

# The Daily Nebraskan

VOL. XIV. NO. 46.

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, NOVEMBER 18, 1914.

PRICE 5 CENTS.

## REGENTS' MEETING

MET MONDAY EVENING IN CHANCELLOR'S OFFICE.

### REGENT ALLEN SENDS LETTER

Dairy Building Plans Discussed—New Regents Will Visit Neighboring Universities to Study Campus.

The Board of Regents of the University met in the chancellor's office Monday evening to consider several matters requiring immediate attention.

A farewell letter from Regent Allen was received and instructions were given the Chancellor to formulate the sentiments that were informally expressed, highly appreciative of Regent Allen's long and distinguished service. Especial emphasis was placed on the very great value of his legal service which has been rendered gratuitously to the University and would have cost private corporations having similar interests at stake very large sums. The fact of his absolute integrity, his disinterestedness, his wisdom, tactfulness and constantly courteous and conciliatory attitude towards all his colleagues was brought out. Further the Regents directed the Chancellor to secure if possible from Mr. Allen permission to publish his farewell letter, as in their opinion it was a document of great value to the University and the state.

The Chancellor presented with his endorsement the request that the Regents endorse a proposition to pave the road south and east of the University Farm connecting it with the city paving and that of University Place. As the amount to be asked of the legislature for this work involves a large sum of money, the Regents de-

### MANY HUSKERS WILL GO TO IOWA CITY

Seven Car Train Will Leave the Burlington at 9:30 Friday Evening.

A large and happy crowd of loyal Nebraska rooters will leave Lincoln Friday evening at 9:30 in a special train over the Burlington and will arrive in Iowa City at 7:15 the following morning. The train which will carry about seven coaches will not be filled with University—students alone, the business men of Lincoln having decided that four coaches will be required for their accommodation. This decision was the result of yesterday's rally at the Lincoln Commercial Club where the Cornhuskers, their coaches and manager were guests for dinner. A large delegation of old "Grads" will board the train at Omaha, where if necessary another coach will be added. A band of forty pieces will be taken, to co-operate with the rooters in "nosing" the Huskers to a larger score. Yell leaders, Taylor and Oberfelder, will accompany the fans, and from their usual positions before the bleachers will direct and lead the cheering of the Scarlet and Cream followers.

The special train will leave Iowa City at 11:30 p. m., Saturday, and will arrive in Lincoln at 9:30 a. m., Sunday.

## CHEMISTRY MEETING.

Will be Held in the Chemistry Lecture Room Tonight—State Chemist to Speak.

The monthly meeting of the Chemistry Club will be held Wednesday evening, November 18, in Chemistry lecture room at 7:30.

Program:  
"Adulterants in Foods and Their Detection," E. L. Redfern, state chemist.  
"Phenol," E. Schaufelberger.

Everybody is cordially invited.

In the last two games played at the University of Arkansas, the co-eds have for the first time in the history of the institution participated in the snake dances in honor of football victories.

### MANY CONTESTS HELP OUT KANSAS ANNUAL

Winners of Various Contests Will Receive Free Copies of "Jayhawker" Pictures of Fussers in Demand.

The committee in charge of putting out the Kansas "Jayhawker" or annual, are making unique bids to get the students interested in this sort of a thing. The Jayhawker men are making offers of copies of the annual as prizes to the students who turn the best set of snap shots of the various fusers of the school. There must be a set of six of these pictures and the winner will receive a copy of the annual for his pictures. This is causing a good deal of interest to be taken in the annual down in that state and the Jayhawks will be certain to have some of the pictures of their most accomplished fusers in the "Jayhawker" when it comes out.

Another contest is being carried on at the same time and the same person can enter both contests and if his work is the best he can win both contests so the race for the annuals will be a very interesting affair. The other contest is that for a set of the best group of pictures showing scenes of college life and activities at K. U. and the various picturesque spots around the campus. Another copy of the "Jayhawker" will be given to the winner of this group. This method will enable the men on the committee getting out the annual a chance to do something worth while without going through all the worry that "Mike" Poteet and his colleagues are doing at the present writing and will beyond a doubt put out a very good annual.

### DRAMATIC CLASSES PREPARING PLAYS

Three Plays Will be Given at Temple in December—Each Class in Department to Give a Play.

The dramatic classes under the instruction of Miss Howell are preparing three plays which are being shown with great success in the east. There are three classes in this department and each class will present a play. The parts will be filled by prominent students of the University and Miss Howell assures us that they will be exceptionally good. The plays are "Heart's Desire," by Yates; "Riders to the Sea," by Synge and the comedy "Spreading the News," by Lady Gregory.

These will be shown at the Temple early in December.

## COUPLAND LECTURE

DEFEATED CANDIDATE FOR RE-ELECTION SPEAKS AT FARM.

### MAKES PLEA FOR EDUCATION

Regent Haller Introduced Speaker—Dean Burnett and Prin. Bradford Pay Tribute to Coupland's Work.

In a somewhat reminiscent mood Tuesday morning Regent George Coupland, recently defeated candidate for re-election, spoke to the students at the University Farm on education, the University, and his connection with it. He was introduced by Regent Frank L. Haller who reviewed Mr. Coupland's work for the institution and paid a tribute to his services.

Regent Coupland urged the students at the University Farm to feel a close relationship to the University as a whole even though the defeat of University removal has made it impossible for the city and farm students to be educated on a single campus.

Toward the close of his speech, marked more by an appeal for education, high ideals, and higher salaries for the faculty, than comment on the election, removal, and his work as regent, he said:

"I want to say this—it is more of a personal nature—I probably won't have the opportunity to address you again officially—that the privilege of service upon the board of regents affords one of the greatest opportunities that the state has to offer and I think it is one of the best paid offices. How important it is to provide the things that have the loftiest ideals. So I want to voice this sentiment, that

### AUTHORITIES SAY NO BUMMING SATURDAY

Announcement Made Yesterday—The Players Must Have Rest—Too Many Dangers.

