FOOTBALLERS PLAY GAME OF SOCCER

The wintry winds of yesterday, whirling around and through the rather abbreviated costumes of the football men, caused Coach Rutherford to put them through a hard drill at soccer football. The association game enabled the men to warm their blood as they butted the sphere with their heads or kicked it lustily with their feet and legs. About thirty men were ready for the matinee party when practice time came around, and they put in a most profitable session for several hours.

FRATERNITY BASEBALL

PHI PSIS DEFEAT SIG EPS

Phi Kappa Psi won from Sigma Phi Epsilon Tuesday evening at Twenty-second and J streets, by a score of

8 to 6. The game was almost anybody's battle all the way through, the two teams playing fairly even. A threatened rally by the Sig Eps that would have tied the score was stopped by a catch by Penney. The hitting of Cook featured the game, he making four hits out of as many trips to the plate.

SOCIETY

Miss Margaret McPhee, professor of rhetoric, entertained at luncheon Friday for Miss Margaret Linn. Miss McPhee's other guests were Dr. Louise Pound, Prof. Alice Howell and Mrs. Fred Williams. Mrs. Williams entertained at dinner Sunday for her visitor.

Miss Anne Stuart, Mrs. Roy De Putron and Mrs. W. H. King have been chosen to represent the alumnae at the Pi Beta Phi banquet at the Fontenelle in Omaha Friday eve-

ning. Many of the active chapter will also attend.

The annual alumni banquet, at which Chancellor Avery is to be the guest of honor, is to be held tonight in Chicago. It is to be a real Nebraska affair, as all Nebraska students whether they are graduates or not, are invited.

Harry B. Landis, '99, a director of the Alumni association, visited the alumni office Wednesday.

GIRLS PLAY OUTDOORS— MUST SAVE WINDOWS

Outdoor practice for the girls' baseball teams has been ordered to start next week, to save the few windows that may remain in the gymnasium by that time. The teams that will represent the sophomores and freshmen in the annual clash will be chosen by the end of the week. The baseball game promises to be one of the most exciting features of the girls' Olympics.

FIELD GEOGRAPHY 21

Missouri river trip will be taken Friday and Saturday. Every member of the class should read notice on geography bulletin board before 2 p. m. Thursday.—N. A. Bangston.

AG. COLLEGE GIVES HELP IN STOCK BUYING

D. H. Propps, extension specialist in dairying, went to Wisconsin Saturday to assist in the selection of dairy stock for several Nebraska farmers. When the demand justifies the time and the purchasers are willing to pay the traveling expenses of

the assistants, the college gladly furnishes this service free in the interest of securing better dairy stock for the state.

WORTHLEY RETURNS FROM KEARNEY AND CHADRON

E. A. Worthley, one of the student pastors, has returned from eight days spent at Chadron and Kearney, at which places he took part in religious campaigns at the normal schools in the two cities. The first work was done at Chadron, where in addition to the work at the normal, the sessions of the northwestern high school boys' conference were attended. At Kearney, Worthley was joined by Simonds of University Place, state secretary of the Y. M. C. A., and by H. H. Heinzman, international secretary. Worthley says that very successful meetings were held at both schools, especially Kearney.

PROF. FRANDSEN LECTURES

J. H. Frandsen, professor of dairy husbandry, delivered an address Tuesday before the American Creamery Butter Manufacturers' association at Omaha.

The College World

SIMPLIFIED SPELLING

That simplified spelling is not a radical change from the present system of orthography as many people suppose, but is simply a sensible use of letters of the language according to their sound, is the stand of George H. Danton, Pacific coast representative of the simplified spelling board of New York. Danton, who is now a professor of German at Reed college, was formerly a member of the Stan-

ford faculty. He spoke last night in the chapel on "Simplified Spelling."

"The simplified spelling board sends me out as a field agent to get people to use the forms of spelling given in the dictionaries. The spelling I advocated would not be very different from that regularly used. It is not a radical change from the present system, but simply a more intelligent use of our alphabet," said Professor Danton today.

MAGEE'S

"There are now more than 140 colleges and normal schools and 250 newspapers using simplified spelling. This includes fifteen state universities and papers of all sizes from the Chicago Post to small weeklies. Practically every Illinois paper uses simplified spelling, as the result of the endorsement of the system by the Illinois Press association.

"The simplified spelling movement is progressing satisfactorily. I do not know that anything will be done right away. There are many advocates of simplified spelling in the faculty, who understand the proposition thoroughly. President Wilbur is favorable to the movement.

"I have talked at 200 institutions in thirty-five states on the subject and by the end of the week shall have visited practically every college on the Pacific coast. Reed college, at Portland, endorsed the movement several years ago, and simplified spelling is used entirely there."—Daily Palo Alto.

THE NEW MILITARY SYSTEM

"The old order changeth," and so does military drill. No longer do the underclassmen spend two weary af-

ternoons a week in current rehearsing of "column left," "port arms," "forward march," and "squads right, one, two, three, four, five, step." No longer is the military department officially unconscious of the fact that blue dress uniforms are uncomfortable. And with these changes, because of them and others, we find that the attitude
