SENATE.-The session of the sen-

ate on the 14th was an active one, and a large amount of business was transacted. There were only a few bills introduced, but the greater part of them are quite interesting measures. Senator Meredeth introduced a measure which is intende dto do away with the sale or handling in any manner of cigarettes in the state, making the penalties so heavy as to be prohibitive. One of the most interesting bills yet introduced was that relating to the protection of fish and game and song birds, offered by Van Boskirk of Box Butte. The bill was prepared by experts and is pronounced one of the best measures of the kind ever drawn up. Miller of Buffalo introduced two bills. One provides for the repeal of ness in this state between insurance ing their duties and fixing their com- diseases. The latter amount, according to the bill; could only be drawn in counties having a population of over 70,000 inhabitants. A number of bills were read for the second time, ordered printed and referred to their respective committees. Harlan of York then made a motion that the senate vote for United States senators at 11 a. m. tomorrow, and providing how the voting should be miscellaneous subjects reported that done, the motion being adopted. after the 4th day of March, 1901." LEGISLATIVE NOTES.

Senator Reuting of Clay county has introduced a bill in the senate providing for the location and erection of two new normal schools, one to be north of the Platte and the other south. A committee of seven, five representatives, to be appointed by the speaker, and two senators, to be appointed by the lieutenant governor, shall decide upon the location of the schools, the only restriction being that not less than fifteen acres, with a suitable building, be donated by those interested in their establishment at certain points. Fifty thousand dollars are to be drawn from the state treasury for the erection of additional buildings. Senate file No. 114 is a bill for an

act to amend section 66 of an act entitled, "An act incorporating metropolitan cities and defining, prescribing and regulating their duties, powers and government," and to repeal an act entitled, "An act incorporating metropolitan cities and defining, regulating and prescribing their duties, powers and government," approved March 30, 1887, and all acts amendatory thereof, being chapter 12a of the Seventh edition of the compiled statutes of the state of Nebraska (edition of 1895),

Talleyrand's Home. The historic home of the Marquis de Talleyrand is now an unsentimental railroad yard in Jacksonville, Fla., writes Victor Smith from there. He lived here during his voluntary exile from 1784 to 1796. At a relent exhibition of some relics some of the old furniture which belonged to him was shown to the public. Over the front gate of his place, when his successor and heir was a resident of Jacksonville, was a board bearing this legend: "The Public Generally Welcome, ex-." mentioning the name of a man he hated. Not long ago the property was sold to the Baxter Lumber company, and the beautifully adorned back yard is now all railroad tracks and naval stores.

The Bliss of Ignorance.

Among the good stories in circulation about the late Joseph Harris, the well known master of the city of London school, is one in connection with Lord Mayor Owden. That worthy gentleman was not a Greek scholar, and the Greek oration or speech one day in Christ's hospital, to which on a memorable occasion, he listened. was not intelligible to him, save one word. That was "Owden" -- so pronounced-and Mr. Harris used to tell his friends privately how, each time it occurred in the Greek oration, Sir Thomas, fondly supposing that compliment was being paid to himself, rose and selemnly bowed.

Left-Handed Parties.

Left-handed parties are amusing some of the Chicago stay-at-homes this cold weather. The invitations are written with the left hand and the host greets you with the left hand instead of the right hand. The guests must draw pictures or write with their left hands and prizes are given for the best and worst efforts.

Grand Duke Does Embroidery.

The Grand Duke Hesse has a curious taste for a man. His royal highness is most skillful with his needle. and his embroidery is exceedingly beautiful. He takes the greatest interest in his work, and is particularly clever in the arrangement of colors. He has a very artistic nature, as he is devoted to music, dancing and acting, while he does not care much about more active pursuits, though he both shoots and rides.
