Avenues of Escape Cut Off and Victims Leap from Windows or Are Buried in the Ruins of a Six-Story Structure on Wabash Avenue.

Terrible Scenes Witnessed.

LING CHICAGO FIRE.

What was probably the most appalling Chicago fire since the cold storage holocaust at the World's Fair, broke out in the Conover piano building, 215 to 221 Wabash avenue, at 11 o'clock Wednesday forenoon. The death list may reach fifteen and the number of mangled and wounded is twice that. Within half an hour after the sheet of fire shot out from proof. It contains at present, besides the top floor of the six-story building, the the library and connected reading- entire structure was wrapped in flames, rooms, the administrative offices of and the crash of the huge walls as they tumbled down was heard for blocks around.

The Conover Piano Company occupied three floors of the building, including the ground floor. The remaining tenants of building will contain about 1,200,000 the building were the National Music Company, the Presbyterian Board of Publication and Sweet, Wallach & Co., photographic supplies. The fire started on the floor occupied by the photographic supply company. The floor was stored with chemicals and the dry, tinder-like materials employed in manufacturing photographic supplies. It was among this inflammable stuff that the fire started. The flames quickly spread to the floor be-

> Elevators became unserviceable, stairways filled with stifling smoke and all exits save by the windows were cut off. There were nearly 400 persons in the building, and to the windows they rushed on every one of the upper floors. They crawled out on the cornices and down the fire escapes like flies. They poured out of the exits over one another. Men and women leaped from the windows. Some were caught in the arms of bystanders and in blankets, escaping with their lives. Others fell to death.

The street was packed with people. The flames reached a store of varnish and chemicals on the third floor. There was 000. In 1897 there were about 240,000 blown out. Plate glass windows across an explosion, and the front wall was volumes, with many thousands of pam- the street were shattered. Scores were the flying debris.

PROCTOR TALKS PLAINLY.

Vermont Senator Tells the Senate of His Trip to Cuba.

Senator Proctor Thursday afternoon made the strongest argument in favor of intervention in behalf of Cuba that has ever been made in the Senate. Never were the members of the Senate so deeply impressed. Mr. Proctor made no attempt for oratorical effect. He had carefully prepared his address, and he delivered it to the Senate as an official report of what he had observed in Cuba. He gave no opinion as to what action should be taken

by this Government. He said the settlement "may well be left to an American Fresident and the American people." But while he did not make a recommendation in so many words, he left the impression with all who heard him that he favored a pleting the general debate little progress declaration by this Government of the in- was made. Of the 800 odd claims in the he was opposed to annexation, and, while many Cubans advocated the establishment of a protectorate by the United States, he could not make up his mind that this would be the best way out of bill, the House recessed until 9 o'clock

he believed the Cubans capable of governing themselves, and re-enforced this statement by the assertion that the Cuban | day. The Senate was not in session. population would never be satisfied with any government under Spanish rule.

There was really nothing new in what he said. The same facts have been presented time and again by newspaper correspondents, and have been denounced as falsehoods. The point of their presentation Thursday was that they were detailed by a United States Senator as the result of his personal observations-of a Senator, too, who went to Cuba strongly prepossessed with the idea that the condi- Maine disaster, was adopted. Mr. Lodge tion of the concentrados had been greatly (Mass.) of the foreign relations commitexaggerated, and who came back and de-

were absolutely indescribable. He said nothing about the Maine except to state that he had not formed nor expressed any opinion on the subject of her destruction, and preferred to wait for the report of the court of inquiry. Autonomy, he asserted, was an utter failure. It came too late. There were practically no autonomists. The rebels possessed the east Bolten and Gustave Richelieu by reason of the island, and even in the west the of their wrongful arrest and imprisonment Spanish army held just what it sat upon | by Spanish authorities at Santiago de and no more.

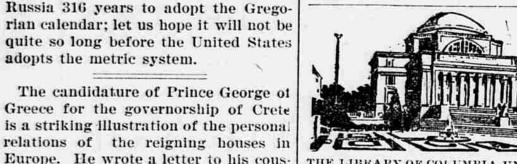

was remarkable. It had evidently been employ such means or exercise such power most carefully prepared. Every element of sensationalism had been studiously eliminated from it and, except so far as to consider the bill for the relief of the the facts recited were sensational, it bore | legal heirs of the victims and survivors phlets. The annual increase is 18,000 burned, and many more were struck by not the slightest evidence of an effort to of the Maine disaster as soon as the post-

In the House on Friday the bill to pay. he Bowman act claims, aggregating \$1,-200,000, for stores and supplies furnished the Union army during the war was considered until 5 o'clock, but beyond comdependence of Cuba. He declared that bill all but a few come from the South, and dilatory tactics were resorted to toprevent progress. During the filibustering the House was in an uproar. At 5o'clock, after completing two pages of the the difficulty. He told his associates that for an evening session to be devoted to pension legislation. After the evening session the House adjourned until Mon-

During its session of three hours on Monday the Senate passed a considerable number of bills from the general calendar, among the number being one authorizing the construction of eight new revenue cutters not exceeding in aggregate cost the sum of \$2,025,000. A resolution offered last Thursday by Mr. Chandler (N. II.) authorizing the committee on naval affairs to send for persons and papers in the course of the investigation of the tee called up the joint resolution for the clared that the scenes he had witnessed relief of August Bolten and Gustave Richelieu. The resolution as reported from the foreign relations committee is as follows: "That the President of the United States be, and he is hereby empowered to take such measures as in his judgment may be necessary to obtain the indemnity from the Spanish government for the wrongs and injuries suffered by August Cuba in the year 1895; and to seence this From many view points the statement | end he is authorized and requested to as may be necessary."

