

NEW SUGAR BEET CONTRACT

Company Makes Some Handsome Concessions.

THE BEST EVER OFFERED.

Increased Yield of Beets Certain to be Result—Farmers Will be Paid for Hauling their Product to the Factory—\$1 a Ton is the Lowest Price.

From Saturday's Daily: Manager J. N. Bandick of the Norfolk sugar factory received a dispatch from New York Wednesday announcing some important changes in the beet contracts with farmers for the next season. Today he received a copy of the new contract, which will be printed at once and be ready for the signatures of farmers in a few days. The new contract is undoubtedly the best ever offered the farmer, and those who have seen it express their satisfaction with its concessions. It will undoubtedly mean a large increase in acreage and especially by producers in the immediate vicinity of the factories as extra inducements are offered those who can deliver their products by wagon. The management of this and the Grand Island factory has made repeated endeavors for a contract that will be satisfactory to the farmers and, knowing something of their desires, believe they now have an agreement that will fill the requirements, and hope the farmers will be prompt in indicating their approval by signing.

The new contract provides that a flat rate of \$1 per ton shall be paid the farmer for all usable beets testing under 14 per cent sugar content. This means that \$1 per ton will be the lowest price paid. In addition to this a farmer who delivers his beets at the factory by team will receive an additional 25 cents per ton, or \$1.25 for beets delivered. The factory will continue to pay freight on beets delivered by rail as heretofore but farmers will find it an advantage to haul from quite a distance for this 25 cents per ton. Some of them have hauled as high as four tons at a load, which, under the new contract would pay them \$1 a trip.

The new contract also pays 20 cents a ton for siloing. For siloed beets therefore \$1.45 per ton delivered at the factory will be paid.

For beets testing above 14 per cent for each one per cent increase 25 cents per ton additional will be paid. The grower will also get an increase for any fraction of a per cent increase in sugar over 14 per cent. For instance if beets test 14.1 he would receive one-tenth of the advance or \$1.02 1/2 per ton. For beets testing 15 1/2 he will receive \$1.37 1/2. Many beets grown in this vicinity test 17 per cent, and for beets of this test \$1.75 will be paid, or if delivered direct to the factory \$5 per ton, and for siloed beets \$5.20.

With these prices as an inducement the producer can undoubtedly make his beet crop the most profitable it is possible to raise and an increased impetus to the industry in this part of the state is bound to be the result.

OPEN BIDS FOR COAL.

Council Contracts With C. W. Braasch to Supply City for Next Six Months.

From Friday's Daily: The city council met in regular session last evening and, in the absence of Mayor Robertson, was called to order by President Brumund. There were present Councilmen Brumund, Beck, Degner, Heckman, Spellman and Uhle. Absent—Mayor Robertson and Councilmen Bullock and Grant.

Minutes of the adjourned regular meeting of November 3 were read and approved.

The committee on fire and police reported that it had granted a permit to Geo. H. Bishop to erect a brick building on the corner of Norfolk avenue and Fourth street.

Committee on public works reported that the streets had been filled over water mains, according to instructions.

Bids for furnishing coal to city for six months ending May 1, 1901, were opened and read, as follows:

C. W. Braasch—Rock Springs slack, delivered, \$3.89 per ton, he to be allowed to put in what soft coal screening he may have from his yards. Rock Springs lump, delivered, \$7.25 per ton.

Salter Coal and Grain company—Rock Springs slack, delivered, \$3.90 per ton. Hanna lump, delivered, \$6.25 per ton. Hooking Valley lump, delivered, \$6.50 per ton. Illinois lump, delivered, \$6.50 per ton.

H. E. Hardy—Rock Springs slack, by the car, with weights on the track, Norfolk, \$3.75 per ton, and what screening he may have for \$3.00 per ton, delivered. Hanna lump, delivered, \$6.25 per ton.

On motion the bid of C. W. Braasch was accepted unanimously.

George Dudley requested that the council grant him a bus license, pro rata for the remainder of the year. On motion his request was granted.

The council adjourned.

Farming in Colorado and New Mexico. The Denver & Rio Grande railroad, "The Scenic Line of the World," has prepared an illustrated book upon the above subject, which will be sent free to farmers desiring to change their location.

