CONSTITUTION THE PRIDE OF THE AMERICAN NAVY.

Launched in October, 1797, "Old Ironsides" Figured With Glory in the Early Struggles Attending the Republic's Birth.

The most famous vessel in the history of the United States navy is the Constitution, popularly called "Old Ironsides," and originally a 44-gun frigate. She was launched October 21, 1797, at Boston, but was not completed until the following year, when she put to sea under command of Captain Nicholson for service against the French in the West Indies.

During the war with Tripoli, 1801-05, the Constitution was Preble's flagship, and in 1805 took part in three of the five bombardments of the port of Tripoli. In July, 1812, under command of Isaac Hull, she escaped from a British squadron off the New Jersey coast after a spirited chase of three days. On August 19, off Cape Race, she fought her famous battle with the Guerriere, a somewhat weaker English frigate, commanded by Captain Dacres, which she left a total wreck after an engagement of 30 minutes, the English losing 79 of their crew and the Americans 14. On December 29, under command of Captain Bainbridge, the Constitution captured off Bahia, Brazil, the Java (38 guns; Captain Lambert), after an engagement lasting two hours, in which the British lost 300 killed and wounded and the Americans 34.

On February 14, 1814, under Captain Stewart, the Constitution captured the Picton, 16 guns and a convoy, in the West Indies. On February 20, 1814, she took the Cyane, 34 guns, and the Levant, 18 guns; after a fierce engagement, remarkable for the seamanship of the Americans and the gallantry of the English, between the Madeira islands and the Gibraltar. The English lost 19 killed and 42 wounded out of 320, and the Americans 6 killed and 9 wounded out of 451. Soon afterward the Constitution was pursued by a strong British squadron, which recaptured the Levant.

Between 1828 and 1830 the Constitution was reported unseaworthy and ordered to be dismantled, but was returned in deference to the popular sentiment aroused by Holmes' poem, "Old Ironsides," and in 1833 was rebuilt. In 1855 she was laid up at the Portsmouth navy yard, but used at times as a training ship. In 1877 she was again partially rebuilt, and the next year crossed the Atlantic for the last time. In 1897 she was roofed in at the Boston navy yard and has since been used mainly as a barrack ship.

Anatomical Test.

In recent years many anatomists have given much attention to solving the problem of reproducing from the skulls the faces of ancient peoples. According to Nature, Prof. C. W. M. Poynter of the University of Nebraska some time ago gave three skulls to a sculptor, with the request that he reconstruct the fleshy parts of the face and head according to the data published by Professor von Eggerling of the University of Jena. Professor Poynter did not tell the artist that the three skulls were all of natives of North America. As a matter of fact one, possibly of the Pleistocene age, was found by Mr. Robert F. Gilder in a mound of river loam in Nebraska; one belonged to an Indian of pre-Columbian date; and one was that of a modern Indian. The photographs of the artist's work show in all three cases the characteristic face of the American Indian. Whatever the age of the Nebraska skull may prove to be, its owner was undoubtedly a man of the Indian type.

On Losing Your Temper.

There is an old saying to the effect that the Jesuits are wise; they never lose their temper. This adage we submit for the consideration of those choleric people, male and female, who cannot comprehend that a combination of sound and fury may as often contain elements of low comedy as of strength. He lost his temper is frequently another way of saying he lost his fight.—Baltimore Sun.