In the House on Tuesday it was agreed arouse the public mind, already keenly office appropriation bill is out of the way. During the general debate on the postoffice bill members eagerly took advantage of the latitude allowed in committee of the whole on the state of the Union to discuss various political questions, Messrs. Griggs (Dem., Ga.) and Walker (Rep., Mass.) discussed the conditions of the cotton industry, and Mr. Tawney (Rep., Minn.), a member of the Ways and Means Committee, replied to the speech of Mr. Johnson (Rep., Ind.) made some time ago against the advisability of annexing the Hawaiian islands. Mr. Tawney strongly advocated the annexation of the islands. After the passage of numerous bills from the general calendar the Senate began consideration of the measure providing for a national system of quarantine. Little beyond the reading of the bill was accomplished. On Wednesday the postoffice appropriation bill, which was technically the subject before the House, was almost lost track of in the debate. The Cuban-Spanish question, which had been kept in the background heretofore, forged to the front. Mr. Cochran (Dem., Mo.) brought the question into the arena, and in the course of the debate that followed Mr. Grosvenor of Ohio took occasion to deny emphatically the stories afleat to the effect that the President desired an early adjournment of Congress in order that he might effect a settlement without congressional interference. The subject of Hawaiian annexation also came in for attention. Mr. Williams (Dem., Miss.), Mr. Adams (Rep., Pa.) and Mr. Berry (Dem., Ky.), all members of the Foreign Affairs Committee, made speeches on the subject, the former in opposition and the two latter in favor of the proposition. Business in the legislative session of the Senate was confined to the passage of a few bills, largely of a local character. The national quarantine bill was not considered. On Thursday the session of the House was devoted strictly to the postoffice appropriation bill, which was taken up for amendment under the five-minute rule. The questions which consumed the major portion of the time related to the allowance for clerk hire at postoffices and to rural free delivery. The House increase ed the allowance for rural free delivery from \$150,000 to \$300,000 and defeated the proposition for increased clerk hire. Among the bills passed in the Senate was one to authorize the construction of a gunboat on the great lakes to take the place of the United States ship Michigan. and to cost, exclusive of armament, not to exceed \$230,000. Adjourned till Monday.

RUSH TO THE FROZEN NORTH.

Many Klondike Prospectors Reach the Pacific Coast. Over 5.000 prospectors have passed up following the disaster at Havana as a the Straits of Georgia since the season opened, bound for Alaskan ports, according to a letter from Consul Smith, received at Washington. Mr. Smith writes:

The advance division of the army of prospectors bound for the Klondike gold fields has arrived on the Pacific const, and in even larger force than was anticipated so early n the year. At least four-tifths are Americans, though many come from England and also from various British colonies. That more have not gone is due to the lack of room on the boats, although there are at least fifty steamers and schooners constantly and solely employed in carrying men, stock, horses, dogs and provisions up to the still frozen region of the north.

Most of these are from the Sound, and, contrary to the general rule in the waters of the Pacific, the majority are American ships, manned and owned by Americans and displaying the stars and stripes. A list just publiched shows that forty-two steamers and twenty-four sailing craft are now engaged in this trade between Puget Sound and Dyea, Skaguay, Wrangell, and other Alaskan About one-third of the American ports. steamers touch at Victoria on their way north. In addition to this fleet, twelve British steamers and several schooners sail from this port as often as they can make the trip, which is every two weeks. Sometimes several Alaskan steamers leave this port in one day. Many old hulks that have been idle for years have been overhauled, repaired, equipped and pressed into this service, and all go loaded to their utmost capacity. As a natural result, the price of passage has already been advanced 25 per cent., and strikes frequently occur among the men employed on the steamers.

This congestion will inevitably be much relieved when the ocean steamships now or their way here arrive, which will be next month, unless, indeed, the throng increases as the days lengthen. The dangers of the route, the suffering already prevalent and the knowledge that not one in ten is at all body and soul to the wounded and dy- likely to secure even an independent liveliing of the Maine. Father Chadwick is North. In consequence of the immense increase in the coasting trade, pilots have to to whom he is much devoted. He has a be occasionally employed who are not fa miliar with the many reefs and rocks of the archipelago of islands through which the channel to Alaska lies, and already two steamers have been wrecked, and each

proved almost a total loss. But as long as there are letters received like the following addressed to a resident or Vancouver, "We have struck it rich on ar unknown creek across the border in Alaska never before seen by man. In the crevices of the rocks in one day we picked up \$30,000 in coarse gold. Sell your business, or give it away, and come quick with ten men"-s long will the crowds go north, regardless of snow, ice, storms or wrecks.
