

**WEDNESDAY WRINKLES.**

The Stanton county fair will be held September 17, 18, 19 and 20.

Dr. P. H. Salter and his guest, Dr. Clemensha, were in Fremont today.

The dance of the Early Hour club has been postponed until Monday evening, May 6.

G. A. Luikart is expected home tomorrow from his two-weeks' visit at Crestone, Col.

H. Hulbert, clerk at the Citizens National bank, is confined to the house with an attack of tonsillitis.

The baby of Mr. and Mrs. French, who live between Twelfth and Thirteenth streets, is very sick.

Mr. and Mrs. Wm. Queen went to Omaha today and Mrs. Queen will be treated in one of the hospitals of that city.

Conductor E. B. Taylor of the F. E. & M. V. has purchased a residence in the Western Town Lot company's addition to South Norfolk.

The Womans club is giving an entertainment this afternoon in Odd Fellows hall at which there are a number of guests, including members of the Stanton Sorosis.

A baptismal service was held in Trinity Episcopal church yesterday afternoon at 4 o'clock, during which the ordinance of baptism was administered to three persons.

Dr. Clemensha of Port Hope, Canada, is the guest of Drs. P. H. and Frank Salter. It is the doctor's first visit here and he expresses himself as very much pleased with Nebraska.

Butterfield & Son have sold their grain elevator at Creighton to the Updyke Grain company. George Butterfield went to Omaha today to close the deal. The consideration is \$7,500.

One of the boys' base ball games of this city contemplates going to Stanton Saturday to play a game with a nine of that place. The boys composing the two teams will be from 15 to 18 years of age.

C. E. Green and Otto Tappert go to Omaha tomorrow to attend the grand council of the U. C. T. Mr. Green is past grand senior councillor and Mr. Tappert goes as representative from Norfolk Council, No. 120. Mrs. Green and Mrs. Tappert will accompany their husbands.

The new bridge over the Northfork near the creamery is ready for the flooring, which will be put on this week. About the first of June work will be commenced on an iron bridge at the Main street crossing of the Northfork, which when completed will be one of the finest bridges in the county.

There was a good-sized congregation in the Second Congregational church at the Junction last night when Evangelist Daly preached a very practical discourse. Mrs. Daly will speak tonight at 8 o'clock. Tomorrow night the state secretary of the Y. M. C. A. will give an address to which men especially are invited, but ladies also will be welcome.

A number of the business men of Norfolk are heartily in favor of celebrating the Fourth of July this year and it is likely that the only thing lacking to provide for an enthusiastic observance of the day is some one to take hold of the matter and start the ball rolling. Perhaps a mass meeting of citizens would be the most approved method of making a start, but the citizens will not meet unless they are called together.

The old city administration is to retire next Tuesday evening, that being the first Tuesday in May and the time fixed by law as the close of the municipal year, at which time Mayor-elect Koenigstein and the new councilmen will take up the reins of the city government. It has been decided that, according to the ordinance and the statutes, the saloon licenses, issued last spring are good to the end of the municipal year and the wet goods emporiums are doing business as usual.

Two records were broken in police court doings last month. Ordinarily there are from 50 to 100 per cent of the fines levied by the police judge that are not collected and in fact are not collectable, as in the case of tramps, who seldom have money and never acknowledge it if they have. Last month, however, the collection of fines amounted to 100 per cent, which means the breaking of one record. The other record is in the number of cases, there having been but one case before Police Judge Hayes during April—the fine was \$3 and was paid. Thus two records were broken at one shot. Judge Hayes is not satisfied, however, and is complaining because of lack of business and has about come to the conclusion that Norfolk is getting too good to need a police court.

One of the social events for this week will be the annual dinner to be given by the board of directors of the Young Men's Christian league to their contributors and friends. This will be an exceedingly representative gathering of the business and professional men of the city. There have been about seventy-five invitations sent out and it looks as though the gathering was going to be one of the popular events of the season. Mr. Fred Willis and Mr. Geo. M. Tibbs both of Omaha will be among the guests of the evening. Mr. Willis is

the general secretary of the Omaha Y. M. C. A. and is considered one of the strongest men in the work connected with the western field. He is a magnetic speaker and is much at home in making after dinner speeches. Mr. Tibbs is one of the substantial business men of Omaha, having been formerly connected with the M. E. Smith and Co. wholesale dry goods house, one of the strongest firms of the city. The Young Men's league is a growing institution and this event promises to be one of the mile stones of its history.

