

JUST A LITTLE DIFFERENT

That touch that adds just a little more style, character and tone, to distinguish them from the ordinary, everyday kind of shoe sold by the general stores. There is a solidity in the make that also gives to our goods the wearing quality, lacking in so many shoes you have bought, and makes them look neat till they are worn out. It pays to buy the kind we handle. We are exclusive dealers in footwear, and therefore can afford to and do carry a larger stock, and in all grades, than is possible for those who do not make a specialty of this line.

Home for Families of Bandits.
Not actuated by remorse, but by pure philanthropy, Jim Jenkins, hunter of outlaws, has concluded to devote all his money to the maintenance of a home for the orphans and widows of men he has run to earth, in particular, and of criminals of the great Southwest in general. Jim Jenkins, now of Kansas, is now 65 years old and has spent forty years as a scout and hunter of bandits and train robbers. In this way he has made about \$50,000. Among the distinguished outlaws he has chased were Jesse James and his brother, Bob Ford, Bill Dalton and Bill Cook, while he was the leader of the band that caught Cherokee Bill in 1895. In the Dalton raid in Coffeyville, Kas., Jenkins was shot eight times. He estimates his bag of bad men at about 150. The home, which is being built on a 5,000-acre farm owned by Jenkins, near Pryor Creek, I. T., is to cost \$20,000.—Buffalo Express.

Subsidies to Support Art.
The government of Bavaria has voted a considerable sum for the maintenance of art institutions throughout the kingdom during the coming year. The allowances for the purchase of paintings and their preservation is particularly liberal. The various art institutes in Munich receive handsome subsidies and the Germanic museum in Nuremberg gets an increased allowance. Various other institutions have been voted large amounts for repairs and maintenance. These art allowances in all reach 3,108,163 marks (\$739,741).—Emil Hensel, in Chicago Record.

Typhoid Rate and Pure Water.
In Vienna the typhoid rate of 12.5 deaths to 10,000 inhabitants fell to 1.1 after a pure water supply was obtained. In Dantzig the mortality fell from 10 per 10,000 to 1.5. In Munich, after the introduction of a good water supply and proper sewerage, the rate fell from 21 per 10,000 to 6.3, and in Boston from 17.4 to 5.6.

Do You Know why your children tire of most breakfast foods? It is because of the presence of indigestible matter and the absence of nutritious elements.

is digestible, because being free from fibre and thin flaked, it is easily assimilated. Is nutritious, because made of only the finest quality, sound, plump wheat. In two pound packages. Sealed to protect its purity and flavor. All good grocers.
