### AN OPPORTUNITY LOST

University girls missed a signal opportunity to strike an effective blow for the suffrage cause yesterday, when they failed to attend the suffrage convocation. Their absence lent emphasis to the remarks of one of the speakers that the men are to be congratulated for having done so much in the way of giving suffrage to women, since they themselves are so indifferent to the importance of the ballot, and show so little unanimity in declaring they want it.

By a liberal estimate, there were 200 girls at the suffrage convocation, less than a tenth of the total number of co-eds in the University. University men probably form their opinions of woman and her wants from the University women. The obvious conclusion from the non-attendance at this suffrage rally is that the University women are not interested enough in the cause to sacrifice a half-hour's time for it.

This is not an argument for suffrage, but it is an argument that a large number of the Nebraska University girls have failed absolutely to grasp the importance to them of this suffrage movement—the importance to them and to the other half of the world, to them and to their children.

The tendency will be to leap to the conclusion that the girls are so interested in spring clothes at this time of the year, so lost in the thought of the social triumphs that may be theirs in the next month, that they have not had the time to give serious thought to this suffrage movement, which is nothing less than a great humanitarian movement. The danger is that this preoccupation will result in making the University men as indifferent to the suffrage cause as the University women are indifferent, and if one man in ten is the most the University women can convince they want the ballot, it will not be in 1918 that equal suffrage is granted in Nebraska.

### PROFESSOR FLING'S LECTURE

Again it is a pleasure to call attention to the lecture to be given by Professor Fling in the Temple theatre at 11 this morning, on the recent revolution in Russia. In this great crisis of America's and the world's history, it is a rare thing to have an opportunity to hear a man who can speak with assurance on an event such as has taken place in Russia. Students who do not have a class at 11 this morning cannot spend the hour more profitably than by listening to this lecture.

### CO-OPERATE WITH THE CADETS

With outdoor drill resumed, but the ground on the campus and athletic field still so soft that the drill cannot be held there, the cadets are forced to drill on the streets. Twelfth street is most easily available to the military headquarters, and offers the best drill grounds because there is less traffic upon it. Students who drive automobiles to the campus should remember this fact, and not park their cars on Twelfth street. Leave this place open to the cadets, and park that car on R street. A little thoughtfulness here will be a tremendous aid to Commandant Parker and his cohorts.

## UNIVERSITY NOTICES

### Box Social

An old-fashioned country school box social will be given in the horse barn hay mow at the Farm campus Saturday evening March 24, at 8 o'clock by the home economics club. Each girl will bring a lunch for two; boxes to be sold at auction. There will be dancing and games. Everyone is invited.

### Mystic Fish

There will be a Mystic Fish meeting at the Alpha Phi house at 5 o'clock Wednesday.

### Lutheran Students

The Uni. Lutheran students' club will meet Saturday evening, March 24, at 8 o'clock in the Y. W. C. A. room, Temple. Every member is requested to be present since the question of a house is coming up at this meeting. Those knowing that their dues are still unpaid are asked to be prepared to pay them. The Rev. E. G. Knock is going to talk on "Luther as a Reformer."

### Junior Play Committee

There will be a meeting of the Junior play committee Thursday morning at 10:50 in The Daily Nebraskan office.

### "Ag" Club

The "Ag" club will meet Thursday evening at 7:30 in Plant Industry

hall, State Farm campus. Illustrated lecture by Professor Young on "Soil Erosion." Talk by Representative Norton.

### Glee Club

There will be an important meeting of the glee club Wednesday evening at 7:15 in Art hall.

Washington.—One woman out of every five in the University of Washington is wholly self-supporting and one out of every eight is partially so, according to a statistical index of the 1,610 co-eds of the university. Of this number 256 live in sorority houses, while 310 live in approved boarding houses. There are 940 living at home in Seattle.—Ex.

Iowa.—Sixty-one members of the faculty including the president of the college, R. A. Pearson, two deans and the registrar, of Iowa state college have organized a military training company. The rudiments of military drill are being learned in view of entering military camps in the summer for the furthering training of themselves and others.—Ex.

Sixty candidates are trying to make the University of Michigan baseball team. Coach Carl Lungren has assumed charge of the squad. He says the material is far better as a whole than that of last spring. There are eighteen pitchers in the squad.

## NON COMPOS MENTIS

A true friendship, like a delicate porcelain, if broken, and though mended with the greatest of care, will forever bear the traces of the misfortune.

Sprig has cub.  
 Sprigs is here  
 Briggings joy  
 Ad all good cheer.

Sprig has brod us  
 Meddy thigs;  
 All the flowers and  
 Birdaligs.

Id has brod us  
 A cold in head;  
 Ad we wish thad  
 We were dead.

Wedcomb merry springtime  
 How we love you so;  
 Ad we hope that with the frost  
 Our code in head will go.

Medical supervision at Nebraska is like the fifth of July, noise all gone, and just the empty crackers lying on the ground.

### Essay No. 46.

On a beautiful green hillock, high up in the clouds, there stands a green mansion. The inhabitants are vegetarians and are said to thrive on green things in general. Within the peaceful mansion there lives a group of angels, who twang their harps and sing "Our Reed of Life is Our Only Hope." In their more jovial moments they hop and skip about in frolicsome glee to the tune of "Alpha Tau Omega, tra, la, la, la." The fraternity dispensary is one of the most unique and popular institutions of any hereabouts. The "Balm for Bleeding Hearts," and the "Sinner's Salve," are taken in large quantities, by all of the brothers at the same time in sympathy for the afflicted one. The idea of sharing all burdens, is in this way, most effectively accomplished.

The A. T. O's have a winning way with them—sometimes. But this time, 't wasn't with them. It was all just durned hard luck—but ask the Phi Psi for particulars, we haven't time to delve into technicalities now.

The fraternity colors are blue and gold—blue symbolic of their heavenly home, and gold standing for the golden crowns they will some-day wear. Prof. Philo M. Buck is their frater in arbe and Franklin Pittman, the "wild man of the plains."

## BRIEF BITS OF NEWS

Program by M. DeBouzon.—The program at the meeting of the Deutscher Geselliger Verein at Miss Amanda Heppner's, 955 Washington street, Thursday evening at 8 o'clock, will be given by Marcel Roger De Bouzon.

Positions for Graduate Students.—The dean of the graduate school of education has had several calls for graduate men and women to become professors in normal schools and colleges, for which there are at present no suitable candidates. The demand for thoroughly trained teachers exceeds the supply.

Many Nebraskans in Club.—The Omaha Technical club, whose meeting Dean O. V. P. Stout, Professors O. J. Ferguson, V. L. Hollister and F. C. Holtz attended Monday evening, was found to be largely composed of old University of Nebraska men. City Engineer J. A. Bruce, '03, is a member, and the list ranges to the young men in the field, including Roy Cameron, who finished this last semester.

Models Pose for Students.—The advanced students in the art classes have, for the past week, been working from two models who pose together—the one an Indian maid and the other a soldier in khaki. A number of different poses are taken and the individual student selects one of these and works it into a composition such as might be suitable for illustration purposes. Some very interesting pictures have been made.

A plea to the various fraternities at Wisconsin university to allow the freshmen who are in the throes of initiation this week to attend the annual freshman dance to be given next Saturday has been made by the committee in charge of the event.
