

AURORA HIGH PLAYS FARMERS HERE TODAY

Aurora Has Won Three Past Years—Special Convocation at Farm Given to Football Rally.

A lively scrap is expected at the University Farm field Friday afternoon at 3:30 when the School of Agriculture football team will play the eleven from the Aurora high school. In the three past seasons the Aurorans have uniformly defeated the Aggies. In 1911 Aurora defeated the School of Agriculture 16 to 0; in 1912, 20 to 16, and in 1913, 9 to 6.

To stir up added enthusiasm over the event the regular Friday morning convocation will be given over to a football rally.

Athletic Department

Postmortems and Prophecies By H. I. KYLE.

A tight little battle is scheduled for this afternoon when the State Farm boys clash with their old rivals from Aurora. The Farmers have an especially strong team this year and are due to take the up-state bunch to a glorious cleaning.

Football fans who are unable to make the trip to Iowa will have the privilege of seeing a first-class mix-up on the home field tomorrow, when the Lincoln High champions take the measure of Coach Purdy's York athletes—if they do, as seems probable. Harold Mulligan's Red and Black warriors have made a record in scholastic

athletics equal to the Cornhuskers' record in collegiate circles.

Tomorrow's big games:
Harvard vs. Yale.
Illinois vs. Wisconsin.
Dartmouth vs. Syracuse.
Carlisle vs. Dickinson.
Indiana vs. Purdue.
Ames vs. Drake.
Ohio State vs. Northwestern.
Lehigh vs. Lafayette.
Navy vs. Ursinus.
Army vs. Springfield Y. M. C. A.
Chicago vs. Minnesota.
Kansas vs. Missouri.
NEBRASKA VS. IOWA.

Dr. Irving S. Cutter, graduate of

the University, and now connected with the Medical College at Omaha, was a campus visitor Thursday.

Director A. E. Sheldon of the Legislative Reference Bureau gave an address this week before the Omaha Economics Club upon the subject of the Torrens system of land registration. About fifty or seventy-five people were in attendance, including a number of members-elect to the legislature. Three or four abstractors of Omaha who were present desired to participate in the discussion which followed the address and were permitted to do so.

Admission, 15 cents.

After the program a general social time will be enjoyed by all present. All have been cordially invited to come.

Scott's Orchestra. Call B-1482 or B-4521.

BURNETT GIVES GOOD TALK TO ENGINEERS

Lecture Dealt With Conditions in Venezuela—Has Spent Much Time in South America.

Jerome R. Burnett, who was formerly in the employ of the Barber Asphalt Co., but is now in the Geology department, lectured to the Engineering Society Wednesday evening his subject being, "Engineering in South America."

Mr. Burnett has spent a great deal of time in South America looking up the prospects for crude asphalt supply. His lecture dealt with conditions in Venezuela in detail, telling of their habits, customs, difficulties in transportation and the unsatisfactory sanitary conditions of the country.

He said that in general the country is one hundred years behind the rest of the world, but as one goes south through Uruguay, Paraguay, and Argentine Republic he finds the climate more temperate and more progress has been made. The capital of Venezuela is largely invested in foreign enterprises for the reason that the government buys the best men out of business whether they desire to sell or not. Investments for home people are very discouraging while foreign capital receives more respect.

The large towns are quite modern, having sewer systems, street car lines, telegraph, and telephones. Very close to the limits of these cities we find the most primitive conditions. Pioneering is very difficult as fevers are very common. The average fellow is expected to take three doses of quinine and then he is not strictly immune. Some parts of the country are as arid as the Sahara, while within a few miles it rains every day. In the wet districts the soil is often fifteen feet deep and is among the richest in the world.
