The senate was unable to take up legislative business for actual consideration on the 15th because of the lack of necessary facilities. The resolution offered by Senator Dundas, relative to a 20 per cent cut in state and county salaries, was made a special order for Tuesday morning at 10 o'clock. The consideration of the governor's message was made a special order for 2 o'clock Tuesday afternoon. The following bills were introduced: To amend the code of civil proceedure so as to provide that the owner of any real estate against which a decree of forecloseure has been rendered, or of any real estate levied upon to satisfy a judgment or decree of any kind, may redeem the same at any time before the confirmation of such sale by paying into the court the amount bid for said real estate by the purchaser thereof together with the interest accruing on such decree or judgment; to require owners or constructors of irrigation ditches to construct bridges over the same when such ditches or canals cross a public highway; to fix commissions for selling live stock in the state of Nebraska; to prevent cruelty to children in certain cases; to prohibit the employment of any child under the age of 12 years in any store, office, shop, factory, mine or other place to exceed three months in any one year; adjourned.

The Senate Thursday passed the freehomestead bill. It is a measure of farreaching importance to the West. The effect of the bill is to open to settlement all public lands acquired from Indians, free of any payment to the Government beyond the minor office fees, and to release from payment those who have heretofore settled on these lands. The number of acres involved is 32,252,541, which would have yielded the Government, at the prices heretofore established, \$35,-343,006. The lands are mainly arid and those who have settled upon them are unable to make payment by reason of the scanty products of the soil. The Senate adjourned until Monday. The House spent almost the entire day debating the Grout bill, to subject oleomargarine and other imitation dairy products to the laws of the States into which they are transported. The bill was passed by a vote of 126 yeas to 96 nays. The advocates of the measure took the view that the States should be allowed to regulate the sale of a product sailing under false colors, and the opponents that the bill would establish a dangerous precedent, and invade the power of Congress to regulate interstate commerce. In a speech in support of the bill Mr. Henderson of Iowa said with much emphasis: "The opposition to this bill comes from the capitalized institutions in Chicago and Kansas City. It comes from men like Armour and Swift, who are destroying the great cattle interests of my State and other. States by keeping down the price of beeves and keeping up the price of beefsteak."

The proceedings in the House Friday were very tame. It was private bill day, but the whole time was consumed in passing House bills favorably acted upon in committee of the whole before the holiday recess. The widow of the late Maj. Gen. John Gibbon was the beneficiary of one of the bills passed, carrying \$100 per month, and the widow of Brevet Gen. W. A. Nichols of another, carrying \$75 per month. The free homestead bill, which came back to the House with Senare amendments, was referred, under a ruling of the Chair, to the Committee on Public Lands. At the evening session fourteen private pension hills were reported with a favorable recommendation. Among them were bills granting a pension of \$50° per month to the widow of Gen. Green Olay Smith and \$75 per month to the widow of Gen. Henry A. Morrow. The last mentioned bill was advocated by Representative Mercer, who had the amount increased from \$50 to the amount named. A bill has been reported to the House for a subsidy of \$100,000 a year to the Pacific Cable Company of New York, in which James Scrymser and J. Pierpont Morgan are interested.
