PRICE 5 CENTS.

ENGINEERS BANQUET

COMMITTEE PROMISES SPECIAL EVENT

ANNUAL EVENT AT LINDELL

Chas. A. Bennet Will Act as Toastmaster—Engineer's Quartet Will Sing—Tickets Now on Sale

The Engineers' annual banquet will be held May 1 at the Lindell Hotel. Last year's banquet will be remembered as the biggest and best affair of this sort during the year. This year the banquet is in the hands of the following men: E. O. Edison, Leroy Rhodes, and H. F. Nelson. This committee has been working hard for the last month and have their plans nearly all complete and promise that the banquet will be above the standard of Engineers' banquets. This of course, is the same as saying that it will be the big banquet of the year.

The toast list will be as follows: Chas. A. Bennet '11 (otherwise known as "Chick"), will be toastmaster and will be the representative for the Mechanical Engineers. William Grant '97, of Grant and Fulton Co., Lincoln, will do his best to present the Civil Engineers' sides of it. E. B. Lewis '12, will do his duty for the "Ag" Engineers. There will also be a representative for the Electricals and Commandant Parker has arranged for an army officer who will attempt to keep things as peaceful as possible. Dean Stout will give a short speech. L. A. Barnes '15, will represent the students of the college and the Engineer Quartet will sing.

As regards what there will be to eat, just one thing, don't eat any lunch before coming.

As before stated everything is arranged for but to make this a success the Engineers must get behind it and boost. The best way to do this is to hunt up a dollar and buy a ticket at once. Don't put it off as the committee must know how many plates to order. A number of engineers have tickets to sell at the first of the week and they may be got from any of the committee at any time and at any place. If you haven't a ticket get one today.

Remember—The time 6:30 o'clock, May 1. The place, Lindell Hotel.

MANY GIRLS OUT FOR TRACK EVENTS

Practice Results Indicate That Records Will be Made Again This Year

Many girls not in the Physical Education Department are trying out for the various track events, weights being the most popular.

Practice records indicate that many records are in danger of being beaten at the track meet, May 11. Mildred Chapin '18, holds the record for the shot put. Marie Clark '15, and Eva Piske '17, have cleared the bar at 5 feet 10 inches, in the pole vault; while the school record is 5 feet 6 inches, made last year. Marie Koch '18, captain of the Freshmen basketball team, is making a good showing in the baseball try-outs.

"The University is a Fine Place to Raise Engineers."

Regents in Session

The Board of Regents are in session in Chancellor Avery's office this morning for the annual April meeting at which financial matters will be settled particularly the apportioning of the budget. The members met Wednesday for the first time since the adjournment of the legislature, but the large amount of business to transact necessitated another meeting.

VARIED PROGRAM AT CONVOCATION

Engineers Annual Appearance Before Public—Honorary Fraternity to Present Picture to College

The invasion of the University by the Engineers for one week each year calls for an explanation on their part. This explanation is forthcoming at Convocation this morning. Each year during Engineer's week, they take charge of one Convocation period and present some of their activities to the University public.

The program is varied and an endeavor is made to make it of interest to the general student body. At this time, Sigma Tau, the honorary Engineering Fraternity, presents to the Engineering College a framed picture of some man who has been active in and who is responsible for the growth of the Engineering College.

The following is the program for this morning:
 Music.....Engineer's Quartette
 Presentation of Picture.....
O. W. Sjogren
 Response.....Dean O. V. P. Stout
 Commercial Value of Engineering.....
Prof. O. R. Martin
 Music.....Engineer's Quartette

ENGINEER FETE DAY

FIELD EVENTS ON ATHLETIC GROUNDS

PROFS TO TAKE ACTIVE PART

Stiehm to Give Baseball to Engineer Making Longest Distant Throw—Prizes For Other Events

Today while the carnivorous "Laws" are assembled at Capital Beach enjoying their annual Barbecue, the more genteel Engineers are promoting the cultured feats of the ancient Greeks upon the University Athletic Field. It goes without saying that this Field Day will by far surpass any held in the past. Not only have events been arranged for the "Embryo," but the "Profs" themselves will be given a chance to make good class room exaggerations of former youthful prowess. One event that promises to furnish amusement for the spectators and still allow the participants to retain their health, is a horseshoe pitching contest between the Professors of the Engineering Colleges. The team winning the event will be presented with a dustless ink-stand by the University Book Store, for use in the office of the Dean of the winning College. This event is scheduled for 2 o'clock, the entries to be kept secret until that time. It is, nevertheless, generally understood that Dean Stout will pitch.

