Court House Tower Clock Installed.

The work of installing the big clock in the court house tower has been completed today, Mr. A. W. Payne, a representative of the E. Howard Clock Co., of Boston, Mass., being in personal charge of the work.

The clock cost about \$800 and is the splendid gift of Major Albert Barnett, president of the Barnett Lumber Co., to the county.

The clock is the product of the Howard Co., which is a guarantee of its first quality.

The dials are almost seven feet in diameter and the time may be read from a distance of several blocks from the court house.

The clock is a regular striking tower clock, but is not equipped with a bell at present. THE TRIBUNE hopes the county or citizens of McCook will make good this feature.

THE TRIBUNE believes this is the only tower clock in this part of Nebraska, and undertakes to recognize the generosity and public spiritedness of Major Barnett and express to him the keen appreciation of the people of McCook and of Red Willow county.

CARNIVAL NOTES.

TRAVELING MEN'S DAY, SEPT. 1.

The way acceptances are coming to Jimmy Woodson leaves small room for doubt that Friday, September 1st, Traveling Men's Day, will be one of the notable days of carnival week, a week full and running over with special days and features—something doing all the time. More than a hundred commercial tourists make this city in their regular trips and most of them expect to be at the big show, September 1st.

AN IMPORTANT MATTER.

The Carnival Committee on lodging conveniences desire to inform any one who will undertake to conduct lodging places during Carnival Week, that tents can be had for \$1.25 rental for the week, cots 25c, blankets 25c per pair, stools 10c each pillows 13c each. Arrangements can only be made by applying before Saturday, 6 p. m., Aug. 19, to L. W. McConnell or Geo. Thompson, Committee.

THE LIVE STOCK SHOW.

The management of the live stock exhibit for the approaching show to be held in connection with the street fair and carnival, August 28, 29, is able to announce that it has secured the services of two of the best judges of live stock to be found in Nebraska, to pass upon the merits of the large exhibit promised. Thomas Andrews of Cambridge will judge the horses and hogs and Capt. W. J. Evans of this place will pass on the cattle. Persons making a showing of stock can safely leave the question of merit in the hands of such men. Indications are that the fine stock showing will be made a success in every particular.

The Wheat's Top Coat

is a woody outside cover of the grain and serves a good purpose—the same as a walnut shell—but you can't digest either. The entire outer coating is removed from the grains of wheat before making the delicious and appetizing California Wheatose.

Flaked wheat food for breakfast. All good grocers.

Most Satisfactory Of All.

The McCook junior normal, which closed on last Friday afternoon a ten-days' session, is acknowledged by all as having been the most successful and satisfactory of the three sessions. Although the attendance fell a little below the attendance of last year—perhaps traceable to the charge of \$2.00 per individual for tuition—the work of the session of 1905 is regarded as having been more solid and satisfactory than that of either of the preceding years.

Another fact is noteworthy, namely, the large number of extra features during 1905, over and above the regular attractions. Upon enumeration, it appears that over fifty extra attractions were enjoyed during the session of 1905,—we mean by this features not regularly on the program for the sessions. And all of them were worthwhile, and some of them were especially good.

Score a Fine Success.

Miss Edna Barr and Miss Hazel Hare scored a distinct artistic success, last evening, in their recital in the Methodist church, the musical being generally regarded as one of the very best of the season.

The program given below shows the quality of the music rendered, and the generous approval of the audience was indicative of their appreciation of the efforts of the young ladies who have been most faithful students of the masters.

They were ably assisted by Mrs. G. H. Thomas and Mr. John N. Gaarde. A good-sized, appreciative audience greeted them.

The program given is as follows:
