The musicians of the New York Symphony Orchestra like conductor Walter Damrosch although he is a strict disciplinarian and rules with an iron hand. The hand is always gloved in velvet and his methods during rehearsal are quiet in the extreme. He rarely raises his voice above the conversational tone, and the men know that he is just, and that above all, he knows every note in the score by heart and detects any error immediately. Every now and then, after a particularly hard hour of incessant rehearsing and repetition, some jesting word from him relieves the tension and good humored smiles over the orchestra show their appreciation. Outside of the rehearsal hour, Mr. Damrosch is simple and genial in his manner and men come to him for advice and help on many matters outside of music and often pertaining intimately to their lives and problems of existence.

War Will Determine the Location of Olympic Games, Says German Sportsman

Supplementing his statement made recently that the Olympic games of 1916 had not been transferred from Germany, Count Von Francken-Sierstorff, vice chairman of the German Olympic committee, said that the course of the war would determine whether the games would be held in a neutral country, possibly the United States. If they take place in Berlin, he said, it will be left to England and France to determine whether they will participate.

Teacher—"If you wear one pair of shoes three months, how long will two pairs last?"

Jimmie—"A year."

Teacher—"Oh, no; how do you get that?"

Jimmie—"I don't wear any in the summer."—Young Folks.

The Reason Why.

Pastor: "I was so sorry for your wife, during the sermon this morning,

doctor. She had such a dreadful fit of coughing that the eyes of the whole congregation were fixed upon her."

Doctor: "Don't be unduly alarmed. She was wearing her new hat for the first time."—Missourian.
