NEWS FROM CAMP

Lieut. R. L. Copsey with the Flying Squadron No. 1 at Kelly Field No. 2, writes a very interesting letter to The Nebraskan in which he gives some of his experiences and also gives a bit of advice to the men enlisting.

Lieutenant Copsey characterizes the work as the best that the service has to offer to the man with the nerve and ability to do strenuous work. Flying, he says, is one of the most fascinating experiences of a man's life. Nebraska so far ranks low in its proportionate representation in this branch a fact which Copsey calls attention to in the letter and urges that the men here should take the opportunity to join. The letter follows:

Kelly Field No. 2, Dec. 13, 1917. Editor Daily Nebraskan,

Lincoln, Nebr. Dear Sir:

though it tells of old Nebraska's defeats in football occasionally, and of quarantine for smallpox and such. knowing that the school is still going full blast.

Have come in contact with a large number of cadets in this branch of service and find Nebraska one of the last states according to the number of representatives found. It must be because the men there don't realize the advantages of this branch or else they have entered it and been transferred to some other part of the

Assuming that they don't realize its opportunities I am thing a chance at this opportunity to tell them from the inside what there is

After finishing what is known as the Ground School, a course of 8 weeks, covering 36 subjects, equivalent to 166 hours of University work he is sent to a flying field. Here he feels for the first time that he is glad he is in this service. After his first pight be feels all the work he has done has been worth while just for that one "joy ride." The excellent food and equipment make it all the more worth while.

The courses in the different flying schools vary somewhat, but here some of your ground work is continued, for instance, wireless, fighting in air, and different languages, for forms." all taught by foreign officers who

have seen active service and know their business.

Up to your cross country flying stage you fly every day, averaging about an hour in the air which will give you plenty to think about till the next day. We fly the afternoon of one day and the morning of the next so one always gets different weather conditions to fight, and a night's rest in between. On the alternate half day we get practical instruction in designing and setting up ships, "trouble shooting" on motors and range work with Lewis machine guns. It is all very interesting, especially for men who wish more individual work and whose efforts will surely be recognized. That is indeed saying a good deal

fo a branch of any military service. The government spends about \$15,-000 on every man they send across the German lines—that goes to show what excellent training one gets.

As to flying-anyone can if they can pass the physical examination and have the nerve. I can safely say it is the most fascinating of all sports and cannot be fully appreciated until one has had some time in the air. It is not uncommon to see as many as 20 ships in the air at one time on this field. Over to the north one can see a couple of balloops most of the time. John Mc-Gurk, a Delta Tau Delta is over there, he is the first Nebraska man met while here.

Hoping this bit of information will help some pick the branch of service that means more to the individual and more to the cause than any other, and liking to see the Nebraska men get the best, I am,

Very truly yours, LT. R. L. COPSEY, Flying Squadron No. 1, Kelly Field No 2.

OURLETTER FROM FRANCE

The alumni office has received a very interesting letter from Captain L. E. Hohl, law '02, who is with the American army in France. Captain Hohl says:

"The alumni edition of the alumni Journal reached me today and I thank you very much for it. I enjoyed read-Sigma Alpha Epsilon-house dance. ing it very much as I found out who are in the 'big show' and shall look for them when they arrive.

"I came over here with Pershing's first expedition and have already met some U. of N. men. In fact one of them (Mettlen) is in my company and is certainly coming to the front. You sent me a splendid representative when you sent him. I hope all U. of N. men will make the same impression on their respective organization commanders. Several times he and I gave the Varsity yell out here in the fields and our French instructors would stop work and listen in awe and amazement.

"Again thanking you for my copy, "Very truly, and with the best to

the bunch at home,

"L. E. HOHL, '02."

Income Tax Collections Omaha, Nebr., Dec. 24, 1917. It will require a small army of men to take the income tax returns of persons subject to the new law.

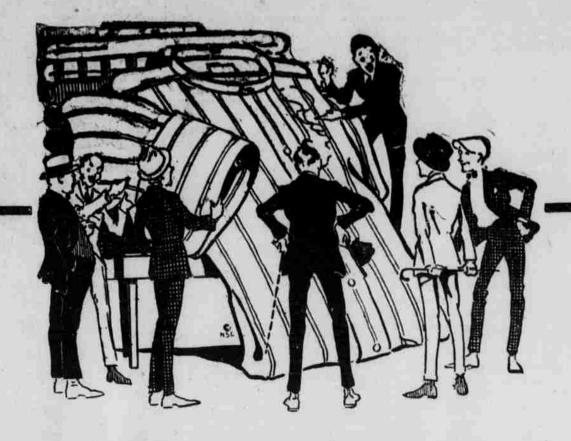

Collector of Internal Revenue, Geo. L. Loomis, today announced that 24 officers will start from his headquarters on January 1st and on January Receive your paper about three 2nd every one of them will be on the times a week, sure enjoy it even job in the county assigned him, to meet the people and help them make out their income tax returns. The officer assigned to this county is due It keeps that old spirit alive in to arrive here on January 2nd and to remain until March 1st, both dates inclusive. He will have his office in 211-213-215 Federal Bldg., in Lincoln. where he may be found every day of the dates stated.

"It will be well for every unmarried person whose net income for 1917 is \$1,000 or over, and every married person living with wife or husband whose net income for 1917 is \$2,000 or over, to call on the income tax man and learn whether or not they have any tax to pay." Collector Loomis said "The person subject to tax today. who doesn't make return in the time prescribed is going to regret it. The Government will get after all income tax slackers.

"There's hardly a business man, merchant or professional man who won't have to make return of income. Farmers, as a class, will have to pay the tax. The safe thing to do is for every person who had a total income of \$1,000 or \$2,000, as the case may be, and who is not sure about what deductions the law allows, to play safe by calling on the income tax man.

"The man in the field will have forms for everybody and persons who expect to call on him need not translate themselves to write to my office

GEO. L. LOOMIS, Collector.

THE UKULELE

Lyan & Healy "Washburn" Ukuleles, \$15.00; Leonardo Nunes genuine Hawaiian make, \$7.50; Mauna Lea brand, \$4. May be had of 12,000 leading music dealers. Write for name of the nearest dealer.

HE languorous charm of the Hawaiian native instruments—so moving in appeal, so observably in vogue-is strikingly characteristic of the Ukulele. Its tone possesses that curiously beautiful timbre, that exotic charm of tonal quality which has made these instruments so sensationally popular.

The Ukulele has a pleasing grace of form. The finer models are made of genuine Hawaiian Koa wood. It is much in request today among the smarter college and other musical organizations.

It is easy to learn. Its price includes an Instruction Book.

Hawaiian Steel Guitar

Every chord struck upon this typically representative Hawaiian instrument is marked by a weird, plaintive harmony and strangely beautiful qualities of tone. It brings, to any music, qualities full of vivid color and varied charm.

Price \$8,00 and upwards, including Steel and Set of Three Thirdles for playing, and Instruction Look,

Catalogs on application.