Commercial Club

The University Commercial Club has been very fortunate in securing Mr. Dougal, salesman of the Lincoln Paint and Color Company, to speak at its Thursday afternoon meeting this week, which will be held in U. 102 at 4 o'clock. All members of the club are requested to be present, for there will be important announcements made.

THE TENNIS TRYOUTS BEING HELD TODAY

Ten Men Picked by Coach Stiehm Will Fight for Final Places on the Varsity Four Today

The final tryouts for the ten men picked by Coach Stiehm for the University tennis team will be held today on the University courts.

Various matches will be played between the different players so that the coach may judge of the respective ability of the men from every different angle. The four men, which will compose Nebraska's team will be selected this week and two of the winners will journey to Crete to play the team representing Doane College on Saturday.

The following Saturday the Nebraska team will play Creighton University here; and the next Friday and Saturday the Missouri Valley tournament will be held at the Country Club courts. On May 20, Oklahoma University will play the Nebraska team on the University courts.

"The Nebraska Alumnus" will be out the latter part of next week. Because of low funds and pressing business, the issue is late.

CYCLONES SATURDAY

AMES FARMERS MEET HUSKERS IN FIRST VALLEY MEET

SOME INTERESTING "DOPE"

Packer and Mellor the Ames Stars—Husker Squad Working Hard and Outcome Likely to Be Decided in Sprints and Distance

Ames competes with the Huskers on Nebraska Field, Saturday, in the first Valley meet of the season. To win the first meet is half the campaign, and knowing this full well, Coach Reed and his squad are putting forth every effort in preparation for the opening of the Valley season Saturday.

The Cyclones have a formidable array of sprinters and distance men, headed by Mellor, Packer, and Bourland. The meet will probably be decided in these events, for Nebraska's weakness in the jumps is offset by scarcity of weight material in the Ames camp.

Packer is the particular star of the Ames squad, and will represent the Farmers in both the high and low hurdles, the discus, the shot put, and the broad jump. Mellor is entered in the 440 and the half-mile relay. At the Drake games, running first for Ames in the mile event, the Cyclone sprinter was caught at 50%, which is exceptional time. Mellor ran first for Ames at Drake, but it is probable that he will finish for the Cyclones, Saturday.

Some interesting dope may be had by comparing the time made by the Cyclone athletes in the annual home meet which the Iowa school holds in preparation for the first Valley struggle, and the summary of the Husker-Coyote meet last Friday. Mellor, running the four-forty, covered the distance in 55; Bates' time in the Coyote meet was 54%. Packer, in the low hurdles, made 28%; Goetze won first for Nebraska in the Wesleyan meet in 28%. The fastest time in the Ames home meet at 100 yards was 10%; Scott and Irwin ran neck and neck at 10%. Burris, Ames' varsity representative in the high jump, cleared the bar at 5 feet 7 inches. At University Place the Huskers were eliminated at 5 feet four inches. In the broad jump, Packer sailed through the air a distance of 19 feet 7 inches; Nebraska's best mark last Friday was 18 feet 10 inches.

ADDRESS FOR LIFE INSURANCE CLASS

Nebraska District Director Explained "The Organization of Insurance Companies"

Mr. O. H. Mondol, district director for Nebraska of the New York Life Insurance Company, addressed the Life Insurance Class, Wednesday, on "The Organization of Insurance Companies." The speaker pointed out steps to be taken to organize under the laws of most states and the various methods of management, also the difference between Old Line, Assessment, Mutual, and Stock Companies. Rates were briefly taken up as they pertain to these different organizations. The adequacy of premiums was shown to be of just importance.
