Mr. Candidate:

How do you intend carrying on your campaign? Are you going to oil up the steam roller and use the same old cheap political methods? Are you going to rely on some political machine or organization to elect you, or are you going to come before the voters and let them judge you on your merits? The time is ripe for candidates to come out and take a stand for clean politics. The Nebraskan will publish on Thursday the statement of all candidates who intend to refrain from electioneering on the campus on election day.

To the Voters:

Isn't it about time that University men and women began to exercise their individuality in politics and refuse to let some "would be" politician carry their votes in his pocket. There are a number of individuals about the campus who boast of the number of votes they control. There are seniors who for four years have been voting as some friend told them to vote. As a result there have been machines and near machines galore, while the merits of the candidates have been minor issues. Investigate; exercise your judgment; vote for the best man. Don't pledge your vote to any one until you have considered all candidates. Remember, any candidate or any of his friends who dares to inject the "frat" or "barb" issue into the campaign is insulting your intelligence and does not merit your consideration.

ELECTION NOTICE

Notice is hereby given that the general election for selecting the presidents of the four respective University classes (Freshman, Sophomore, Junior and Senior), the Ivy Day orator, and editor-in-chief; managing editor and business manager of the Cornhusker, will be held on Tuesday, February 16th, in Memorial Hall. COLLEGE MEN CALLED BY PROHIBITION

Movement to Enlist Three Thousand Men to Carry on Campaign Among Voters of America

A call has been issued for 3,000 college men to volunteer in the war against John Barleycorn. The Prohibition National Committee with headquarters in Chicago, plan to enlist 2,000 of these men by June 1st, 1915, and the remainder within the year following. Fifteen special secretaries are now traveling among the colleges and universities of the country enlisting young men for the campaign.

The plan of work is one which has been tried on a small scale during the past ten years with great success. During this time about 250 college men have been employed in various sections of the country, and the results of their work have been so encouraging that those in charge of the national prohibition movement have decided to enlist enough men to cover the entire country by a house to house canvass.

The plan of work will consist of interviewing every voter and securing his pledge, if possible, to support only those candidates and parties committed to national prohibition. Theoretically the campaigners will ring every door bell in the United States, practically much of the actual campaigning will be done by volunteer organizations affected by the campaigner. In addition to enrolling voters it is planned to launch a great national monthly prohibition paper and to get a subscription list of 5,000,000, the largest in the history of newspaper publication. Each voter who enrolls will be asked to pay ten cents for a year's subscription to this paper. In case he does not do so, his paper will be paid for from a fund set aside for that purpose.

As a practical illustration of the results of this sort of campaigning, the following figures were given for Minnesota: In 1904, without the aid of workers the prohibition vote was 4,000. In 1906 after four months of campaigning by six young men it was raised to 12,000. In 1908 after three months of campaigning by sixteen men it was 32,000. In 1912 after four months of campaigning by fifty men it was 55,000. Prohibitionists have been elected to both houses of the Minnesota legislature since 1906. There are at present eight prohibitionists holding seats in that state.

The plan is now to enlist 3,000 young men at army wages, \$25.00 per month and expenses. The term of service on this basis being until the organizer has enrolled 1,666 voters. When each of 3,000 men shall have secured his quota, the total will be 5,000,000 voters enrolled, which will be a sufficient number to insure national prohibition.

The average young man will enroll his quota in from sixty to ninety days. Some men will do it in one-half the time; 5,000 have been enrolled at one meeting.
