BOOKS OF SPECIAL INTEREST TO STUDENTS

A collection of books of especial interest to students is to be found near the entrance to the library. Here one may find books on vocational training, on travel, short stories, and many other books helpful to the student in choosing a vocation or for cultural reading. This collection is changed every week or ten days, one class of books being placed there at a time. The student body is urged to make the utmost use of these books. This week the following books are on the shelves:

"The Profession," W. D. Hyde.
"History of the American Bar," Charles Warner.
"Day in Court," Frances L. Wellman.
"The Art of Cross-Examination," Frances L. Wellman.
"Vocational Training."
"Women in Modern Society," Barnes.
"Woman's Work in Municipalities," Mary Ritter Beard.
"American Women in Civic Work," Helen C. Bennett.
"The Field of Social Service," Philip Davis.
"How to Become a Trained Nurse," Jane Hodson.
"The Work-a-Day Girl," Clara E. Laughlin.
"The Women of America," Elizabeth McCracken.
"Vocations for the Trained Woman."
"The Girl Who Earns Her Own Living," Anna S. Richardson.
"Education and Profession."
"Visiting Nurses in the United States," Ysabella Waters.

MUSEUM OF THE STATE HISTORICAL LIBRARY

Every student attending summer school should make it a point to visit the Museum of the State Historical Library at some time during his stay at the University. The collections in the museum relate primarily to Nebraska's early history, but many other items of interest may also be found here. Among these may be mentioned a drum used at the Battle of Lake Erie, under Commodore Perry, pottery from the southwest and from Peru, coin collections, collections of many kinds of paper money. The museum contains a collection of Indian articles belonging to "Omaha Charley," estimated to be worth at least \$25,000. Among other articles of interest are the gavel used in opening the first territorial legislature in Nebraska, spurs and air pads used on the "Pony Express," genuine scalplocks, war bonnets worn by Standing Bears, Many Wounds, and many other Indian chiefs, the key to the old Block House at Kearney, and a great number of specimens of Indian bead work and carving which will be a revelation to many who have not seen the products of Indian skill. Of special interest to botanists will be the collection of plants made by Dr. Gilmore, the former curator of the

museum, showing and explaining the Nebraska plants. Visitors are welcome uses made by the Indians of various at the museum and the curator is always willing to point out the various articles of interest.

PROFESSOR PERSINGER GIVES SECOND LECTURE

Professor C. E. Persinger, of the American History department, delivered the second lecture of the series he is giving on South America at convocation Tuesday morning. At that time he addressed a large and appreciative audience on the countries, "Uruguay and Argentine." His pictures were clear and his talk remarkably interesting. He stated that Argentine was still a country of feudal lords and peasants. Instead of using improved methods of agriculture it is their custom to use the land until in need of attention and then move on, much as our ancestors did in this country. The next lecture of this series will be given next week.

BRIEF BITS OF NEWS

Professor Borrowman, of the chemistry department, is out of the city on a short business trip.

The next Palladian meeting will take place Saturday night. The Peruvians are in charge of the program.

Mr. Kjelson, '15, graduate of the Agricultural College, is taking summer work in the Lincoln Business College.

Maurice Weseen, '14, instructor in Rhetoric at Ames during the last two years, is taking work at the summer session leading to his M. A.

The German Club will hold its usual meeting Friday night in Faculty Hall. The club meetings are open to all students of the summer session.

The Geogrpahy students took a field trip last Saturday to Milford. About fifty students attended. Another trip is planned this week to Louisville.

Mr. D. F. Cole of the Department of Economics, will leave next week for New York, where he will enter the summer school of Columbia University.

Mr. Rolland Frost, '12, returned Saturday from South Dakota, where he has been teaching the past two years, and is now registered in Nebraska Summer School.

Miss Edna Brown, graduate of the Nebraska Schol of Business, and recently commercial instructor in Rocky Ford, Colo., is enrolled in the University for graduate work.

Mr. John Ibsen returned Tuesday morning from Estes Park where he went as one of the Nebraska delegates to the Y. M. C. A. conference. He reports a very splendid time.

Mr. and Mrs. J. W. Cather have announced the engagement of their daughter Cleo Myrtle, to Prof. Horace J. Young, of the Agricultural College. Their marriage will take place August 1.

Mr. Chas. Creekpau and Mr. Donald Barns, who have been studying in the graduate school at Harvard the past year, are now visiting in Lincoln. The former is in the economics department, the latter in history.

Professor John Adendorf, who for the past two years has been an instructor in the department of Mechanical Engineering, has been appointed assistant professor in Machine Design and superintendent of shops at the University of Syracuse.

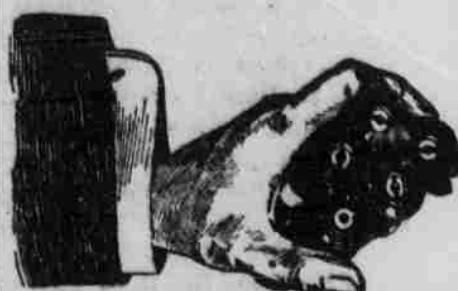

A story is going the rounds of the campus to the effect that at Harvard recently a poll of the students was taken as to which professor gave the "softest" course. It is reported that a certain professor of national reputation received 99 per cent of all the votes cast. It has been suggested that The Nebraskan take such a poll here. We do not know just what the professors would think about the matter, but if any of them have suggestions to offer, we are sure they would prove of interest.

You will be called upon suddenly for a picture of yourself for commercial or professional purposes. Let Townsend preserve the record subject to immediate call.—Studio 226 So. 11th St.
