COLIC, CHOLERA AND Diarrhea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhea. It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

PRICE, 25c. LARGE SIZE, 50c.

Farmers!

I have now completed my mission to your county and I now leave you after ten days pleasant business acquaintance with the good people of Red Willow county. I am pleased to add that I have found a people that are far above the average of the state for honesty and square dealing. I wish to announce to you all that I have made Walter J. Goehring a life agent to furnish my liniment known as "Acor's Healing Liniment" and it will be furnished by him to all upon conditions that the money be returned to any one who shall say that they did not have their money's worth. Mr. Goehring is responsible and I make it compulsory that he shall not let a bottle go to any person unless he gets the cash down. Those who are honest will not ask it without the money when I have it sold upon the above conditions. He will soon place it in the hands of one local agent for each town. Mr. Goehring is a farmer ten miles southwest of McCook. Thanking all with whom I have so pleasantly dealt, I am yours in well wishes.

Wm. D. Acor, Colorado Springs, Colo. The Author.

I will forfeit \$500 for any man's treatment that can equal my liniment to heal wounds and for all purposes.

Delmont, S. D., Dec. 17, 1902.
I used L. K. for hog cholera and it was all right. It cured my hogs. I had three sick ones and they all got well and done fine. I also used it for chicken, lice and mites and it is all you claim for it. It is the only medicine for hog cholera, I think.
