

Summer School Nebraskan

VOL. I.

UNIVERSITY OF NEBRASKA, MONDAY, JUNE 26, 1916.

NO. 10.

NEBRASKAN WILL PUBLISH A STUDENT DIRECTORY

NAMES AND ADDRESSES TO BE
PRINTED IN NEXT TWO ISSUES

Books Will Be Placed on Campus
Today in Which to Have Any
Changes Recorded

For the convenience of those who wish to have a directory of the Summer School students, The Nebraskan will, in its next two issues, publish an alphabetical list of all students attending, together with their Lincoln address, and the telephone number of each. In order that this list may be as complete and correct as possible, books are placed on the campus today and tomorrow till noon for any change in address since registration to be recorded. Students interested in seeing a correct directory published are urged to see that their addresses and telephone numbers are given correctly.

During the regular session, the Y. M. C. A. has each year published a directory at the beginning of each year, but no Summer School directory has as yet been published, the only record being the mimeograph lists gotten out by the registrar's office. It is hoped that in the future a student directory can be gotten out at the beginning of the summer session.

KOMENSKY KLUB TO HOLD SUMMER MEETINGS

Bohemian Summer Students Organize
Saturday Night

Bohemian students of the summer session met Saturday night, June 24, and elected the following officers to lead the Komnesky Klub during the summer:

Miss Libbie Brewer, president.
Chas. E. Severyn, secretary and treasurer.

A short program was given, consisting chiefly of discussions of the great Slavonic writers. Songs, such as the Cornhusker, were sung to instill the Nebraska spirit into the summer students. Professor Hrbkova spoke concerning the possibilities of an independent Bohemia and concerning the work which such great men as Professor Masaryk, formerly rector of Prague university, now living in exile, are doing for the cause.

A social program followed the literary one. The meetings will be held twice a month in Union hall.

Measuring Earth Pressure

A piece of apparatus for determining the pressure of earth is being used in Marvin hall by Prof. Frank L. Brown, of the department of Mechanics. The pressure is determined by the use of a sand bin filled with sand at varying depths to determine its weight against a wall, and from this record a scientific estimation of the earth's pressure can be reached. Professor Brown expects to carry on experiments extensively. — Summer Session Kansan.

REV. LELAND RECEIVES HONORARY DEGREE

Rev. Dean R. Leland received the honorary degree of Doctor of Divinity from Hamilton college, N. Y., last Monday. Rev. Leland is the Presbyterian university pastor and has served in this connection for the past seven years. He received his degree of A. B. from the same college and previous to his work in the university held the pastorate at Peekskill and St. Louis.

IMMIGRATION BENEFITS THE UNITED STATES

Professor Hrbkova Speaks on This
Subject at Convocation

The immigration question was discussed, Friday morning at convocation, by Professor Hrbkova, head of department of Slavonic languages. The speaker took a decided stand in defense of the immigrant and in opposition to restriction by means of the literacy test.

The tendency of native Americans to sneer at the "Dagoes," the "Bohunks" and the "Sheenies" was severely criticised. The speaker pointed out that it was just this spirit of narrowness which brought on international difficulties. It was pointed out by the speaker that if we consider the value to the United States, in the material sense, he brings valuable labor. It was the Irish who built the Erie canal, the Slavs and Italians who built our railroads and the Germans and Scandinavians who developed the farm land of the middle west. The total yearly product of immigrant labor in the United States was valued at one billion dollars. Besides this, the immigrant brings a considerable amount of actual cash. The poll tax at the immigrant stations in 1914 amounted to about \$1,400,000, far more than enough to pay for the expense of our immigration stations.

Mentally, the speaker continued, the immigrant certainly does not lower

DR. ALEXANDER TO VISIT IN THE EAST

Prof. H. B. Alexander, of the department of Philosophy, will leave for a trip in the east about the middle of July. Boston and New York will be visited among other places.

Dr. Alexander is well known as the author of the books for the Lincoln pageants of the last two years.

PERUVIANS ENTERTAIN AT PALLADIAN HALL

Ex-President Roosevelt and President
Wilson Impersonated.

A very interesting meeting was conducted by the Peruvians at the Palladian hall on Saturday night.

J. R. Morgan was in charge of the program, which consisted of a reading by Frieda Eggenberger, a vocal solo by Etta Young a violin solo by H. Tanner and a cornet solo by Joseph Klima.

