The case is set for hearing on March 28.

The congressional committee at its meeting held at the Oxnard hotel last evening decided to call the convention at Norfolk on Wednesday, April 25, at 2 o'clock p. m., for the purpose of nominating a candidate for congressman and to elect two delegates and two alternates to the national republican convention. The basis of representation was fixed upon the vote cast for Hon. M. B. Reese at the last election, and gives each county the same number of delegates as it is entitled to in the state convention. The meeting of the committee was harmonious throughout and the reports from the various sections of the district seemed to indicate a republican victory at the coming election. A cordial vote of thanks was given to the chairman, C. W. Conkling of Tekamah, and to the secretary, Jake Koenigstein of Norfolk, for their efficient services during the last campaign.

O. F. Butler, aged 29 years, died at his rooms at the Pacific hotel, last evening at 7:30, of pneumonia. The deceased had been sick only since Friday night or about three days. Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Secretary Fuller of the Business Men's association has replied at a considerable length to the communication recently received from the state board of transportation. The communication is largely indicative of the fact that Norfolk people are about as tired of certain features in reference to the Norfolk case as the secretaries themselves. The reply of the board is anxiously awaited to learn what new evasion the honorable board has to offer.

It is generally believed in Norfolk, and with circumstances supporting the belief, that C. J. Younger, who advertised as "My Tailor," has left for parts unknown. Mr. Younger has long been a resident of Norfolk and conducting business here and it is with considerable surprise to his friends that his suspicious actions have been learned. He told a number of people that he was going away, telling some he was going to Stanton and others that his destination was Omaha. He left Saturday and has not been heard of since. His family didn't know of his intentions. It is reported that he is considerably in debt here but inquiry that has been made does not show that he left a large number of creditors. He left the bills owing him at the shop to be delivered to his wife and labeled the clothing on hand with the names of the owners. His tailors report that for some time past he has evaded the booking of new orders and when he left the stock of goods was all used. His wife and family will endeavor to get along until he is heard from, and the friends of the family hope that the suspicious appearances are not an indication of his intentions and that he will return and set things right.

The Durland Trust company is having a large order of envelopes printed on which in black letters is the sentence, "Double your money by buying Ne-

braska land" and the following quotation from J. Sterling Morton's conservative: "Any man who can bring into Nebraska \$1,000,000 for investment in 1899, will have \$2,000,000 in 1900 if he buys only raw prairie at present prices." This is a method of advertising the resources of Nebraska that other men would do well to follow. If every business man had something on his envelopes or other stationery calling attention to Norfolk or Nebraska the influence would be excellent. In other localities and other states such methods are employed and the results are now manifest. Some of the merchants of cities have cards printed which they slip into every letter and which calls attention to some advantage or advantages possessed by their locality. In Iowa and South Dakota especially such a method has been employed for the past year or more and the result is immigrants are coming in by the train load and every family coming adds so much to the business of the merchants. Some enterprising business man has estimated that a merchant can well afford to set aside at least 50 cents per month for the purpose of advertising his locality or state. The idea is certainly worth a trial.

A tasteful appearance in dress often comes as much from good laundering as from the quality of the clothing. Good laundering requires good soap and Ivory Soap is the best.

The fading of delicate shades is frequently the ruin of an expensive garment. Any color that will stand the free application of water can be washed with Ivory Soap.
