

of Otero county, which has a population of 7,200.

## Prices Low, Terms Easy

Our water rights are unexcelled. We have just completed the best reservoir in the State of Colarado, and in addition have an ample river decree. All lands sold by us are watered by the OTERO CANAL. This insures you abundant water.

Alfalfa nets \$40 per acre in our section and is very easily raised. Forty acres of alfalfa will educate the children and leave you a comfortable margin. Compare this with the income from 160 acres in Iowa, Nebraska or Illinois. Desirable land at a reasonable figure is fast disappearing. Don't Delay.

Cantaloupes net from \$75 to \$150 per acre each year. We are in the Rocky Ford District and our market is established.

La Jounta is the end of three divisions of the Santa Fe Ry. and has the railroad shops which employ 1,200 men whose payroll is \$90,000 per month. We can ship our products direct to Kansas City, Chicago, Denver or Los Angeles.

Our public school system is second to none.

## Prices run from \$20 to \$115 per Acre

Very liberal terms, with six per cent on deferred payments.

The land of the Otero Irrigation District at La Juata, Colorado, offers irresistible inducements to the homeseeker.

Transportation facilities are the very best.

The climate is pleasant the year round.

The farm tracts are close to a due city with good schools, and this community offers every social and industrial advantage that the farmer is seeking.

There are 10,000 acres now for sale in small and large tracts, not far from Rocky Ford, in the very heart of the most productive cantaloupe and sugar beet district.

I invite correspondenc and will be glad to furnsh you with circulars, maps. etc., and we guarantee that if you investigate this proposition and find it misrepresented either by us or by the literature of the LA JUNTA LAND CO. we will pay the entire expenses of your trip. For further information address

## H. L. KENNEDY

GENERAL AGENT.

McCOOK, NEBR.
