BALKAN SITUATION DISCUSSED AT CONVOCATION

Dr. Jones Describes Conflicts in This Region

Professor Jones, head of the department of English History, addressed the students at convocation Tuesday on the Balkan question. The speaker pointed out how the conflicting interests of various nations centered in this section, making this group of states "the nightmare of Europe."

Besides the original conflict in this region between the Christian Slav, Bulgar, and Greek and the Mohammedan Turk, there has more lately arisen conflicts between the interests of Russia, Austria, Great Britain and Germany in the region. Russia has a sympathetic interest in the Balkan peoples because of kindred race and religion. She has also a strong material interest, having for centuries tried to acquire a free port in the Mediterranean. Austria's interest in the region is due to her fear of the rise of another great Slav power which would threaten the integrity of the empire. Great Britain is interested because the region lies in the path of her trade route to India. Germany seeks commercial expansion toward the southeast. These crossings of national interests in the Balkans were partly, at least, responsible for bringing on the war.

The lecture will be continued next week. The attendance at Monday's Convocation was unusually large and indicated the general interest which this subject creates.

SUMMER STUDES ALLOWED TO GO HOME FOR FOURTH

The authorities that be are propitious. Following a vote on the part of the students at convocation Wednesday the authorities decided to make Monday, July 3, a holiday on condition that classes hold on Saturday instead. This will allow those desiring to spend the Fourth at home, to leave tonight or tomorrow.

UNION PROGRAM POSTPONED BECAUSE OF VACATION

The program which the Union Literary Society members planned to give at Palladian meeting tomorrow evening has been postponed on account of the vacation granted for Monday. It will be given at some later meeting.

An outdoor stunt program is being planned for those remaining in Lincoln.

DR. BARKER LECTURES ON HEREDITY

Dr. Barker gave the second part of his lecture on heredity at convocation yesterday. The lecture concerned the application of the laws of heredity to the betterment of the human race. It was illustrated with lecture slides.
