says George H. Belcher, Esq., of Dorton, Pike County, Ky. "Thirteen years ago I was wounded by a ball passing through my lung. I have had a bad cough almost ever since, with shortness of breath, and it was very easy to take cold; the slightest change of weather would cause the cough to be so bad I would have to sit up in bed all night. Could not eat or sleep at times; was all run down, could not work at all. A few months ago I began using Dr. Pierce's Golden Medical Discovery. Have not used more than two bottles, and now can eat, sleep, and work, and I feel like a new man. I cannot find words to sufficiently recommend Dr. Pierce's Golden Medical Discovery, or tell the good it has done me."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. The book has 1008 pages and over 700 illustrations. Address Dr. R. V. Pierce, Buffalo, N. Y.

Your correspondent was in McCook, a few days before Xmas, and was attracted by Santa Claus in one of the store windows. Speaking about this to one of the clerks we were told that a little boy had been standing in front of the store all forenoon gazing at the window display and when they spoke to him he said he wished Santa would bring them something to eat for Xmas. Our betterhalf tried to find the little fellow but he was gone.

In our fruit paper we note a statement by Henry Field of Shenandoah, Iowa, (the place where we were born) that Shenandoah had a population of five thousand and that they had no saloon nor never had had any. That every year, the day before Thanksgiving, they bring dinners for the poor to the Ladies' Aid headquarters. On Thanksgiving, 1904, they were provided with immense quantities of food, when lo and behold they could not find a single family in that town of five thousand population that could not buy their own Thanksgiving dinner.

R. H. Nichols is out from Johnson county on a twenty one days excursion. Mrs. Nichols and the little one did not come on account of the scarlet fever scare. Robert says that apples and peaches were so abundant and so cheap there, this year, that they were allowed to rot on the ground, as freight rates were too high to pay to ship them to western Nebraska. They shipped one car of apples from Johnson county to Colby, Kansas, and the freight just ate up the car. Why are freight rates from New York to the west better than from the eastern part of Nebraska to the same points.

He cut a tree down and in falling it had lodged in such a manner as to pinion him down and he could not extricate himself. He called his partner, a young man who was helping him, to his assistance. The boy had to chop the tree through again before Mr. Jensen could be liberated. He was considerably bruised about the arm and shoulder.

Dan Harrison of the firm of Harrison & Harrison suffered a severe accident, the other morning, and one might judge by looking at his face that he had been in a prize-fight. As he was coming down the steps of his residence in some unaccountable manner he slipped and fell. The ground flew up and hit him in the face, skinning his nose, blacking his eye and otherwise spoiling his good looks. And yet Dan stoutly denies taking anything stronger than water.

Are you a judge of beef cattle? If so you should read the article on "The Modern Type of Beef Animal," by Leslie Smith, of St. Cloud, Minn., in this week's Homestead. If not, you should read it anyhow and get this able expert's views. Mr. Smith pronounces four or five breeds equally good and names as such Shorthorns, Herefords, Aberdeen Angus and Galloways. He regards climatic adoption as important and insists on uniform laying on of flesh. He lays down all the points in judging beef cattle and also defects to be avoided. He regards easy feeding and quick maturing animals as best and warns against feeding too long. "Get the best breed," he says, and breed right, feed right and prosperity will be yours." Such articles as these every week have made The Homestead the great farm journal of America. It should be in every farm home in Red Willow county, and it will not be the fault of THE McCOOK TRIBUNE if it is not. We shall be glad to order it for you.
