

ARE YOU GOOD AT GUESSING?

How many persons have ever noticed how long a watch will run without re-winding? Here is a chance to find out and win a prize at the same time. In the display window at Dan Sargents there is an Elgin movement gold watch on exhibition. This watch will be wound at 8 o'clock on the morning of Saturday, August 6th, and placed in the window at noon on the same day. The question is

WHEN WILL IT STOP?

The person who guesses the nearest the moment when the watch will stop will get the watch. The conditions of the contest are very simple:

For each Twenty-five cents paid in at this office on subscription, advertising or job work, one free guess will be given. The guesses will all be registered in a book kept for that purpose, and when the watch stops the person who has guessed nearest the time indicated by the hands will get

The Watch Absolutely Free

If a gentleman wins, a gentleman's watch will be given; if a lady wins the prize will be a lady's watch of equal quality and value.
