Social and Personal

Several of the fraternities have announced the pledging of new men. The list is as follows: Delta Upsilon, Elmer Grabill, Sidney; Sigma Alpha Epsilon, Julian Williams, Lincoln; Sigma Chi, Pollock Parmalee, Plattsmouth, and Adrian Brian, Columbus; Phi Gamma Delta, Victor Henningman, Superior; Delta Tau Delta, H. L. Cozler, University Place; Delta Chi, Arthur Kavanaugh, Wayne; Sigma Phi Epsilon, Merle Townsend, Tecumseh; Silver Lynx, Charles Gardipee.

MANY EXCHANGES IN BLUE PRINT OFFICE
Engineering Publications Received From Many Schools

Engineering publications from other schools are received at the Blue Print office from time to time. Following is a list of the contents of those received to date this year. Some are on file in the Blue Print office and may be read there. Call L8758-3 rings—to see if anyone is in and then come up to the fourth floor, east end of U Hall.

The Technograph, University of Illinois, November and January—"The Nitrogen Filled Lamp," "Railways and the Panama Canal," "Electric Control of the Panama Locks," "Civil Engineering Features of the Panama Canal," "Essentials of Industrial Safety at the National Cash Register Co.," "Accident Prevention, Commonwealth Edison Company."

The Student Engineer, Oregon Agricultural College, November—"Fly Wheel Applications in a Saw Mill."

Journal of the Cleveland Engineering Society, September, November, January—"Iron and Steel Properties, and the Selection for Engineering Purposes," "The Relative Values of Different Paving Materials," "The Application of the Locomotive Crane to Modern Industries," "An Example of Novel Shore Construction and General Talk on Jetty Action," "The Useful Recovery of Heat Losses in Internal Combustion Engines," "Relation of the Gas Producer to Low Grade Fuels and the Concentration of Power at the Mines," "Gypsum as a Fire Proofing Material."

The Minnesota Engineer, November, January—"Disposal of Municipal Waste," "Asphaltic Materials in Road Construction," "Laws Relating to Electric Light and Power Companies," "High Tension Insulator Testing in the Field," "Hydro-electric Development on the St. Louis River."

The Towne Scientific School Journal, November and January—"Panama Canal," "Construction of a Small Electric Furnace," "Power Plant Efficiency Engineering."

Loco, November—"Boring the Lotschberg Tunnel," "The Latin American Commerce Situation," "The War and South American Trade," "Initial Proceedings in Opening a Coal Mine."

The Sibley Journal of Engineering, Cornell University, December, January, February—"Notes on Coast Artillery Hits," "Automatic Control of Motors in Sewage Pumping Station," "Research Work at the National Cash Register Company," "Air Excess in Boiler Furnace Practice," "Some Features of Engineering in the West" (Keokuk Plant).

The Cornell Civil Engineer, October, November, December, January—"The Engleer and the Law," "Railroad Preliminary in Venezuela," "A Problem in Economics of Mountain Railway Location," "Design of an Automatic Train Stop," "A Method of Testing the Efficiency of the Distribution of Sewage Sprinkler Nozzles."

The Wisconsin Engineer, October, November, December and January—"The Theory of Armature Reactions in

Omaha; Alpha Sigma Phi, Wallace A. Gerrie, Omaha.

A committee has been appointed by the First Christian Church to get in touch with the University students. This committee will, in a way, take the place of a student pastor. The committee chosen is as follows: Paul Goss, president; T. F. A. Williams, L. C. Oberlies, E. F. Snaveley, M. H. Bedell, R. A. Bickford. All are graduates or former students of the University.

Alternaters," "Electrolytic Copper Refining," "Reinforced Concrete Building in Mexico," "The Heat Insulating Properties of Commercial Steam Pipe Coverings," "Four Thousand Years of Practical Engineering in China," "A Remarkable Primary Battery," "Electricity Behind the Scenes."

HUNDRED AND FIFTY STUDENTS AT LECTURE

Large Number of Students Hear Dr. Fisher's Second Lecture—Third One of Series This Evening

The second lecture of the series given by Dr. Martin H. Fisher of the University of Cincinnati was given yesterday afternoon in the Physics building. Over one hundred and fifty students attended, which speaks very highly for the interest of Nebraska's students along scientific lines.

The third lecture will be given tonight at eight o'clock. Following is an outline of the lecture:

- A The Maintenance of the Blood and Lymph Circulation.
 - 1 Why the Blood and Lymph Remain in Their Vessels.
 - 2 On the Treatment of Shock.
- B Some Biological Applications of the Colloid Chemical Theory.
 - 1 On the Nature of Hemolysis.
 - 2 On the Nature of Growth.
 - 3 On the Nature of Muscle Contraction.

PERU GLEE CLUB TO GIVE PROGRAM HERE

Club of Twenty Now Touring State—University Peru Club Will Hold Reception For Glee Club

Next Friday night the Peru Normal Glee Club will give a program in the Temple Theatre. The Club are on a tour through several of the larger towns in this part of the state. There will be about twenty in the club and they are expected by their many friends to render an interesting program up to their usual high standard. Dr. Homer House, their able director, obtained his doctor's degree here in English several years ago. The University Peru Club will hold an informal reception afterwards for the Glee Club.

Students Will Smoke

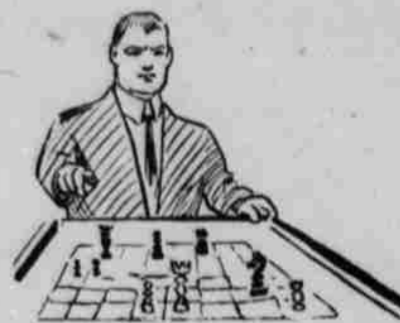

The results of an election held recently at the University of Minnesota under the auspices of the All-University Council, seems to signify that it is the strong desire of the young men to have the privilege of smoking in the "Union," the men's building. Up to this time the men taking chemistry, mining and dentistry have, almost to a man, voted in favor of the movement. The other classes containing men are also to have the privilege of making public their wishes in regard to the matter.

The Echo, published by the students of the Edgar High School, is a very impartial sheet. Wishing to send a copy of their paper to all the general University publications, the management mailed one to the Awgwan, another to the Daily Nebraskan, and a third to the "Rag."

MISS BESSIE PARKS AT VESPER SERVICE

Gives Interesting Address on "Women Physicians in China"—Large Number of Girls Present

Miss Bessie Parks gave an excellent talk at vesper services yesterday afternoon. Her subject was "Women Physicians in China." This subject proved extremely interesting to the girls present since they are at present supporting a lady in the China missionary field. There was a large number of girls present and all took an interest in Miss Parks' talk, which dealt with the work of the women physicians in China and the work which they are daily called upon to do.

DR. CONDRA AT INDIANOLA

Left Last Night for Nebraska Town Where He Will Deliver An Address Today.

Professor Condra left late last night for Indianola where he will address a meeting of the farmers of that community today. Moving pictures will also be shown.

She Overlooked It

Dolly: "I am surprised at you, sister. How many times did you let Jack kiss you?"

Molly: "I don't know."

Dolly: "Well, you ought to. It was going on right under your nose."
—Columbia Jester.