This publication gives valuable information in regard to the agricultural, horticultural and live stock interests of this section, and should be in the hands of everyone who desires to become acquainted with the methods of farming by irrigation. Write S. K. Hooper, G. P. & T. A., Denver, Colo.

PRISONERS TO WORK ROADS

Utilizing of Convict Labor on Highways is Proposed in Good Roads Convention.

Chicago, Nov. 21.—Committees on permanent organization and on national and state legislation were announced by Chairman Moore at the opening of yesterday's session of the national good roads convention. The work mapped out for these committees is considered the most important feature of the convention. The committee on permanent organization is expected to outline a plan whereby the work in all sections of the country can be unified and directed by the central body. The committee on national and state legislation will draft bills petitioning for appropriations from 30 state legislatures to carry on the work of building good roads.

A measure providing for the utilization of convict labor in the work of improving the highways of the nation, under the system already in use in Missouri and Tennessee, will be among those drawn up by the legislative committee for presentation to the various state legislatures.

CZAR NOT SO WELL.

Statement of Physicians Show He is Not Progressing Toward Recovery—Bulletin From Sick Chamber.

Livadia, Nov. 21.—The bulletin issued by the czar's physicians yesterday was less favorable. It says:

The emperor passed a satisfactory day yesterday. At 9 o'clock in the evening the patient's temperature was 100.4, pulse, 80. His majesty slept tranquilly until 2 in the morning. Subsequently his rest was broken and perspiration appeared. This morning his condition was fairly satisfactory, pulse 70.

London, Nov. 21.—The czar's slight relapse is attributed, says the Moscow correspondent of the Daily Mail, to an injudicious dietary. The St. Petersburg correspondent of the Times, writing Sunday, says: "Strict censorship prevents the newspapers here from saying a word concerning the czar beyond the bulletins. No authentic details are obtainable as to the way the illness was caused. The court minister has not favored the ambassadors with a word of explanation. Private information has reached me that his majesty first caught cold from excessive bathing."

EXPLAINS BOLD SEIZURE.

Buena Ventura Troubles Said to Account for Colombia's Taking British Steamer.

Panama, Colombia, Nov. 21.—The seizure of the British steamer Taboga by the Colombian government was due to the fact that the agent of the Pacific Steam Navigation company, to which she belonged, refused to sell or charter the vessel for the purpose of conveying government troops to Buena Ventura, which was besieged by the Liberals. Therefore, the government decreed the seizure of the steamer and proceeded to the relief of Buena Ventura, with troops, ammunition and provisions. The British consul here, C. Mallet, entered a strong protest against the seizure of the steamer, but it was of no avail. He then communicated with his government on the subject. No reply has yet been received from London. The Taboga, with the government troops, etc., on board, arrived at Buena Ventura yesterday, whereupon the Liberals retired.

MINE HAS BEEN SQUEEZED.

John Hays Hammond Called on to Take Charge of Independence Property.

Denver, Nov. 21.—John Hays Hammond has been asked by the English stockholders of Stratton's Independence mine to take charge of the mine as engineer. He is now in Victor to make a thorough investigation of the property.

Regarding the recent heavy fall in the price of the shares, he said:

"The trouble with the mine now is that it has been squeezed to pay the big dividends that the company has promised shareholders. The state of affairs has just become known to the English holders of the shares, and the information has caused the present decline in the stock."

The silk worm was originally found in China, and fabrics of this material were made in that country about 2700 B. C.

TELEGRAMS TERSELY TOLD.

Heavy rains in the north have sent many creeks and rivers in Arizona out of their banks.

Tom Phyllips, a bookkeeper in the Guthrie (O. T.) National bank, was arrested Monday for the embezzlement of \$3,900.

Judge Trieber of Little Rock Monday granted an injunction restraining the Arkansas railroad commission from enforcing its joint freight tariff.

Colonel Charles Caughling, who was a member of Commander-in-Chief Vandervoort's staff, and had been marine editor of the Toledo Blade 36 years, died Monday.

The A. B. Frank company, wholesale grocers, and Gold, Frank & Co., wholesale dry goods, San Antonio, Tex., suffered a fire Monday which inflicted loss of over \$250,000.

