Even if the Seniors do see fit to elect a chaplain, they are, someone has named them, the livest bunch of Seniors in years.

THE SLOGAN

"We will defeat Notre Dame," is the slogan prevailing on the campus these days. It takes interest and a great deal of it to generate the amount of "pep" necessary for such a game as will be the one next Saturday. Use the expression; encourage others to use it, and Saturday you will have enthusiasm such as you have never had before. You'll need it, the men on the field will need it. It is now a matter of all working together. Start in at the rally Thursday morning.

It has been stated that the "Laws" will have opposition at the rally Thursday morning. The "Comics" are not asleep; nor are the "Medics," the "Engineers" or the "Ags."

Rally around to the rally Thursday morning and help take the wrinkle out of the "Monarch's" brow.

Interest in the girls' football luncheon grows stronger each day. The interest is manifested not alone by those who will be able to be there. The men will, of course, have to rest between the Olympics and the big game, so they would not be able to attend, if invited.

Are you "Frosh" aware of what confronts you Saturday morning? You "Frosh" have the numbers, but the "Sophos" have the experience.

We wish to announce that it was through the courtesy of the Lincoln Daily Star that we were able to run the picture of the new "Bessey Building" the other morning.

EXCHANGES

China leads all the foreign countries in the number of foreign students enrolled in the University, with the large number of fifty six according to figures of Dr. A. R. Seymour, advisor for foreign students. Most of these Chinese are sent here in the interest of the government. The list of foreign student enrollment has just been completed after much work and shows the total number to be 141. The list is as follows: India 11; Greece 1; Japan 19; England 6; Russia 6; China 56; Jamaica 2; Brazil 2; Panama 1; Turkey 3; Peru 1; Cuba 2; Bulgaria 7; Austria 3; Germany 1; S. Africa 5; Canada 6; Mexico 1; Denmark 1; Norway 2; Sweden 1. This list does not include those students from our possessions which are Philippines 2; Porto Rico 2; Chinese Hawaiians 5.

If the latter were counted in total enrollment it would bring the number up to 149. This is not as many foreign students as there were last year. Just what is the cause of the decrease in enrollment is hard to discover, possibly it is due to the war in some cases. There are less Latin-Americans than formerly. There is only one Mexican and he is doing graduate work in the faculty. Probably the internal disorders in Mexico are to blame for the decrease in Mexicans, it being impossible for them to obtain funds.—Ex.

Speaking at Vassar College on the subject of "Women and Democracy," Mrs. George Haven Putnam, associate professor of History at Barnard

College, advocated the rearing of young girls in a manly way. She said in part:

"I would have girls reared to be manly. I would have them trained in dangerous sports, where their safety of life and limb depends upon their physical powers.

"I would have them taught to look out for themselves. I would have them discard their hampering clothing. I would have them learn the ordinary arts of self defense. I would have them openly carry guns."

She went on to explain that this would tend to make women more the equal of men, so that they would not cry when they were hurt, but act as man would.

"Women should pursue the same trades that their brothers and fathers pursue so that by their experience they may gain stability.

"Notwithstanding anything I have said previously," concluded Mrs. Putnam, "I am confident in democracy as it at present exists in women's colleges, in the women of the nation, and its increase in the future."

Mrs. Putnam's speech was part of the program of the fiftieth anniversary exercises being held at Vassar College at Poughkeepsie, N. Y.—Columbia Spectator.

The Pigeon Walk, the Fox Canter, Biplane Waltz, Aeroplane Glide and every other kind of locomotion in the world are included in the list of new dances being exploited by dancing teachers in the neighborhood of the campus this fall. Dancing masters

near the University state that there are a hundred new hops and skips to be learned this season, but they add that none of them are hard to learn.

After one has mastered sixteen fundamental steps he can do any of the hundred innovations, according to the dancing teachers who explain that the reason for the influx of steps is that dancing teachers must make a living by furnishing variety to their patrons.

Some others of the hundred varieties are the Charlie Chaplin Walk, Peacock, Hitchy Koo, Fishwalk, Du Turba Waltz and El Pericon.—Daily Illini.

Announcement is made in today's Exponent of the dismissal of classes on Saturday morning of this week in order that the best efforts of the entire university community can be focused on the entertainment of the alumni at the first annual homecoming. The petition which came from the students to the faculty has had the heartiest approval and the sole idea has been to have a day of celebration in which the entire university body can project itself upon the visitors. It is indeed a fine thing to welcome the alumni at such an occasion, when every element has shaped itself into a real time for a gala occasion. The game, the entire school open to inspection, the Student Union dance, and the autumn beauty of the campus have all blended together to make the visit of the homecomers most enjoyable.—Purdue Exponent (Lafayette, Ind.).

to the exposition. In previous years the College of Agriculture has usually sent an exhibit of live stock, but none would have been sent this year, for all stock entered was to have been slaughtered. The examination of typical unsoundness of horses was one of the features of the trip. Seventeen members of the class made the trip, accompanied by Prof. H. J. Gramlich.