**Living Without Nourishment.**

There seems to be no philosophical necessity for food. We can conceive of organized beings living without nourishment and deriving all the energy they need for the performance of their life functions from the ambient medium. In a crystal we have the clear evidence of the existence of a formative life principle, and, though we cannot understand the life of a crystal, it is none the less a living being. There may be, besides crystals, other such individualized, material systems of beings, perhaps of gaseous constitution or composed of substance still more tenuous. In view of this possibility, nay, probability—we cannot apodeictically deny the existence of organized beings on a planet merely because the conditions on the same are unsuitable for the existence of life as we conceive it. We cannot even with positive assurance assert that some of them might not be present here, in this our world, in the very midst of us, for their constitution and life manifestation may be such that we are unable to perceive them.—Nikola Tesla in Century Magazine.

**An Extract from Her Letter:**

"If you could only be here this winter morning and see for yourself you would no longer doubt me. Roses are blooming in our front yard and all nature is as far advanced in this lovely American summerland as it will be in your cold eastern home by June.

"We made the journey from Missouri river to the Golden Gate on the Union Pacific to avoid the circuitous routes—an important item in the winter. A trip to California is made delightful by the perfect service and luxurious accommodation of 'The Overland Limited,' which is perhaps the most finely equipped train in the world."

**WOMEN ENTERTAIN.**

Members of Stanton Sorosis and Norfolk Guests Entertained by the Woman's Club Yesterday.

From Thursday's Daily:

The ladies of the Norfolk Womans club provided a very pleasant entertainment for their guests yesterday afternoon in Odd Fellows hall. Besides the members of the Stanton Sorosis, each member of the local club was privileged to invite a guest and the attendance was therefore large. The members of Stanton Sorosis were met at the train by a committee of ten ladies and were escorted to the hall where a play entitled "Cranford" was presented, the following named ladies composing the cast: Mesdames A. J. Durland, John R. Hays, Ed. Seymour, E. A. Bullock, H. L. Snyder; C. E. Green, M. C. Hazen, C. H. Reynolds, W. G. Baker and Frank Beels. The play was in three acts and was presented in a manner that was highly commended by the auditors. "Old Lang Syne" was sung in a way that was amusing, if not harmonious and subject to the approval of music critics. Mesdames H. L. Snider, C. E. Green and Robert Utter furnished some pleasing vocal music. Fruit punch served from two punch bowls added to the pleasures of the afternoon.

After a season of social enjoyment the club members and their Stanton guests repaired to the home of Mrs. John R. Hays where they were entertained at supper. The rooms were beautifully decorated in the club colors—yellow and white—while the table decorations were of jonquils and yellow and white tulips, a similar color scheme being also followed in the menu served. The guests were seated at small tables scattered through the rooms, and served to the following menu:

Fruit Filling in Orange Cups Pickles  
Chicken Pattes Jardiniere Salad Hot Rolls  
Cheese Wafers Ice Cream Cakes

Cake Iced Cream Salted Nuts.

A May pole dance was a feature of the entertainment, in which all the ladies and their guests joined. A May basket was attached to the end of each ribbon. At 8:30 the Stanton ladies left for home, the Norfolk club escorting them to their train at the Creighton depot.

Mr. and Mrs. George W. Ingraham arrived yesterday from Spokane, Wash-

ington, and are guests of Mr. and Mrs. H. E. Owen. Owing to the poor health of D. M. Owen and the increasing business of the contracting firm, Messrs. Owen Bros. have employed Mr. Ingraham as superintendent of their business, and he will undoubtedly be a valuable aid in their work.

Mrs. Deiderman, who lives on North Eighth street, met with a distressing accident Monday while engaged in house-cleaning. She was standing near a clothesline upon which the carpet had been hung, when the strong wind which was blowing caused the line to break and she was knocked down, her limb being broken near the hip joint. The injured lady is 73 years of age, which makes the injury the more serious.

The May day ball given in Marquardt's hall last night by Protection lodge No. 101, Degree of Honor, was as thoroughly enjoyable as the entertainments usually given by that society and those who attended were highly entertained during the evening. The hall was brilliantly lighted and the dance continued until a late hour, the followers of Terpsichore finding it an agreeable way to pass the evening of the first day of May.