It was announced officially that Simon Burns, president of the Window Glass Workers' association, was elected general master workman of the Hayes faction of the Knights of Labor at its recent general assembly held in Birmingham, Ala.

TEAL FOR SUPERINTENDENT.

Omaha Doctor to be at the Head of Norfolk Hospital.

IS A FORMER NORFOLK BOY.

Governor Dietrich Adheres to His Intention of Having one of the State Institutions Under Homeopathic Direction. Dr. Teal Norfolk High School Graduate.

OMAHA, Nov. 20, 1:28 p. m.—Special to THE NEWS: Governor Dietrich announces that Dr. F. F. Teal of Omaha will be appointed superintendent of the Norfolk hospital for the insane. Dr. Teal is a homeopathic physician and this appointment conforms with the governor's announcement that one of the state institutions will be placed in charge of a man of that school.

The above dispatch will be read with pleasure by many Norfolk people to whom the superintendent-to-be is well known. Dr. Teal made Norfolk his home for several years and graduated from the Norfolk High school in the class of 1892. Since completing his medical course he has been located at Omaha and has been rapidly forging to the front in the ranks of his profession. Although a young man he has shown an ability in his calling that might be envied by men of more mature years. His friends are ready to predict without hesitation that under Dr. Teal's management the Norfolk hospital for the insane will become a model institution and that the patients will receive the best care and attention possible.

The governor has now announced several important appointments and has narrowed the field down on another appointment—that of adjutant general of the Nebraska National guard—by announcing that for this position he desires to make his choice from among the members of the "Fighting First" Nebraska regiment that served in the Philippines. He desires that members of that regiment who want the honor file their applications at once.

From Wednesday's Daily:

Dr. Frederick F. Teal, of Omaha, who has been appointed as superintendent of the Norfolk hospital for the insane, has attained distinction strictly by his own efforts. In his studies of medicine he has had very little assistance and has paid his own way for the greater part. Since leaving school and locating in Omaha he has taken a prominent part in politics, always laboring for the success of the republican ticket. He was a member of the convention that nominated Mr. Dietrich for governor. That he is something of a power in Omaha politics will be recognized when it is known that he has been a member of the school board for the past three years—a position that is usually contested for as warmly as though it were the presidency of the United States.

Concerning his medical studies THE Omaha World-Herald says: "Dr. Teal is a graduate of the Omaha school and the Chicago Homeopathic college, Chicago. He is an active member of the local and state Homeopathic Medical societies, and also of the American Institute of Homeopathy, which is the national society. For the past four years Dr. Teal has been in active practice in Omaha, and has paid special attention to nervous and mental diseases. He leaves in a few days for Middletown, N. Y., where at the hospital for the insane under Dr. Talcott, and at other prominent eastern hospitals for the insane, he will spend the next six weeks."

Of the appointment and the position the Bee says: "The appointment will take effect upon the governor's installation in January. Dr. Teal's selection is a recognition of the homeopathic school and will be viewed with satisfaction by the members of the city, state and national homeopathic societies of which Dr. Teal is a member. Dr. Teal has contributed a number of valuable treatises to the literature of his school during the five years of his practice in this city and is looked upon as a successful and up-to-date practitioner. The institution at Norfolk is one of the largest in the state and in number of occupants falls but little behind the asylum at Lincoln. The honor and responsibility bestowed upon Dr. Teal are considered as important as almost any other within the giving of Governor Dietrich."

While Dr. Stevenson, the present superintendent, will hold the position until some time in January he is getting ready for his successor and has made the following estimate of the needs of the institution for the next two years:

Superintendent's salary, \$5,000; physician's salary, \$2,000; employes' wages \$32,000; board and clothing, \$35,000; fuel and lights, \$14,000; furniture and bedding, \$1,300; drugs, \$1,200; books, stationary and printing, \$300; returning patients, \$250; transferring patients, \$250; incidentals, \$300; music and amusements, \$300; vehicles and farm implements and harness, \$500; paints and oils, \$350; general repairs, \$1,000; telegraph, telephone and postage, \$500; ice, \$100; carpets and curtains, \$400; freight, express and drayage, \$150; beautifying grounds, \$100. Total, \$96,400.

