THURSDAY TIDINGS.

Judge Crawford, formerly judge of this district, is reported very ill at his home in West Point.

Norfolk lodge No. 46, I. O. O. F. will meet in regular session tonight. There will be degree work and a large attendance is desired.

The floral party given at the Oxnard hotel last evening by the young ladies society of Trinity Episcopal church was a very pleasant affair and thoroughly enjoyed by a large number of young people.

The choir boys of Trinity Episcopal church are enjoying a fishing party this afternoon under the direction of J. B. Maynard and John Welles. They took dinner at Edgewater park and are enjoying the occasion very thoroughly.

The congressional committee in charge of the appropriations for government buildings has called upon Senator Allen to furnish statistics and other informa-

tion in regard to Norfolk with a view to considering the demand for a building at this place and what the character of said structure should be. The matter was referred to Mayor Robertson and he with the assistance of Postmaster Sprecher, is looking the facts up with a view to making an early report.

At the regular meeting of the fire department held last evening there were several important matters taken up. The annual report of Chief Winter was read and an auditing committee consisting of Chief Winter, Henry Klug and Otto Buckel was appointed by President Kern. An invitation was extended to the department to take part in the Decoration day exercises and the invitation was accepted. Oscar Barr, Ed Benning and W. L. Kern were appointed as a committee to decorate the graves of deceased firemen who were instructed to purchase flowers for that purpose. A motion prevailed that the firemen wear their caps on Decoration day and be ready at 9:30 to take part in the parade. The department considered the matter of purchasing coats and caps of a uniform style for the entire department and the merchants will be interviewed as to the cost of uniforms. R. H. Reynolds suggested that the department hold an annual picnic with which to raise money for purchasing coats and a committee of five was named to make arrangements for the first annual picnic, to be held June 21. The following were named: Jas. Conley, T. E. Moolick, Wm. Klug, R. H. Reynolds and A. J. Koenigstein. The chief was empowered to appoint a janitor and he named Frank Salter for that position during the ensuing year. The department adjourned to meet in special session May 25th to make further arrangements for the picnic.

An Ideal Climate.
The first white man to set foot on Utah soil, Father Silvestro Velez de Escalante, who reached the Great Salt Lake on the 23rd day of September, 1776, wrote in his diary: "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." The climate of Utah is one of the richest endowments of nature. On the shores of the Great Salt Lake especially—and for fifty miles therefrom in every direction—the climate of climates is found. To enable persons to participate in these scenic and climatic attractions and to reach the famous health, bathing and pleasure resorts of Utah, the Union Pacific has made a rate to Ogden and Salt Lake city of one fare for the round trip, plus \$2.00, from Missouri river, to be in effect June 21st, July 7th to 10th inclusive, July 18th and August 2d. Return limit October 21, 1900.

For full information, call on or address F. W. Juneman, agent.

The Huebner-Settle company will be again in Norfolk on the evenings of the 21st, 22nd and 23d.

Sappho.
At the Auditorium Monday night, May 21st, the Huebner-Settle company will begin a three nights' engagement presenting for the first time here the great "Sappho" which is conceded to be one of the strongest plays from a dramatic standpoint ever written.

It has been given in all the principal cities of the United States and has received the endorsement of both press and public. The sensational suit which was filed in New York city against Miss Olga Nethersole was proven to be nothing but the petty spite work of a disgruntled journalist and the play still continues at Wallack's theatre, patronized by New York's best people and will remain there until the close of the season.

"Sappho" as presented by the Huebner-Settle company is the version of Daudet's novel by Mr. John Crittenden Webb, author of many successful plays, and contains nothing in the least

objectionable. It points a strong moral and in fact is on the same moral plane as "Camille" "Faust" or dear old "East Lynne."

The Huebner-Settle company made a good impression here last February and our theatre patrons are assured of being well repaid by this and all future visits to Norfolk by this company.

Note. This company played "Sappho" at Fairbury Holdredge and Kearney and their performance was pronounced clean, first class and entirely unobjectionable and I personally assure the Norfolk public that the play is worthy of patronage. Prices 25 and 35 cents.

Manager Auditorium.

For a Summer Outing.
The Rocky Mountain regions, reached via the Union Pacific, provide lavishly for the health of the invalid, and the pleasure of the tourist. Amid these rugged steeps, are to be found some of the most charming and restful spots on earth. Fairy lakes nestled amid sunny peaks, and climate that cheers and exhilarates. The summer excursion rates put in effect by the Union Pacific enable you to reach these favored localities without unnecessary expenditure of time or money.

In effect June 21, July 7 to 10 inc., July 18 and August 2. One fare for the round trip from Missouri river to Denver, Colorado Springs, Pueblo, Ogden and Salt Lake City. Return limit October 21st, 1900.

For time tables and full information call on F. W. Juneman, agent.

Can Hear, but Not See.
"When people read that armies are engaging each other at 2,000 yards distance, they think the combatants can see each other, but they cannot," said an officer. "At that distance it is impossible to distinguish between a man and a horse, and at 1,200 yards, especially where there is any dust, it requires the best kind of eyes to tell infantry from cavalry. At 900 yards the movements become clearer, although it is not until they get within 750 yards of each other that the heads of the columns can be made out with anything like certainty. Infantry can be seen in the sunlight much more easily than cavalry or artillery because less dust is raised. Besides, infantry are distinguished by the glitter of their muskets. At 2,000 yards, however, everything is unsatisfactory, even with the aid of fieldglasses, for a marching column in dry weather raises a great deal of dust."—Cincinnati Enquirer.

Moral Influence Recognized.
"I suppose there are several lines to the east?" he queried at a railroad ticket office in Chicago the other day.

"Well, yes," reluctantly replied the agent, "but if you want the shortest and quickest line—"

"That makes no difference to me," interrupted the caller. "I want a line controlled by moral influences. Is the president of your road a religious man?"

"I can't say as to that, but I know that two of our switchmen and three firemen lately joined the Salvation Army and that our board of directors discourages poker and beer."

"That's moral influence," said the traveler as he brightened up, "and you may give me a ticket to New York."—Washington Post.
