Farmers' Institute Lecturer. T. C. Ferguson of Beaver Crossing. Subjects: "Growing and Marketing of Potatoes," "Soil Tillage."

Mr. Ferguson will speak on the "Growing and Marketing of Potatoes." He has been on our force only one year, but in this short time he has proven himself to be one of our strongest institute speakers. Few farmers can sum up more practical experience to their credit. Mr. Ferguson is intimately acquainted with the business from the growing of a few hills in the garden to the raising of a hundred acre field. He has travelled in the potato field one-third the distance of the circumference of the globe. He has dug 50,000 bushels and sold potatoes to 15,000 people. He has imported and distributed over 15,000 bushels of seed. The tests that Mr. Ferguson has conducted have been very extensive and exact, and has produced regularly in his fields over three times the average yield of the state. He has found that one proper cultivation given at the right time adds 30 bushels per acre to the yield, and that one failure to cultivate at the right time often ruins the crop. With this practical knowledge gained in the field, Mr. Ferguson combines the knowledge gained by visiting all the leading potato growing districts from Canada to the Gulf, studying the soils and methods of cultivation. He presents the result of the vast amount of experience in a practical and entertaining manner. This season he marketed his crop at 60c per bushel.

LaGrippe and Pneumonia. Pneumonia often follows La Grippe but never follows the use of Foley's Honey and Tar. It cures la grippe coughs and prevents pneumonia and consumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, of 157 Osgood St., Chicago, writes: "My wife had a severe case of la grippe three years ago, and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely." Refuse substitutes. Sold by A. McMillen.
