**Ate Rat Poison by Mistake**

As the result of picking up and eating what she supposed was a harmless cracker, Mrs. Monroe Revelie, wife of a farmer living a few miles southeast of Humboldt came very near meeting her death a few days ago. She was visiting at the home of a neighbor and took the cracker from among several which were lying on a plate in the cupboard. Later when the hostess discovered what she had done the frightened woman told her the innocent looking "crackers" were in reality "rat bisket" which had been laid there temporarily, and which is a rank poison. The victim shortly afterwards became quite sick while on the way to town to consult a physican, but managed to throw up about all the poison, the dose having been too strong. **The Best Mattress**

For health and comfort is a Felt Mattress. Everybody knows it, hence the extortionate prices asked in every magazine you read.

But if they only knew that this \$8.50 Sanitary Felt Mattress is positively unexcelled in any point they would have no other.

It's made from guaranteed corded sanitary felt by the largest manufacturer in Cincinnati, Ohio, the great cotton market town. It weighs 45 pounds, will not absorb moisture, will make over like a hair mattress and is as soft as down.

**A Flowery Bed of Ease.**

Not half the people who read this add have a bed worth sleeping on, yet they spend every week for foolish things more than the price of a good bed. You spend one-third your time there. Why deprive yourself unconsciously one moment of comfort by sleeping on a poor bed when so great a portion of your life is spent in that way. Of all friends a mattress is the most personal. See to it that it is cleanly, sanitary and comfortable.