For sprains, swellings and lameness there is nothing so good as Chamberlain's Pain Balm. Try it. For sale by the Klesau Drug Co.

SORES and Ulcers

DRAIN THE SYSTEM, ENDANGER LIFE.

That old sore or ulcer, which has been a source of pain, worry and anxiety to you for five or ten years—maybe longer—doesn't heal because you are not using the proper treatment, but are trying to cure it with salves and washes. While these are soothing and relieve pain to some extent, no real, permanent good can come from their use, because the disease is in the blood and far beyond the reach of external applications.

A sore heals promptly when the blood is in good condition, but never if it is diseased. The tendency of these old sores and ulcers is to grow worse, spreading and eating deeper into the flesh. They are a constant drain upon the system, gradually but surely ruin the health and sap the very life. A person's capacity for work or pleasure is soon lost in the great desire and search for something to cure. S. S. S. makes a rapid and permanent cure of old sores and ulcers, and is the only medicine that does, because no other can reach deep-seated blood troubles. Ordinary Sarsaparilla and potash mixtures are too weak and watery to overcome a deadly poison that has taken possession of the blood. Do not waste valuable time experimenting with them.

A Gunshot Wound. "Some years ago I was shot in the left leg, receiving what I considered only a slight wound. It developed into a running sore and gave me a great deal of pain. I was treated by many doctors, and took a number of blood remedies, but none did me any good. I had heard S. S. S. highly recommended and concluded to give it a trial. The result was truly gratifying. S. S. S. seemed to get right at the trouble, and forced the poison out of my blood; soon afterwards the sore healed up and was cured sound and well. I now have perfect use of the leg, which was swollen and very stiff for a long time. J. H. STEUBEN, Lawrenceburg, Ky."

S. S. S. is the only purely vegetable blood purifier known; it is made of roots and herbs of wonderful purifying properties, which no poison can resist. S. S. S. quickly and effectually clears the blood of all morbid, unhealthy humors, and the old, troublesome sores heal. At the same time the general health is invigorated and built up. When a little scratch or hurt fails to heal readily, you may be sure your blood is bad. S. S. S. will soon put it in order and keep it so.

Our Medical Department is in charge of experienced physicians, who have made blood diseases a life study. If you will write them about your case, they will gladly furnish all information or advice wanted, without any charge whatever. Address SWIFT SPECIFIC CO., ATLANTA, GA.

IRISH TURNS AND TWISTS.

The Unconscious Humor That Crops Out in the Green Isle.

The author of "Irish Life and Character" says truly that one has only to mix with an Irish crowd to hear many a laughable expression, quite innocently uttered. As the Duke and Duchess of York were leaving Dublin in 1897, amid enthusiastic cheering, an old woman remarked: "Ah! Isn't it the fine reception they're gettin' goin' away?"

In 1892 Dublin university celebrated its tercentenary, and crowds of visitors were attracted to the city. Two laborers, rejoiced at the general prosperity, expressed their feelings.

"Well, Tim," said one, "thim tarcentinaries does a dale for the thrade of Dublin, and no mistake."

"Oh, fax they do!" said the other. "And whin, with the blessin of God, we get home rube, sure we can have as many of thim as we please."

An old woman, seeing a man pulling a young calf roughly along the road, exclaimed:

"Oh, you bla'guard! That's no way to thrate a fellow crather."

"Sure," said a laborer to a young lady who was urging him to send his children to school, "I'd do anything for such a sweet, gentlemanly lady as yourself."

Again, the laborers on a large estate decided that it would be more convenient for them if they could be paid every week instead of every fortnight. One of their number was sent to place their proposition before the land agent, and this was his statement:

"If you please, sir, it's me desire, and it is also ivery other man's desire, that we rerase out fortnight's pay ivery week."

An exasperated sergeant, drilling a squad of recruits, called to them at last:

"Halt! Just come over here, all of ye, and look at yourselves. It's a fine line ye're keepin, isn't it?"

JUST A BIT OF LIFE.

A Pathetic Incident of the Pawnshops in the Metropolis.