Bumming with the football team will be absolutely prohibited according to Assistant Director of Athletics Guy E. Reed. On the Manhattan trip some of the "loyal ones" found it a "pretty tough" proposition to be boot-ed off in the yards or in some little burg along the way.

The athletic department pays for the very best accommodations for the football men in order that they may get the right kind of rest while traveling. No student who has thought very seriously about the matter wishes to be so "loyal" that he should disturb the rest of any of the men and lessen the chances of victory by so doing. To the thoughtful it is certainly misplaced loyalty.

There is another side to the matter. If a student is injured while "bumming" his way to one of the big games it places a blot on football and on the school that no explanation can erase.

The athletic board at its meeting Monday night discussed the "would-be Weary Willies" at length. It was the unanimous opinion that the practice must be discouraged if football is to hold its place in the University and in the minds of the public.

## GLEN RUBY RETURNS.

Will Finish Course in Geography and Geology—Has Been in Wyoming During Summer and Fall.

Glen Ruby, of the United States Geological Survey has returned to the University to complete his course in geography and geology. His work during the past summer took him over the entire state of Wyoming and enabled him to enjoy some fine hunting. He reports that he met University of Nebraska men in nearly all of the towns he visited.

Both Thanksgiving and the Friday following will be given as holidays to the students of Texas University this year. Hitherto only Thursday has been given as the Thanksgiving holiday.

### JUNIOR HOP DATE NOW A THING OF CERTAINTY

January 22 is the Time—Committee Promises a Big Affair and is Starting Early.

The Junior Hop will be given January 22 according to the decision of the committee which met yesterday. No definite announcement has as yet been made concerning what ball-room has been procured. However, it is none too early for dance enthusiasts to plan on saving that date for a dance which according to all reports promises to be one of the best of the season.

## SCHOOL OF PHARMACY.

Only College in University Which Puts Out an Annual—Is in Demand Throughout the State.

The Pharmaceutical department is the only school or college in the University that puts out an annual. Requests come for it every week for use in libraries and for reference use. This indicates that the annual is of some value as a standard among this class of publications and this is putting Nebraska's School of Pharmacy in the front rank.

### SUN DIAL BEING REPAIRED.

Broken on Hallowe'en Night—Was Immediately Taken Down and Sent to be Repaired.

The Sun Dial located between the Administration building and the Library, broken on Hallowe'en, was taken down this morning and will be replaced as soon as it can be repaired.

### CORNHUSKER TEAM TO LEAVE LINCOLN THURSDAY

Will Stop in Omaha That Evening For Dinner—Will Have Practice Game in Cedar Rapids.

The Cornhusker aggregation will leave Lincoln for the home of the Hawkeyes Thursday at 4:10 p. m., over the Rock Island. They will take dinner at the Rome Hotel in Omaha and will leave Omaha at 9:55 over the Northwestern. They will be in Cedar Rapids the next morning and will headquarter at the Magnus Hotel. Coach Stiehm has made arrangements for a workout, Friday morning, on the Coe College gridiron.

The team will leave Cedar Rapids on Saturday morning in a trolley and will get in Iowa City about 10:45. They will come back with the rooters Saturday night on the special.

## FROSH MEET SCRUBS

SCORE TWO TOUCHDOWNS USING HAWKEYE PLAYS

### SCRUBS SCORE TWICE, ALSO

Forward Passes, Hawkins to Caley, Net One Hundred Yards for the Second Team—Varsity vs. Freshmen Today.

By H. I. Kyle

The few fortunate fans who fared to the football field yesterday were given a royal treat in the form of a real bona fide game between the freshmen and the second team. After a strenuous two-hour drill Monday, in a game as the Hawkeyes play it, the unsophisticated Harmonites trotted onto the gridiron, swelling with confidence. On the other hand, the scrubs assumed an air of quiet modesty, blended with an atmosphere of grim determination.

Hawkins, of the second team, received the kick-off and returned the ball twenty yards. Doyle bucked the line for two yards. Porter smashed off tackle for five more, and Selzer made first down. The frosh defense stiffened and held the scrubs, taking the ball on downs. They then Hawkeyed their way down the field to a touchdown. It was plain that their confidence was based on something tangible.

Again the scrubs received the kick-off, which, being a short kick, went to the mighty Halbersleben, center for the second-stringers, who hesitated a moment, and then, clapping his prize to his bosom, he dived into the luxuriant blue-grass, where he sought to hide from the onrushing freshmen. The scrubs then cut loose with a dazzling display of open

### THE PICTURE EXHIBIT ATTRACTS BIG CROWD

Displayed by N. Inagaki at Woman's Building—Guaranteed to be Actual Work of Japanese.

The Japanese pictures now being exhibited at the Woman's Building by N. Inagaki are attracting much attention, as evidenced by the large attendance there. The pictures are of all sizes and prices so that every purse can be satisfied.

Mr. Inagaki is a graduate of the University of Illinois and guarantees that all of the pictures he exhibits are the genuine product of Japan. These pictures and prints are mounted in various forms so that they make very acceptable gifts for Christmas, now drawing near.

### Why Not a Study Table?

A man living in Columbia, Missouri, has invented a dining table with a revolving central part on which the dishes containing the different articles of food are placed. Each person seated helps himself to what he wishes by merely revolving the movable part until what he wishes comes in front of him. A student taking rhetoric 13 has suggested that such an arrangement would make a convenient study table.
