congress in 1887, to be located in con-cream making and market milk. The and are used entirely to provide good nection with the Agricultural Colleges in the various states. The first appropriation by congress was for \$15,-000 annually to each state. This was increased in 1907 by the passage of the Adams act: so that under these two acts the station now receives \$30,- etc. The basement will be equipped 000 annually from the federal government.

The colleges house the station ac- rcoms. tivities, furnish land for the use of field investigation, and generally make building in every way commensurate direct appropriation for the promotion of experimental work.

The purpose of the experiment sta- Nebraska. tion as expressed in the original act is "to conduct original researches or verify experiments on the physiology of plants and animals; the diseases to which they are severally subject, with Facts and Figures Presented by the the remedies for the same; the chemical compositon of useful plents at their different stages of growth; the comparative advantages of rotative cropping as pursued under a varying series of crops; the capacity of new plants or trees for acclimation; the analysis of soils and water; the chemical composition of manures, natural 1915; or artificial, with experiments designed to test their comparative effects on crops of different kinds; the adaptation and value of grasses and forage plants; the composition and digestibility of the different kinds of food for domestic animals; the scientific and economic questions involved in the production of butter and cheese; and such other researches or experiments bearing directly on the agricultural industry of the United States as may in each case be deemed advisable, having due regard to the varying conditions and needs of the respective states or territories."

OFFICIAL PUBLICATION OUT ONCE EVERY MONTH

Magazines Sent to All Schools-Farmers Also May neceive Copies Upon Request

"Agriculture." the official publication of the College of Agriculture, had its organization in the School of Agriculture in 1902 when Professor Davison was principal of the school, and in 1910 it was taken over by the Agricultural Club of the University. While it is still a paper of the School of Agriculture, its range has been broadened somewhat and now reaches the students and graduates of both the School and College of Agriculture, and in addition to this it is sent to all three and four-year high schools of the

The object of this publication is to act as a medium for carrying news of the School and College to the alumni and, further, to bring out discussions and treatises of economical and scientific problems of interest to the farmers of Nebraska. While some of these articles are written by the professors. most of them are handled by the students, and as a magazine of value and interest to all farmers and students of agriculture it has been highly commended.

PLANS FOR A NEW DAIRY BUILDING

A LETTER TO FATHER

An Ag Student Sits Down and Writes a Letter to His Dear Father

Dear Father:

I have my room all fixed up and am now ready to apply myself to the studies of the College of Agriculture. I believe you were right in leaving the law college for the farm. I was talking to one of the editors of the Rag the other day. He had been reading over some of the old papers and told me all about you.

It must have been awful hard to remain a bacheior so long, father, when you had so many fair co-ed admirers. otal I remember you telling mother how you used to tell one of your irresistable jokes whenever a fair maiden got you on her lap and was about to strangle you with a soul kiss. Then while she was having convulsions of laughter you would get your hat and run out the door,

> I hope your mine pays dividends soon, as I will need more money next semester for books.

With love, your son

AMOS.

What is certified milk? Ans.: Milk inspected by a doctor and used in a hospital.

Annual Winter Short Course

The annual winter short course of the University School of Agriculture at Lincoln begins January 5. The sessions continue through Organized Agriculture week and close February 16. Courses will be offered in field crops, entomology, forestry, soils, animal husbandry, dairying, agricultural engineering, plant physiology, animal diseases, horticulture and farm management. No entrance requirement is made except the person entering shall be at least sixteen years old. The enrollment fee is \$4. The course is designed for those who find it impossible to spend more than a few weeks away from the farm.

Longhorns and Catholics May Meet Next Year.

It is highly probable that Texas University and Notre Dame will meet on Clark Field next Thanksgiving Day. The Catholic institution has been challenged by the Longhorns and has replied requesting that the date be held until the return of President Cavanaugh, which time will be at the beginning of next week.

Iowa State College Receives Goods From Germany

During the past two weeks the college has had two large shipments through Holland, covering seventy The United Agricultural Society was boxes of glassware and chemicals from organized at a joint meeting of the Germany, costing about \$3,000. The tural Club. Mr. John Luddon, Miss the first of August and were to have Richards and Mr. Robert Steele were been delivered here on the fifteenth perhaps the most active of promoters of that month, but it is known that ing the first president for the year the first of September. As the price of all this material was fixed by bid by the importer last April, before glassware and chemicals made their "war jump," the college is exceedingly fortunate in having these shipments come to them in such splendid shape. The purpose of the society is purely even though they have been delayed long by 64 feet wide, three stories and social. It is intended for a medium so long, since they could not be duplibasement, and with a wing 70 by 60 through which all the students in the cased without an addition of half the