Much inside information regarding the political standing of our country's greatest leaders, namely, President Wilson and Colonel Roosevelt, was brought to light in a Roosevelt-Wilson symposium. Those assembled were grateful to the speakers who so ably brought about the solution for the present situation in Mexico.

Songs, yells and games followed the program, supervised by Ralph Walker, who also participated in the program by recounting several interesting stories.

Misses Edna Froyd, '16, and Winifred Jackson, '16, are doing stenographic work at the State House.

the standard. Only persons of able minds are allowed to enter and the school statistics show a far smaller per cent of illiteracy among the children of immigrants than among the children of native Americans.

In morality, also, the immigrant ranks high. Thrift and honesty characterize the greater part of them and very few of the major crimes are committed by immigrants.

ALL UNIVERSITY PICNIC IS PLANNED

DATE AND PLACE TO BE CHOSEN
IN THE NEAR FUTURE

Committee to Meet Tuesday—Each
Summer School Organization
Will Be Represented

An All-University Picnic is being planned for the Summer School students. The suggestion was brought up in the Palladian meeting, Saturday evening, a standing vote being taken of 125 people present. Approval of the plan was practically unanimous. Several dates were suggested, the Fourth of July and the Saturdays before and after the Fourth. No definite date was selected, but arrangements were made for a central committee, which is to make preparations for the picnic. This committee is to consist of one representative from each of the Summer School organizations, such as the Peru club, the Kearney club, Palladian, Union, Komensky, the German club, and whatever other clubs may be active. It is imperative that these delegates be picked at once—today, if possible. A preliminary meeting of the central committee is called for Tuesday afternoon at 1:30 sharp in the student activities office, basement of Administration building.

Two of the organizations have already picked representatives, Joseph Klima for the Peru club, and W. H. Wilson for the Palladians. The other members will be announced later, and the plans as worked out by the committee.

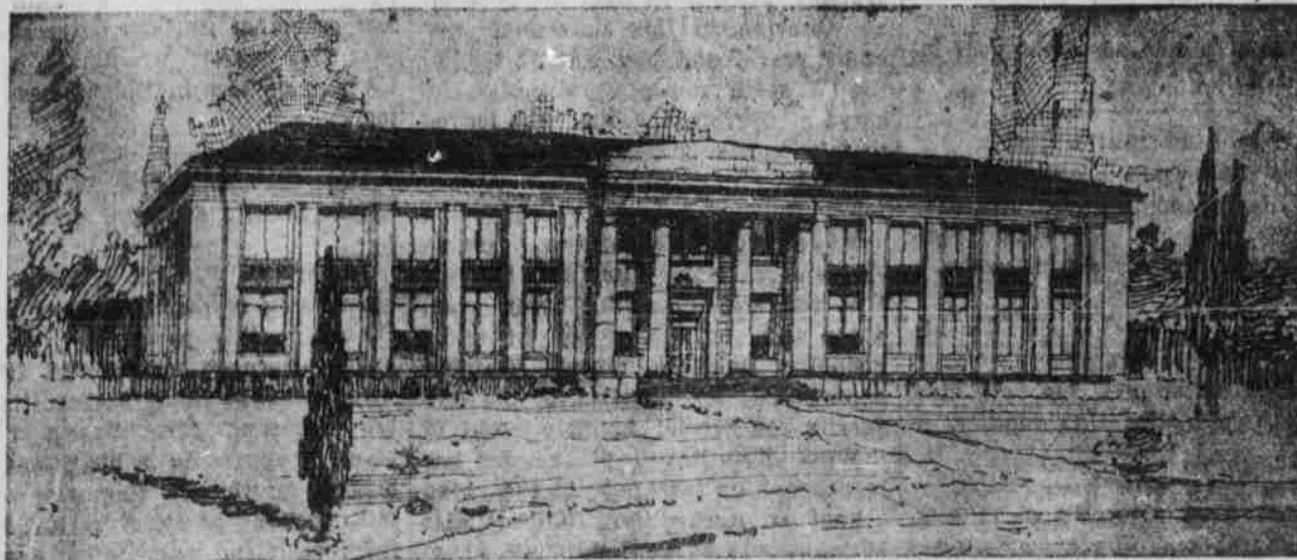

Friendly Interest

Grad: "This university certainly takes an interest in a fellow, doesn't it?"

Tad: "How's that?"

Grad: "Well, I read that 'They would be very glad to hear of the death of any of their alumni.'"—Siren.
