The business on these trains has been growing rapidly since February 1, but the business necessarily is local. ## No Great Difference.

Indications now are that there will be no great difference in rates to the west coast this year, and tourists wh are figuring on the trip will find that regulations that applied to the sale of tickets and the choice of routes in 1910 will not be greatly changed for the traffic movements of 1911.

The matter has been under conside ation in Chicago for several days and contradictory reports concerning action of the roads have been sent out. Yesterday the Union Pacific announced positively that convention rates had been authorized for the month of June. Tickets will be sold June 5 and 6, and June 10 to 22, inclusive, for San Francisco, going or coming via Los Angeles. These will be good for the period ending September 15. The rate will be \$50, going or coming via Portland it will be \$65. Summer tourist rates are not announced but it is expected they will be effective June 1, with a rate of \$60. Similar rates will be made by all roads. These rates will apply from the Misosuri river.

The Amercian Medical association meets in Los Angeles in June. The Eagles meet in San Francisco in August. The federation of women's clubs will meet at San Francisco Jun 12 to 18.
