Almost every day we have parties from the eastern part of this state and other states saying: "I had no idea Red Willow was so good a county."

Red Willow county has seldom received so high a compliment as the premium from the state fair for exhibits of fruit, vegetables and stock that won premiums over all competitors.

The many readers of THE McCOOK TRIBUNE deeply regret the necessity of the mention made, last week, of the utter failure of Sheriff Crabtree to perform his official duties. Art Crabtree without intoxicants has many friends in Red Willow county who have reasoned and plead with him to abandon the evil of drink, but all of no avail. He who was once a competent official and respected gentleman, has lost all and is ruined by strong drink. The people are all losers in respect because of the acts of this official. The prevention of future like occurrence can be assured by turning down candidates for public honor and trust who are addicted to strong drink.

THE SAVING HABIT

Should be encouraged in all possible ways. Like good morals and manners, the instruction should begin in the home. As early habits mold the future character, so do those who early acquire the saving habit, lay the foundation for future success. Many a boy has saved enough from his small earnings to give him a liberal education or to make a start in business of his own. Persistent saving opens the way to countless possibilities in success, and many a young man owes his start in life to his having opened a savings account and adhered to a strong determination to add to regularly and systematically the first deposit made. We invite your savings accounts.