**WOMAN**

IS LIKE A DELICATE MUSICAL INSTRUMENT

In good condition she is sweet and lovable, and sings life's song on a joyful harmonious string. Out of order or unstrung, there is discordance and unhappiness. Just as there is one keynote to all music so there is one key note to health. A woman might as well try to fly without wings as to feel well and look well while the organs that make her a woman are weak or diseased. She must be healthy inside or she can't be healthy outside. There are thousands of women suffering silently all over the country. Mistaken modesty urges their silence. While there is nothing more admirable than a modest woman, health is the first importance. Every other consideration should give way before it. Bradfield's Female Regulator is a medicine for women's ills. Its steadfast and quickest way to cure leucorrhoea, falling of the womb, nervousness, headache, backache and general weakness. You will be astonished at the result, especially if you have been experimenting with other so-called remedies. We are not asking you to try an uncertainty. Bradfield's Regulator has made happy thousands of women. What it has done for others it can do for you. Sold in drug stores for \$1 a bottle.

WRITE TO DR. A. H. KELLER, CHEMICAL COMPANY AND MEDICAL INSTITUTE, SIOUX FALLS, S. D., FOR FULL INFORMATION. Dr. Keller, Specialist in Nose, Throat, Lung and Kidney Diseases, will correspond with you in regard to your condition.

Medical Opinion in regard to Dr. A. H. Keller's Sylvan-Ozone.

An editor of a medical journal writes as follows:

"Dr. A. H. Keller's Sylvan-Ozone offered by the Dr. A. H. Keller Chemical Company as a cure for Consumption, Asthma, Brouchitis, Hay Fever, Catarrh, Coughs, Colds and all diseases of the air passages. This we know to be a genuine specific for these complaints, and as such, entitled to our confidence and that of our readers.

"Close examination into the practical results which have been had from the use of this remedy has caused us to endorse it as being an undoubted cure for the above ailments, effectual in removing the exciting cause in a number of attacks which had been of the severest and most tedious character. Dr. A. H. Keller's Sylvan-Ozone permanently restored health, and in cases which were of a milder description its use immediately afforded relief."

**CATARRH**

**A Constitutional Affection.**

Sprays, washes, powders, salves, medicated tobacco and cigarettes, however long and persistently used, do not cure Catarrh. They relieve temporarily the inflammation in the throat and nose, and enable you to breathe more easily and freely, but the continual rush of impure blood to these parts keeps up the irritation and ultimately produces ulceration of the glands, when the breath becomes exceedingly offensive and the soft bones of the nose are frequently destroyed. The catarrhal inflammation extends over the entire surface of the mucous membrane, or inner skin, the stomach, kidneys and lungs are often involved; the whole system soon becomes affected by the rapid absorption of poisonous matter into the blood, and the disease that you had hoped to cure with simple local remedies, assumes a dangerous form.

I had Catarrh about 15 years, and tried during the time everything I could hear of, but nothing did me any good. At last I came to the conclusion that Catarrh must be a blood disease, and decided to give S. S. S. a trial. I could see a little improvement from the first bottle, and continued it three or four months, or until I was cured. Have not taken anything for six years, and am just as well as I ever was.—M. MATSON, Leeper, Mich.

I had Catarrh so bad was entirely deaf in one ear, and all the inside of my nose and part of the bone sloughed off. The physicians gave me up as incurable. I determined to try S. S. S., and began to improve at once. It seemed to get at the seat of the disease, and after a few weeks' treatment I was entirely cured, and for more than seven years have had no sign of the disease.—MRS. JOSEPHINE POLHILL, Dux West, S. C.

Catarrh is a constitutional disease—a blood disease which is frequently inherited, and only a blood medicine, such as S. S. S., can remove the hereditary taint, destroy the poisons that have been accumulating in the system for years perhaps, and restore the blood to a healthy and pure condition. The inflamed membranes and diseased glands are healed by the rich, pure blood which is carried to them, and the offensive discharges from the nose, and the terrible headache and neuralgic pains cease. Chronic cases of the most desperate character and apparently hopeless, have been cured completely and permanently by the use of S. S. S.

Write our physicians fully about your case and they will cheerfully assist you by their advice. We charge nothing whatever for this service. Book free on application.
