#### Where the Fore and After Beats the Square Rigger.

The ability of the schooner to meet the requirements of present day conditions, while the square riggers have preparing a program for Childrens' been found wanting, can be readily Day. understood when we take into consideration the numerous advantages possessed by the fore and aft rig that are easential to the ideal carrier.

Operating expense, that prime factor in all transportation problems, is here reduced to a minimum, for there is no motive power so cheap as the free winds of heaven and no other craft so well adapted to utilize and control this force. The sails are of handy form and can be readily handled from the deck by a handful of men or with steam power if desired. The schooner can sail several points nearer the eye of the wind than a square rigger is able to do.

Built on the old clipper model, they sail like witches and owing to their peculiar constructions can be readily loaded and discharged. They require but little ballast and having no heavy top hamper can, if necessary to the trade, take on immense deck loads. In the lumber traffic of the Bacific northwest we find these vessels leaving port with huge deck loads towering ten to fifteen feet above the rail. Occasionally they get caught in a blow and have to sacrifice a portion of the deck load, but where one meets such a mishap dozens reach their designations, safely and land their cargoes intact .- James G. McCurdy in Outing county judge June 3. Magazine.

#### A GAME OF POKER.

It Was an Object Lesson on Playing Cards With Strangers.

A card sharp well known to the stewards of the great ocean liners was a passenger on a recent trip across. He received a line at Queenstown, which had the effect of keeping him out of the large games in the smoking room. He contented himself with penuchle and bridge at 25 cents a hundred points. On the evening before landing one of his bridge party, none of whom knew that he was a professional with a bad record, proposed changing the game to poker. "It's bad practice," said the card sharp, "to play poker with strangers. There's too ing through the TRIBUNE the two papers much risk, but it's all right in this case." The others said there was no risk if a man had good sense and kept his eyes open. The deal fell to the professional, and when cards had been been made in the county clerk's office drawn by each man he said: "Now since our last report: I'll show you how much you know. Edward E. Parker & wf to Nils J Mr. A, you have the winning hand. Mr. B, your three queens look good, but what show have they against Mr. C's four fives? And what good are they against A's four kings? Does it

It did, and A said, "Well, it's my pot."

I dealt myself a straight flush." He showed it, arose from his chair and said: "Give the steward what I put in. This was an object lesson-don't play poker with strangers." - New York

# The Barbecue.

The word "barbecue" is derived from the Spanish word "barbacao" and is a United States to Mathew A Crane, pat native Haitian term for a wooden framework supporting meat or fish to | Ella M Thrailkill etcons. Alice GWales be smoked or dried over a fire. In its popular sense it means a large social or political entertainment in the open air at which sheep or oxen are roasted whole and all the feasting is Indianola How Impl & Furniture Co on a most liberal scale. Georgia is probably the native home of the barbecue and is called the Barbecue State, Who prepared the first barbecue is unknown. Deer, bear and other game constituted the meat roasted in the barbecues of fifty years ago.-Cincinnati Enquirer.

# The Butcher's Smock.

The butcher's smock was blue. It looked much neater than the white smocks of his friends, all smeared with dried blood. "Every butcher," said the man, "ought to wear a blue smock. Why? Because dry blood won't show on it. Dry blood turns bluish, and on a smock of this color it is invisible. I am descended from a long line of butchers, and from father to son the word has been passed down always to wear, for neatness' sake, a smock of blue."-New Orleans Times-Democrat.

# Croutons.

To cut bread into dice before frying, if it is to be used as croutons, is not the most approved method. When done in this way it becomes very hard and indigestible. The bread should rather be cut into thin slices and then stamped out in circles a little larger than a quarter or cut into squares of about the same size or in oblongs two inches long and over one-half inch thick. These tossed into hot lard and taken out almost instantly in the frying basket are the most palatable.

# Queer Marriages.

In southern India marriage with inanimate objects is not altogether unknown. A man who has lost two wives and wishes to marry another will go through a formal marriage ceremony with a plantain tree, which is afterward cut down. This stands for the third marriage, which is considered inauspicious, and the man feels free to make a fourth marriage with a third woman.

The Modern Version. "I want my boy to be able to earn his own living."

"To earn it, Mr. Merger?" "Well, to get it."-Washington Her-

Hypocrisy is the necessary burden of villainy.-Dr. Johnson.

#### PLEASANT PRAIRIE.

The Beaver Valley Telephone Co., will soon have their line in working order in this vicinity.

Pleasant Praire Sunday school are

J. H. Relph had some corn shelled last week, John Styresdoing the work. Robert Lofton visited friends in this

vicinity, Saturday and Sunday. Alex Ellis was in McCook Saturday

and brought out a new wind mill. Clarence Bell of Cedar Bluffs, is visiting with relatives here this week.
