CO-OPERATION NEEDED

Students who favor the establishment of a Student Council should not quarrel about the choice of the charter convention, nor should organizations and classes that expect representation in the council feel disappointed because they were not given representation on the charter commission.

It must be remembered that this committee of eight has no powers other than that of suggesting to the student body and the faculty a plan for a student council. If this plan is not ratified by the vote of the students and faculty senate it will not be adopted. Every organization and every class will be given the fullest opportunity to present its claims for consideration of the commission, and all will have equal voice in deciding whether the plan as finally drawn up shall be accepted.

Sophomore and freshmen classes have not been slighted in the appointment of the charter commission. It is right that this body should have as its members students who are mature and fully acquainted with student life. They can be depended upon to give fair play to all classes.

Every student organization and every class should bend all efforts now toward helping this commission draw up the student council plan. Progress should not be halted by a division over ways and means.

THE IDEA OF SERVICE

The willingness of student organizations in the University to forget themselves in working for the common good, so strikingly illustrated during the past few days, shows that University men and women are learning that the truest enjoyment in life comes from lending the helping hand.

The student who forgets his selfish hopes and thinks more of serving his school and his class is getting far more from his college course than the one who schemes eternally to draw all possible honors to himself, regardless of the common good.

One who can unconsciously give of himself the best that is in him toward helping along his fellows may not gain a prominence in the public eye, but he will fall heir to friendships that are lasting and a happiness that is soul satisfying.

AN OPPORTUNITY

A national conclave of representatives of every student council in the United States will meet at Purdue university the first week in March, to exchange ideas and experiences so that student self government associations may be perfected.

This is a particularly opportune time for Nebraska to get some first-hand information of the practical workings of a student council, in order that the one which is to be organized here will embrace all of the best features of the others. Nebraska should have a representative at the convention.

Contributions of small amounts from different University organizations would defray the expenses of a delegate from this school. Enough organizations on the campus have a surplus in their treasuries to raise the money that is needed. Which will be the one to start contributions?

NON COMPOS MENTIS

Sh! There's a regular story going round on the campus—and it's a good one all right—have you heard it? You haven't! Well, if you don't tell anyone I told you—(. . . * * ! !). Pretty good stuff, what?

A Beautiful Poem

I bought me a new spring hat today
 And spent up all my cash
 For the next two weeks I'll have to stay
 On ossified bread and hash.

The Missouri Basketball team
 Has left its native Haunt
 To trip lightly up
 To Lincoln
 Today to try and Beat the Cornhusker team.
 Why aren't people Satisfied with their Own good homes
 Without
 Coming up here
 To try and get Something they can't
 And they know They can't—so why do they Think they —
 The Missourians are Just like the Germans, they're beat Before they leave home
 And Mother.
 And the strange Part about it is That they are like Lots of
 People you and I Know who don't Have the proper Power of discrimination.
 That is a good Word to add to Your vocabulary.—
 Discrimination is. Use it in everything.
