REV. WAITE TALKS ON CHURCH MEMBERSHIP
TELLS GIRLS AT VESPERS REASONS FOR JOINING CHURCH
 Has Asked 10,000 young Men and Women Why They Do or Don't Go to Church

Rev. R. A. Waite of the First Congregational church, in his talk to the girls at Vesper service Tuesday evening, gave an account of his experiences with young men and women during his summer work at Lake Geneva. He spends each summer at that place and enjoys the advantages of the summer conferences.

"I am asking ten thousand young people," said Rev. Waite, "their reasons why they do or do not belong to the church."

He then quoted four principal reasons given by the girls. The first and most common reason given was that they went out of respect for their parents. The second reason was the influence of their associates either for or against church attendance. Girls are apt to be too easily swayed by the sneers of their companions.

The third reason was because of the recreation features and social expression to be found in the church, the fourth and last reason was that the church gives one opportunities for unselfish service, and this reason, Rev. Waite said, is the real purpose of the church. Our attendance should not be for what we can get out of it, but rather for what we can give. He said it was his desire that all social affairs of the church should be wholly unselfish, with the church acting as a host. In this way the members could entertain those people who have no other opportunities for fun and great good would be accomplished.

Gives to Young Women
 "No organization," said Rev. Waite, "gives a young woman so great a chance for the expression of her depth of feeling as the church."

A church member who goes merely for her parents, her associates, or for the social life, gains little benefit and does little toward helping the church. While the person who accepts the manifold opportunities which present themselves, will have a life of constant joy and will follow in the path of Him who came, not to be served, but to serve.

Bertha Driftmeier presided at the meeting and special music was furnished by Florence Lyford.

FINE ARTS STUDENTS TESTING ABILITY BY INDEPENDENT WORK

The fine arts department is enjoying "Concour" or examination week. The students who have been working from casts are working from still life groups and the others are drawing from a model, as usual. They are working without any help or criticism in order to test their ability when doing independent work.

The night class is increasing in membership and a great deal of interest in being shown in the work. Registration for this class is still open.

They are having a contest at the Georgetown School for essays on the subject, "The Kind of a Girl That I Like Best." I will reproduce what I think was the best test submitted. This is it, by A. S. Enior: "I will be glad to give you the test that I apply to all girls to see how much I like them. It is a sure test. The test: Look her up in Dunn & Bradstreets, and if she is rated at half a million or so, propose as quickly as possible.—Ex.

FOOTBALL EXPENSIVE GAME

Figured That Cost Per Player is Approximately \$52.55

"Football is more expensive than a private yacht or a polo string," says Manager Lovett of the Penn eleven. He has figured out that it cost approximately \$52.55 per player before the kickoff in the opening game of the season. Seven hundred pairs of shoes and stockings is the most expensive sort, sweaters, jerseys, mole-skins, and several hundred footballs are required to equip a team.

Add to this the fact that several men have been busy all summer rolling the gridiron, raking it for small stones, rebedding it with fresh sod, and keeping it in first-class condition. Manager Lovett added that if football players drew the salaries of diamond stars there would be no football.—Columbia.

BROWN FINDS WAY

200 "Slackers" Join Union There in One Day, Due to Scheme

Officials of the Brown Union have hit upon a novel and successful method of getting men to join that organization. They have closed the doors of the Union building to all non-members and have posted a sign which gives their names and reads: "Do you know why these men don't go into the Union building any more? They are not members and so cannot." This method caused 200 to join in one day last week.—Ex.

CHI HARLEY HONORED

Ohio State Star Halfback Given Silver Loving Cup

Gold footballs were presented to the members of the 1916 team at the annual football banquet in December. These were given in addition to the sweaters and numerals which are always presented to athletic teams there. Chic Harley will probably be honored with a silver loving cup for being the first Ohio State man to be chosen all-American for the past decade.—Ex.

TURN YOUR SHIRT-TAILS INTO DRAWERS

What good is a Shirt-tail anyway?

IN OLUS
 the outside shirt and underdrawers are one garment. This means that the shirt can't work out of the trousers, that there are no shirt tails to bunch in seat, that the drawers "stay put," to say nothing of the comfort and economy of saving a garment. OLUS is coat cut—opens all the way down—closed crotch, closed back. See illustration.

For golf, tennis and field wear, we recommend the special attached collar OLUS with regular or short sleeves. Extra sizes for very tall or stout men. All shirt fabrics, in smart designs, including silks—\$1.50 to \$10.00.

OLUS one-piece PAJAMAS for lounging, resting and comfortable sleep. Made on the same principle as OLUS Shirts—coat cut, closed back, closed crotch. No strings to tighten or come loose. \$1.50 to \$3.50.

Ask your dealer for OLUS. Booklet on request.

VENUS 10¢ PENCIL

No matter what course you're taking you need this famous pencil!

BECAUSE of the superlative quality of material and workmanship, VENUS is admittedly the finest pencil it is possible to make.

If you like a thick soft lead that marks so that you can read the writing half way across the room, choose the soft greens 6B—5B—4B.

For short-hand notes or easy writing 3B—2B—B (medium soft) are popular.

For sketching, general writing purposes, etc., HB—F—H—2H (medium) will prove desirable.

For drafting, a medium hard pencil gives the best results and you'll like 3H—4H—5H—6H.

For very thin, narrow lines for extremely accurate graphical charts, maps, details, etc., 7H—8H—9H are available.

Look for the distinctive water mark finish on each of the 17 black degrees and hard and medium copying.

Your professors will confirm these statements as to the merits of VENUS pencils.

For sale at the college book store.
