

Miss Alice Griffith, 923 South Sixteenth street, who is a stenographer and a personal friend of Miss Lizzie Young, has been waiting for the past year an opportunity of consulting Dr. Seymour when he should again return, and in a conversation says in part as follows:

"My right eye has been so poor for a number of years that I had despaired of losing it, and I was also very much afraid that I could not continue my profession, as I was depending wholly on my left eye and was beginning to feel the effect of the physical strain of trying to use one weak eye for work that required two good ones. Through the personal knowledge of what Dr. Seymour had done for my friend, Miss Young, I determined to make another effort to save my sight, and I am delighted beyond expression with the wonderful improvement that has been made since I have been treating with Dr. Seymour the past month.

"I am now reading the finest print with my poor eye, and feel that within a very short period it will be as useful to me as my left.

"My personal gratitude to Dr. Seymour is something difficult to express, and I certainly understand how his many grateful patients in this city hold his exceptional knowledge in such high esteem."

ooo

Mr. H. E. Soule, No. 322 North Eleventh street, who works at the Students Co-operative Book Co., is making a splendid effort to secure an education, and is doing his best to work his way through school, but was becoming almost discouraged because of his failing sight and despaired of being able to complete his education, having tried different specialists who were unable to help him. He is more than delighted after treating with Dr. Seymour that he is again able to take up his studies with ease and comfort, which adds another grateful indorsement to the doctor's list.

ooo

Mr. C. H. Barstow, who lives at No. 2219 Holdrege street, in a recent conversation, remarked that he had had a great deal of trouble for a great many years in trying to secure glasses that would relieve a continual strain on his eyes. Being an accountant his livelihood depended on the use of his eyes altogether, and it was a matter of no small consequence and ever grew more serious. Through personal knowledge of Dr. Seymour's work in this city in past years, he was induced to seek his assistance, at which time he learned of the wide difference in the sight of two eyes, which fact had never been told him before, and the correction of the same has proved a wonderful help in his work.

ooo

Miss Emma Peterson, another young lady, was seen in Dr. Seymour's office, and in talking of the matter of her eyes to a friend expressed herself as follows:

"It has been very hard for me to consent to the wearing of glasses, and only after being advised by my professor, Mr. Menzendorf, to take a sensible view of it, could I bring myself to this point. My left eye was continually watering, but through the treatment of Drs. Seymour and Cox and the fitting of proper glasses, I have been very much relieved."

In justice to Miss Peterson we would say, that this was not said for publication, but we have taken the liberty of publishing the statement, as she has many personal friends here who will be pleased to learn of her improved condition.

In talking of the work done by Dr. Seymour, Miss Josie Morrisey, No. 2119 P street, speaks in the following words:

"One year ago last April I went from Lincoln to Omaha to consult Dr. Seymour to have my eyes treated and fitted with glasses. I had consulted every eye specialist here in Lincoln, but failed to receive relief. After being treated so successfully by Dr. Seymour, it gives me pleasure to say at the present time that I consider his work simply wonderful. The glasses have practically cured my eyes. I can now read without them, if necessary, when before it was impossible for me to use my eyes any length of time without glasses, before receiving those fitted by him. I really cannot say enough in praise of his work."

W. W. Knepper, cashier of the Sheridan County Bank at Gordon, Neb., writes as follows:

GORDON, Neb., July 27, 1900.—Dr. W. I. Seymour, Lincoln, Neb.—Dear Sir: I received the glasses and glass eye with the medicine that you sent last week. I have been following instructions as given on the different bottles and will say that my eyes are getting much better. I have had different parties ask me what I had been doing for my eyes as they had noticed such a change in them since I had commenced to treat them. Some even saying that they looked 100 per cent. better than they did three weeks ago.

My little girl is also following the instructions as given on the different bottles. Respectfully,
W. W. KNEPPER.

GORDON, Neb., Aug. 16, 1900.—Dr. W. I. Seymour, Lincoln, Neb.—Dear Sir: My eyes are feeling and looking as though there had never been anything the matter with them. If they continue to keep as well after I get through treating them, I will be perfectly satisfied. Last winter when I would get a cold they would get inflamed and look bad.

The tablets that I dissolve in the eye-wash are about all gone, and also the salve. The drops that I put in my eyes and the drops that I take are about two-thirds gone. I thought I had better write you as I did not know whether you wanted me to stop when these were gone or not.

My little girl's eyes are looking much better also. She has used all the drops that are to put in the wash. Yours truly,
W. W. KNEPPER.

GORDON, Neb., Sept. 18, 1900.—Dr. W. I. Seymour, Lincoln, Neb.—Dear Sir: My eyes have been improving all the time and now they look and feel perfectly well. My little girl's eyes have improved wonderfully also.

I hardly know what to write, only that our eyes are improving all the time, and it seems like a miracle that my eyes ever improved so much. Yours truly,
W. W. KNEPPER.

ooo

PLYMOUTH, Neb.—Dear Doctor: Your treatment is wonderful. I feel now as though I was somebody, or that my life was worth living. I can now hear and understand conversation carried on in an ordinary tone of voice after two weeks' treatment only. Before, people would have to shout at the top of their voice to make themselves understood. The sores in my ears have healed up in good shape. The treatment has also made great improvement in the pains in my chest, from which I suffered a great deal, the treatment having made the respiratory passages free. MRS. CHARLES GERMER.

ooo

CEDAR RAPIDS, Neb., Oct. 15, 1900.—Dr. Seymour, Lincoln, Neb.—Dear Sir: I reached home Saturday noon. The trip was rather hard on me, but am feeling better this morning. Father said he was proud of his girl, she looked so much better, and unites with me in sending his best regards to yourself and Dr. Williams. Yours respectfully,
MAY WILSON.

ooo

ALBION, Neb., Sept. 11, 1900.—Dr. Seymour, Lincoln, Neb.—Dear Sir: Yours at hand relative to the glasses fitted for me and will say that I am more than pleased with them and that I will endeavor to say as many good words for you as I have opportunity to do. When you again think of making this city a call please let me know in time and I will be glad to do what I can for you. Yours,
O. M. NEEDHAM.

ooo

From the daughter of the Methodist minister at Crawford, Neb.:

CRAWFORD, Neb., Aug. 28, 1900.—Dr. W. I. Seymour, Lincoln, Neb.—Dear Sir: I received my glasses and treatment all right, and am well pleased with them. I have only had the headache one day since I began to wear my glasses, and if I go without them very long my head will begin to feel heavy, and as soon as I put my glasses on it stops. I am using the treatment as directed, and think that it is helping me. I will let you know if anything seems to be the matter. Thanking you for the cards, I remain yours,
BERTHA M. BURLEIGH.

ooo

From the family of the editor of the Crawford Gazette:
CRAWFORD, Neb., Sept. 3, 1900.—Dr. W. I. Seymour.—Dear Doctor: We received the children's glasses all O. K. and I assure you that we are delighted with them. The children are very much pleased to think that they have a pair of Dr. Seymour's glasses, so we all join in extending you our hearty thanks. I feel that you have been extremely kind and it is a great blessing to have our boys' eyes straightened after being crossed so many years, and we sincerely wish you and yours the greatest prosperity. With kindest regards I am gratefully yours,
MRS. F. R. WINGFIELD.
