TRACK MEN ARE BUSY

CAPTAIN GOETZE BACK FROM EUROPE AND BUSY.

REGULAR PRACTICE TODAY

More Rigid Rules to Be Enforced This Year in Order to Make a Record

Cross Country Squad.

By H. I. Kyle.

Aspirants for cross country honors will begin regular practice today. Coach Reed and Captain Goetze will meet the men in the locker room at 11 o'clock Thursday for the purpose of organizing the squad and outlining the course of training. "One of the principal reasons why Nebraska has not been more successful in the long distance sport," said Captain Goetze yesterday, "is that the men have been left too much to themselves. We hope to lay down a rigid course of training for the men and to hold them to it as much as possible."

Captain Goetze spent the summer in Europe. He was in Frankfurt, Germany, when the war broke out, and thought for a time that he would not be able to lead the boys over the hills this fall. However, he succeeded in getting away after a three weeks' delay.

Some of the leather lunged athletes from whom the squad will be made are Captain Goetze, McMasters captain of the nineteen thirteen team, Kratz and Kubik veterans of the last year's team, and Ralph Anderson, Raiche and others who showed up well as freshmen last fall. Spohn, Lohmann and Scott, all experienced track men, will also make an effort to land a place on the varsity.

The Missouri Valley meet, which will probably be held at Ames, is the most important contest on the schedule. The team will also enter meets at Kansas City and Omaha, and if they show up well enough in these contests a team will be entered in the annual western meet at Chicago.

REGISTRATION THIS YEAR ENCOURAGING

Total Number Enrolled to Date is 142 Over That of Last Year—Students Still Coming.

At the close of registration last night the total number enrolled including those registered in the College of Medicine in Omaha is 2,304. At a similar time last year the total including those registered in the College of Medicine at Omaha was 2,162. This is an increase of 142 over last year. It is thought that the registration will be still greater for some students are registering late.

Dean Enberg's office is the temporary location of the assignment committee for those students who failed to get here during the regular registration week. Judging from the way young people have been filing into the office the observer can only feel that they are not all here even now.

GIRL'S CLUB BUSY.

First Big Annual Party Saturday Afternoon—Upper Classmen to Draw Numbers.

The Girls' Club will have its big annual party Saturday afternoon at 2:30 in the temple. The program will be in the form of an elaborate pageant which will make a strong appeal to every true college girl.

All upper classmen should call at Miss Graham's office to draw the name of a freshman girl whom she will accompany to the party.

Due Credit.

By error in the make-up yesterday Anan Raymond, Law '13, of Omaha, was not given credit for column quotation from "Arma Virumque," his article in the Delta Sigma Rho's debate history.

MANDOLIN CLUB IS BUSY EARLY IN SEASON

Rumor Has it That Members of Last Year's Club Are Planning on Starting With a Clean Slate.

The Mandolin Club will probably be reorganized for the year's work as soon as things get going well. There are several enthusiastic members of last year's club in school this year, and they feel confident that the club will meet with a warm reception even though it disbanded last year because of difficulties. They are arranging for tryouts early next week.

The Mandolin Club affords a splendid opportunity to students who enjoy that line of work and is especially attractive in that an hour's credit is given for the work. A more definite statement will be made in the near future.

Mr. and Mrs. O. M. Stonebraker, and their niece, Miss Maurine Wingert, returned last week from an extended trip through the east. They left Lincoln August 1 for a trip on the St. Lawrence. From here they visited Lake Champaign and Lake George, and then went down the coast from Boston to New York stopping finally at some of the more prominent seaside resorts on the Jersey coast. While in Massachusetts they endeavored to arrange for Miss Wingert to enter Wellesley, but owing to the fire of last spring the accommodations at Wellesley will not permit the reception of any new students until another year. Miss Wingert will spend another year at the University of Nebraska.

STUDENT ENROLLMENT 725 SECOND DAY

Total Number of Students Shows Increase of 200 Almost.

The second day's enrollment had reached 725 at 4 o'clock this afternoon, 35 less than the total enrollment of the second day last year. Registrar Frank Chambers expected that the number would equal that of last year before night.

The total enrollment for the first two days up to 4 o'clock was 1,802, showing an increase of 154 over the first two days last year. This increase will probably run to 200 before night.—Missourian.

DR. CONDRA'S MOVIES ATTRACT THE STUDENTS

Professors Recognized Upon the Screen and Applauded—Called "My Menagerie" by Condra.

Dr. Condra, under the auspices of the Y. M. C. A. entertained a fairly large crowd of students with motion pictures of the scenes on the campus and the State Fair. He showed pictures of the State Fair stock exhibits, the University exhibit and other important exhibits, also pictures of the thrilling flights of Lincoln Beachey in his little monoplane. He showed two reels of scenes on and around the campus. These reels included pictures of the Doctor's "menagerie"—the professors, the freshmen and sophomore olympics, and the Nebraska-Minnesota football game.

This meeting is one of a series of meetings the Y. M. C. A. is conducting to instill "pep" and college spirit into the student body. The University yells, led by Reese, Hauptman, and Charlesworth, rang through the Temple until the motion picture man was ready to begin. The crowd was feeling fine as Dr. Condra's crowds always do. They called out the names of the professors as their pictures appeared on the canvas so that the freshmen in the audience could become acquainted with these noted personages before they came in contact with them in the classroom.