Snaking into a small shop in an obscure and poverty ridden locality, the man who "went broke" at the races was realizing on a superfluous article of jewelry. A woman so poor and pinched in feature, so marked with care and desperation that it made him feel sick to look at her, was holding something under her shawl and waiting nervously until he should have finished his transaction.

"Wait on her. She seems to be in a hurry," he said to the man behind the counter, and at the word of permission a carpenter's plane was produced from the shelter of the shawl.

"How much do you want?" queried the unmoved pawnbroker monotonously.

"Fifty cents," replied the woman, with a gulping in her throat and an eager look in her eyes. She clutched the money tightly and ran into another creature, poor as herself, but bearing her troubles in duller fashion. She had a baby's cloak, never costly and much worn, on which she wanted to borrow money, the same sum as the other woman had asked for.

The man who had been offering a diamond felt uncomfortable. "There, give me \$50. The stone's worth four times as much." And, seizing the money, he hurried after the woman who had just left the shop. He was not given to acts of charity, and he felt awkward, the more so as the woman sprang from him as he accosted her.

"I beg your pardon," he began, "but here's \$5 I have no use for. Perhaps you—"

"No, no!" she cried, drawing further from him.

"For your child," he said gently. "My child is dead!" cried the woman, with a queer sob, and fled into the labyrinth of alleys and byways that shelters so much wretchedness.—New York Times.

Solitary Angels.

Mamma—It's very naughty to tell lies, Eva. People who do so don't go to heaven.

Eva—Did you ever tell a lie, mamma?

Mamma—No, dear, never.

Eva—Won't you be fearful lonely in heaven, mamma, with only George Washington?—Culler's Weekly.

Accidentally Kills His Companion.

St. Louis, Mo., Nov. 21.—Rev. G. M. Tourtello, the pastor of the Presbyterian church at Ida Grove, Ia., accidentally shot and killed his companion, J. S. Burger, while hunting ducks near Turin yesterday.

A Medicine That Cures. That is what you get when you buy CRAMER'S KIDNEY CURE. The Cramer Company can point to more positive cures and show more unsolicited testimonials than any remedy which has been on the market ten times as long.

Hadn't Long to Live. ALBANY, N. Y., March 15, 1900. Broken down, despairing, hardly able to drag myself, I began to feel as if I had not long to live—I did everything medicine and doctors—happening to see Cramer's Kidney and Liver Cure advertised I gave that a trial—a thorough one—for it commenced to do me a little good from the very start—by perseverance. I am today a well man, owe my existence to Cramer's wonderful remedy. I am frank to say my case was so bad I never expected to get well. JOHN BAKER, Court Officer, Albany, N. Y. Am Well Again. ALBANY, N. Y., Jan. 8, 1900. I had been afflicted for a long time with a severe kidney trouble. I was so bad I was unable to work more than three months in a year. Had used a good many medicines, but failed to get any relief. At last, about two years ago, I commenced using the Cramer Kidney Cure. From the first it commenced to help me and with the use of three bottles I was cured and am now well and able to do the heaviest kind of work. To any one suffering with kidney trouble I say by all means try the Cramer Kidney Cure. MICHAEL MCGAULIFF, Manager Hammond's Wholesale Market, Albany, N. Y. Suffered for Twenty Years. ALBANY, N. Y., Dec. 5, 1896. I firmly believe I owe my life to your wonderful remedy. For twenty years I suffered with kidney trouble and could find no relief anywhere. I spent hundreds of dollars on doctors and medicines and could only get temporary relief. I finally decided to try Cramer's Kidney Cure and it did more for me in one month than all the medicines I had taken in twenty years. I am now entirely well. MITCHELL HIGGINS, Chief Albany Fire Department. Thought he Couldn't be Cured. ALBANY, N. Y., Nov. 2, 1898. I can freely and with joy recommend your Cramer Kidney Cure, as it completely cured me of kidney complaint, and that after I had made up my mind that I couldn't be cured. I had tried every remedy I heard of without satisfactory results. I tell you it is the best medicine on earth, as it made a well man of me and I recommend it as a reliable medicine to be depended upon by a man suffering as I did. I. LA GRANGE, Clerk in Sec. of State's Office. Manufactured by CRAMER CHEMICAL CO., Albany, N. Y.
