The man who forges ahead, leaving the mass of the world behind to drudge and slave, is not the man who has idled away his spare moments.—Daily Kansan.

## THOSE SPARE MOMENTS

The way a man spends his spare time usually determines his character, once observed a clever interpreter of men. At no time in one's life is this so true as during one's college career. With various lines of activities which may be followed, the index to one's character may well be determined by what he does with his odd bits of surplus time.

Is it a clever novel or a certain picture show for which a student wishes he had the time? Does he indulge in a game of cards, a few minutes of pool or a cursory glance through a good magazine, when he has a few spare moments?
