UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, APRIL 20, 1916.

PRICE 5 CENTS.

## ACADEMICS WIN TIGHT GAME 2 TO 1

TROUNCE COMMERCIAL SCHOOL  
TEAM IN LEAGUE GAME

Crawford and Williams in Pitching  
Battle—Each Team Gleans  
But Two Hits

The Academics beat the Commercial in a fast game of baseball yesterday evening by a score of 2 to 1. Crawford, the Academics' pitcher, whiffed seven and allowed but two hits. Williams, for the Commercial, whiffed four and allowed two hits, while Smith fanned one and gave one hit.

The Academics went out in one, two, three order the first time at bat. Crawford fanned the Commercial in the same order and retired the side. The second inning, the Academics went down the same way. For the Commercial, Williams was passed, Gillette got a three-bagger, scoring Williams. Schively hit an out-field fly, and Gillette was caught at the plate.

The third inning was a repetition of the first. Rutherford, of the Academics, got a single, but the other men died at first. The fourth inning opened with Humphrey on first by virtue of Young's error, Hugg fanned, Crawford hit for two bases, scoring Humphrey. Hugg was forced out at third, while Crawford scored on a passed ball. Collins struck out, and the side was retired. There were no more scores made by either side, and the game ended at the end of the fifth inning, 2 to 1.

Score by Innings—  
Academics ..... 0 0 0 2 0  
Commercial ..... 0 1 0 0 0

The lineup:  
Academics— Commercial—  
Hugg ..... c ..... Shelley

Corney ..... 1b ..... Gillette  
Grant ..... 2b ..... Smith  
Humphrey ..... 3b ..... Pickett  
Crandall ..... ss ..... Rogers  
Rutherford ..... lf ..... Raceley  
Hoadley ..... cf ..... Schively  
Collins ..... rf ..... Florine  
Young  
Hartman

Mrs. A. M. Parker, mother of Lieutenant Parker, arrived in Lincoln April 19 from Texas, for an extended stay with Lieutenant and Mrs. Parker.

## FRANKLIN MAUN SPEAKS ON LIFE INSURANCE

Franklin Maun, general agent for a national life insurance company, spoke before the life insurance class, Wednesday morning, on "Sufficiency of Reserves and the Apportionment of Surplus."

Mr. Maun is well versed in the technical side of insurance and explained how the standards which determine the reserves are sufficiently conservative to always insure the reserves. He also gave an analysis of the premium into its parts, showing the sources of dividends.

## MINISTRY SUBJECT OF CONFERENCE

Chancellor Fulmer, of Wesleyan, Lincoln McConnell and Others to  
Take Part in Program

The third college men's vocational conference will begin Saturday-morning at 10 o'clock in the Temple and will deal with modern ministry. Chancellor Fulmer, of Nebraska Wesleyan university; Rev. Lincoln McConnell, Mrs. T. F. A. Williams, and the pastors of the local churches will be the different speakers.

Following is the program for Saturday:

10:00 Devotional. "The Minister and His Bible," Rev. C. J. Pope.  
10:30 "Some Things that a Minister in Embryo Should Know," Lincoln McConnell.  
11:15 "Methods," Dr. Jeffrey, Dr. Young, Dr. Chapman and Dr. Walte.  
12:30 Luncheon. "The Main Things in the Ministry," Dr. L. D. Young.  
1:45 "The Minister a Factor in Social Service," Mrs. T. F. A. Williams.  
2:30 Question Box, Rev. Tompkins.  
3:00 "The Outreach of the Ministry," Chancellor Fulmer.

## BARBER TO CHICAGO

Prof. G. E. Barber, of the department of Roman history and literature, left yesterday afternoon for Chicago to attend the annual meeting of the Classical Association of the middle-west and south. Professor Barber was one of the organizers of the association, which has about 2,000 professors of classical languages of twenty-seven states enrolled as members.

## CALDWELL WRITES FOR HISTORY PAPER

ARTICLE ON TEACHING IN HISTORY  
TEACHERS' MAGAZINE

"How to Teach the History of the West in American History"  
His Subject

The April number of the History Teachers' magazine contains an article on "How to Teach the History of the West in American History," by Prof. H. W. Caldwell, of the University of Nebraska.

Professor Caldwell discusses the difficulties of handling the problem because of the diversity of interests in the "West"—by which the easterners understand anything west of the Allegheny mountains. The "West," he says, has been the first to adopt the democratic measures, such as the election of senators by the people instead of by the state legislature and the primary laws which give the whole people and not the few in conventions the power to nominate candidates for office.

The writer says that the West has always been a strong factor in the wars of the United States. "The War of 1812 would not have occurred had it not been for the unanimity of the west in its favor." Naturally the West was also vitally concerned in the Indian wars, and Professor Caldwell expresses the belief that the war with Mexico might have been avoided if it were not for the West.

## TENNIS MEN MEET WESLEYAN TEAM

FIRST INTERSCHOLASTIC COURT  
MEET NEXT SATURDAY

Ellis, Gardiner, Chatt and Watkins to  
Try for Places on the Varsity Squad

Nebraska's first varsity tennis battle of the year will be fought out against Wesleyan university Saturday, on the Nebraska courts, east of the athletic field. The Nebraska tennis team will be chosen today, the weather permitting, from Harry Ellis, James Gardiner, Orville Chatt and Phillip Watkins.

Nebraska university has never won a dual tennis meet from Wesleyan, but the four men are showing such good form that luck is expected to turn this coming Saturday. The personnel of the Methodist racquet wielders is not known, but they will probably bring a good team as in the past.