CONVOCATION 11 A. M.

Chancellor Avery will address all men students at 11 A. M. in the armory. All students are requested to attend.

KOSMET KLUB CALLS IN ALL MANUSCRIPT

Announcements to be Made Shortly After October First—Play to be Given Early.

The manuscripts of the plays submitted to the Kosmet Klub this year must be in by October first. As announced last summer, the play, lyrics and music must all be ready at this time, as rehearsals will start immediately and the play will be given sometime before Christmas. The manuscripts, containing book and lyrics are to be left at the desk of Prof. Scott, in the English Literature office, second floor of Library.

In order to insure absolute impartiality on the part of the Klub in judging the plays, the manuscripts are to be turned in under fictitious names. A sealed envelope, with the fictitious name on the outside and the name of the author or authors on the inside is also to be turned in along with the play.

The Kosmet Klub is planning to train its own orchestra in connection with this year's show. Announcements of tryouts for both cast and orchestra will be made early in October.

UNION LITERARY SOCIETY.

Students Are Encouraged to Take Advantage of the Entertainment Offered by the Society.

"The University Union Society," says an officer, "is one of the oldest of university organizations. It was organized in 1897. For many years the society held their meetings on the third floor of University Hall, but after the Temple building was completed they were given rooms on the third floor of that building. The purpose of the society is to furnish social and literary development, not only for its members but for any students who may be interested. A special invitation is extended by the society to all students to attend the opening reception Friday evening, September 25, at 8:15 o'clock."

ARIZONA CACTUS IS BEGINNING TO BLOOM

Flower Appears the Fifth Time This Summer—Rice Crop Comes Nicely—Dr. Bessey Happy.

Dean Bessey announces that the cactus plant in the green house is again threatening to bloom. Last semester the same plant created a sensation by blooming unexpectedly. The portion in the green house is a three foot branch of a thirty foot plant, a native of Arizona.

Evidently the Nebraska climate agrees with this species of cactus as this is the fifth offense this summer. Normally this Arizona plant blooms but once a year.

The botanical department is also raising a fine crop of rice just north of the green house. If the frost is late coming they expect to have a real crop of rice as it is already heading.

ATHLETIC REPORT.

The annual Athletic Report for the year ending August 31, has been prepared by the Student Activities committee and is now on the press. The report shows the finances to be in a fine condition. A copy of this pamphlet may be obtained free on application at the Student Activities office.

Y. W. C. A. VESPER SERVICE.

The opening Y. W. C. A. vesper service will occur at 5 o'clock Tuesday in the Association rooms. The subject is "The College Girl." Representative girls will give an interesting discussion. Freshmen are especially invited to be present.

HAINER CUP GOES TO PHI KAPPA PSI FRAT

Chancellor Avery Will Present the Cup at Convocation Today—Delta Taus Had Cup.

Chancellor Avery will present the E. D. Hainer scholarship cup to the Phi Kappa Psi fraternity today at the convocation exercises. This cup was presented to the Delta Tau Delta fraternity last year by Mr. E. J. Hainer, a Lincoln lawyer and former Delta Tau. The cup was to be kept by them until another fraternity ranked ahead of them in scholarship. Phi Kappa Psis were the lucky ones.

AWGWAN OUT TODAY

ITS FIRST APPEARANCE ON CAMPUS THIS YEAR.

BUSINESS MANAGER IS BUSY

Publication Already Classed With Prominent Magazines of the East

—Cartoons Better Than Ever Before.

In an interview with one of the editors of the Awgwan he said, "the idea of a bi-monthly publication which would reflect Cornhusker spirit and sentiment through the medium of cartoons, wit and humor was taken from the big colleges of the east. Such magazines have for years been the most popular collegiate publications there." The "Cornell Widow," the "Harvard Lampoon," the "Columbia Jester," and other magazines of the same order enjoy a national reputation. It was with the idea of putting Nebraska in a class with these schools that Awgwan was originated. We wish to give our cartoonist and writers the same opportunity for development enjoyed by the students of the eastern colleges. Already through the inspiration of their work published in Awgwan two of our best known cartoonists of last year have been encouraged to continue their development in the Chicago school of art. These men are Paul Dewell and Earl Reed. Awgwan is succeeding in developing a great deal of cartoonist talent.

Prominent professors have said that Awgwan's cartoons are the best ever produced at this university. This statement is made not excepting the work of the now famous Herbert Johnson, cartoonist for the Saturday Evening Post, who formerly cartooned for the "Nebraska Arrow Head."

Burtis at Ames.

Mr. Harry Burtis of the class of '12, who has been teaching Rhetoric at Ames during the last year has been placed in charge of all forensics at that school.

THIRTY-SIX MEN OUT FOR FOOTBALL WORK

Freshmen Enjoy a Most Trying Workout—Hoeffel Getting Acquainted With His Men.

In the initial football practice yesterday thirty-six moleskin-clad huskies tore up the sod of the "corn field" in an effort to gain the approval of our long and super-critical coach. The wonder working mentor put the candidates through a gruelling three hour workout. Assistant Coach Hoeffel, was out in uniform getting acquainted with and infusing enthusiasm into the squad.

Coach Harmon led a large squad of first year heavy weights out to the farm field, where he gave them a long thorough drilling in the fundamentals of the gridiron game. The freshmen came back tired but filled with confidence that they will give a good account of themselves when they meet the varsity.
