The highest honor that can be paid a manufacturer is to select his piano in open competition.

That is what the makers of the CHICKERING want.

They prefer the unbiased examination of all other makes before purchasing theirs, for they know that the Chickering, from the musician's standpoint, is the superior.

THE BEST IN THE WORLD—because the exquisite Chickering tone is peculiar to this make alone, and for durability they stand without a rival.

The first Chickering made in 1823, is now on exhibition at their mammoth factory in Boston, and has tone in it yet.

THURSDAY TOPICS.

Telephone No. 148 has been placed in the residence of Chester A. Fuller.

A party of young folks from the city are planning to attend the dance at the asylum this evening.

Mrs. Nellie Handley was operated on for appendicitis this morning at the Drs. Salter sanitarium. The patient withstood the operation very well and is getting along nicely.

M. R. Morris has sold his Norfolk residence property to Jas. Gildea and expects to leave within a couple of weeks for the Pacific coast, where he will engage in business and make his future home.

The delivery of hard coal now being made is a most urgent reminder that winter will be here in the future sometime. But let this not make you so pessimistic that you cannot enjoy the glorious present.

Almost an inch of rain fell on the earth last night and very successfully laid the dust. The crops which have been in want of rain are much revived, although they have not been suffering

for it in this vicinity. The rain came so gently that the crops of small grain, which are ready for the harvest, were not injured.

The Omaha Bee of yesterday announces that Mr. and Mrs. J. H. Mackay of Norfolk are stopping at one of the hotels while visiting the exposition and in another place it gives, among the marriage licenses issued, the names of J. H. Mackay of Norfolk and Anna Grabel of Chicago. All of which leads a person to believe that two people well known in Norfolk have joined hearts and hands.

McCook Tribune: S. G. Goheen has considerable confidence in the "hopper dozer." He has removed about 100 bushels of the hoppers from his fields and crops, this season, and thinks he would be much more extensively damaged were it not for the use he had made of the "dozer." The managers of the Nebraska experiment station of the state university are again emphasizing the importance and value of the "hopper dozer."

The Fremont city council has passed an ordinance permitting cyclists to use the sidewalks when the roads are bad, on the condition that they dismount when meeting or passing a pedestrian. The speed of the rider is also regulated and the sidewalks are not to be used between the time of sundown and 11 o'clock at night and allowed to run after that hour only when a lighted bicycle lamp is used. These regulations are very similar to those governing wheelmen in Norfolk.

The bicycle party, which was given last evening by Miss Hattie McKim, made a trip down the Stanton road. Everything went along nicely until the chain came off the bicycle ridden by Mr. Gray. After some trouble this was replaced and the party started but had not proceeded far when the tire came off his bicycle. In trying to replace this, the tire was rendered worthless, as was also the bicycle, for the nonce, and one of the party returned to town and secured another wheel. On his return the party again started. The next accident was when Miss Harvey's skirt caught in the chain, but this caused no further inconvenience than a torn dress. Taken throughout, the trip was a most pleasurable one, the accidents but serving to lend spice to the occasion.

The cleaning up Norfolk has had this spring and summer is the best known for years and as a consequence the streets and private property generally present a most attractive appearance. The city officials are not alone responsible for this, for property owners have done a large share of the work and many of the residence lots show great care in the trimming of trees, well kept lawns and flower beds and weedless back yards and surroundings. Norfolk is now one of the most beautiful cities in the state and her attractiveness improves with each recurring year. Citizens of Norfolk have good and sufficient reason to be proud of the appearance of the town in most particulars. There are still grounds for complaint in some quarters but with the cleaning up spirit still working these are being removed.

Adjutant General P. H. Barry has telegraphed from San Francisco that the boys of the "Fighting First" will be in need of chest protectors on their arrival in this country to prevent attacks of pneumonia, which has been rather severe on the Oregon troops. He urges that the friends of the soldiers send at once thick protectors of flannel both for the chest and back. In obedience to this request Mayor J. E. Simpson issued a call to the ladies of the Woman's Relief Corps and all other patriotic women to meet in the G. A. R. hall today at 2 o'clock to do Norfolk's part in meeting this demand. The meeting was duly held and the necessary steps taken to do what is possible toward protecting the health of Nebraska's returning heroes, and if other towns do as well as residents of Norfolk, it is probable that not only the Nebraska troops, but several other regiments will be supplied with these needed garments. The flannel was purchased, has been paid for, is being made up and will be sent tomorrow morning at 10:40 to General Barry at San Francisco, all of which goes to show that the ladies of Norfolk are always ready to meet an emergency.

Gratifying to Committee.

The following extracts are made from a letter received today by Mayor J. E. Simpson from W. J. Stevenson, chairman of the executive committee of Madison's reception to company F:

"It is indeed gratifying to this committee to hear of the interest that is being taken by you and the citizens of

Norfolk in the proposed reception that we are planning for company F, on its return from the Philippines. We have noticed the accounts published in your newspapers concerning the action of yourself and others, with reference to organizing to be present with us on that occasion.

"We now have a good many committees at work and are preparing for one of the best demonstrations ever given in Madison.

"I should like to know as soon as possible, just what to expect from your people so that we may plan for them in the parade which we expect to have. We should like very much to have the fire department, company L and the band, which was thought could be organized, to come down with your delegation."

Madison.

John A. Bloomquist of the Newman Grove State bank was in the city yesterday.

W. E. Reed went to Denver Wednesday of last week to try a case involving about \$500,000 in mining interests.

Attorney James Nichols went over to Creston and Columbus Sunday on legal business, returning Tuesday evening.

Last Saturday the news was received here that Mrs. Charles Matter, nee Della Hodges, of South Dakota, had died after a short illness.

Misses Mammie Bley and Bertha Schofield left for the east Saturday, the former on a month's visit with relatives in Iowa, the latter to make her home with her brother in Wisconsin.

Miss Maude Bohannon entertained a few of her friends at her home Tuesday evening. A most pleasant time was had by all and it was not until the wee, small hours of the morning that they finally dispersed.

The mass meeting, called to make arrangements for the reception of the boys of Company F, resulted in the election of a committee to take the matter in hand and finish all arrangements for the demonstration, which promises to be the grandest thing of the kind ever seen in Madison. Arrangements are well under way and a subscription list has been circulated and contributions generously offered. Many of the people residing in towns around have signified their desire to be present on the occasion and the prospects indicate that the celebration will far excel anything ever given in Madison county, including all celebrations of the Fourth ever given. A grand banquet is to be given the boys and their friends, at which it is expected over 200 people will be fed, all of whom will be treated as guests of the day. To say the least, Madison is going to give these soldier boys of Philippine fame such a reception as they may be proud of receiving and such only as Madison is proud to give her home company, which has gained so much fame and honor for itself and its state. Let all patriotic people of Madison county prepare for this event and come prepared to make this a gala day for all this region.

A farm home, two miles west of the station, owned by H. E. Wood of Lincoln, Neb., and occupied by Norman Robbins, was destroyed by fire last Thursday. The fire caught from the stove while the family was cooking dinner. The home is said to have been insured. Mr. Robbins' loss was about thirty dollars.

A dispatch, published in Tuesday's daily from San Francisco, stated that the transport, Morgan City, had arrived from Manila, having on board, among others Louis Brown, who enlisted from here a year ago last spring in Co. F, First Nebraska. Mr. Brown's many friends here will be pleased to hear of his safe arrival and hope soon to see him.