The two courts that the athletic board has provided for the university have been in constant use, with a waiting list to play each day. Not only the men, but the girls as well, have played, although the fair ones have usually been forced to other courts.

After the meet with Wesleyan, will come the tournament with the Iowa State Aggies. The Ames bunch will also visit Nebraska, coming here one week from Saturday.

Phi Kappa Phi announces the pledging of C. B. Dempster, '17, of Beatrice.

## HANDBALL TOURNAMENT STARTS APRIL 26

A handball tournament in singles, open to all university students and members of the faculty, will be started Wednesday, April 26. All those wishing to take part should leave their names at Dr. Clapp's office not later than 5 p. m., Tuesday, April 25. All matches will be played on the court in the university Armory, except where both candidates agree to play in the chapel.

## CAMPBELL CAPTAIN BASKETBALL TEAM

Redoubtable Right Forward Was  
Chosen Over Thiesen

"Heinie" Campbell, junior, redoubtable forward upon last winter's Missouri Valley basketball champions, has been elected captain of the team for 1917. Campbell was unanimously chosen, after the first ballot showed him to be the victor over Ralph Thiesen, another plucky little forward.

Campbell's election will prove a popular one with the students who have watched him ring goals from difficult angles at trying moments in the game. The team that he will captain should surpass the one of this year. Ed Hugg, Paul Shields and Charles Gardiner will be gone, but with a nucleus of Campbell and Thiesen for forwards, James Gardiner at guard, and Nelson and Riddell at center, another all-victorious five should be found.

## CONVOCATION

President A. Ross Hill, of the University of Missouri, will speak at convocation today. President Hill was professor of philosophy at the University of Nebraska from 1898 to 1903.

## Politics, Pool and Poker

University men earned much monies passing out cards for candidates last Tuesday at the polls. They also did other things.

Here are some of the other things:

Playing poker—penny ante.  
Lagging nickels at cracks in the sidewalk.  
Matching pennies.  
Playing pool.  
Smoking campaign cigars.  
Talking politics.  
Discussing the war with Mexico, and cussing the Mexicans.  
Planning social calendar for rest of year.  
Sleeping.  
Mumble-peg.  
Nothing.

## NEWTON THANKS STUDENTS

In consideration of the loyal support given me in the recent primary campaign by the students and alumni of the University of Nebraska, I want to here express my sincere appreciation and thanks.

FELIX NEWTON.

## MISS HOWELL TAKES LEAD IN JEANNE D'ARC

TO PRODUCE THE PLAY HAS  
BEEN HER GREAT AMBITION

Gorgeous Scenic Effects—Prominent  
Student Actors to Appear at the  
Oliver April 26

Miss Alice Howell, professor of dramatic art of the university, will realize what has been almost a life-long ambition April 26, when the university players will present "Jeanne D'Arc" at the Oliver theatre, and Miss Howell will appear in the title role of the famous French war maid. Percy Mackaye's interpretation of the story, the only Americanized version, will be played.

In many respects the production will be the most pretentious staged by the university school of drama.

MISS ALICE HOWELL

The scenic effects will be given special attention, and it is said that costumes valued at more than \$11,000 will be used. The court scene of Act II, will be a most elaborate interior scene, and it is here that the gorgeous costumes of the French royalty will be used.

The players have been working upon the piece for several weeks, under Miss Howell's direction, and she will not only play the lead, but will also be the coach for the student actors. While the plot centers entirely about the main role which Miss Howell plays with such charming ability, there are a number of other excellent parts, which will be taken by students. Don Marcellus, who played the lead in the junior class play, will appear as "De Aloncon;" Maurice Clark, who was leading man in "The Melting Pot" and "Believe Me, Xantippe," will play "King Charles;" Carlisle Jones, DeWitt Foster and Harold Campbell have heavy parts, which they carry with ease.

The important feminine parts will be taken by Camille Leyda, Catherine Pierce, Marie Rowley and Lucille Becker, among others.

## BARBOUR ON GEOLOGY TRIP

Prof. E. H. Barbour went to Crawford and Alliance last evening to inspect some huge prehistoric bones found there recently. Mrs. Barbour will accompany him as far as Agate, where she will visit her daughter, Mrs. H. J. Cook.

## The Student Should Know—

### WIRELESS STATION

The wireless station has a mighty ear but as yet its voice is undeveloped. The outer ear has already been seen stretched from University hall to the chimney of the power house. This piece of apparatus is known technically as the antenna. A distant station sends out a series of electro-magnetic impulses which traveling at the velocity of light reach the antenna. These impulses are transferred to the receiving set, the sole purpose of which is to transform them into audible sounds. Signals coming from a point 4,500 miles distant are received in a little less than three one-hundredths of a second. The antenna serves in sending messages as well as in receiving them.

The purpose of the wireless station has been to supplement the class work of Prof. Ferguson. At present stations

at Arlington, Virginia, and points equally distant are easily heard. Messages can be sent for a distance of only 800 miles. Preparations are under way which will make it possible to communicate with either coast.

Within the last few years there has become evident a feeling that the radio stations at schools and colleges might well associate themselves together for instructional purposes as well as for the utility of the apparatus. A committee has been appointed by the associated land grant colleges and the next few years may see some development of this nature. Such a plan would contemplate offering its services to the government for the dissemination of information such as weather reports, time signals, and other news. In time of emergency the system would be available for government purposes.
