

THE DAILY NEBRASKAN

VOL. XVII, NO. 85.

UNIVERSITY OF NEBRASKA, LINCOLN, MONDAY, JANUARY 28, 1918.

PRICE FIVE CENTS

JINX MAKES RAID ON HUSKER CAMP

Six Regular Men Now Out of Play

SQUAD LOSES THREE MEN

Schroeder, Strohmer and Phillips Not to Be Counted on for This Semester

After being apparently knocked out for good by the Cornhusker basketball squad, Old Man Jinx staged a come-back last week that for effectiveness and thoroughness could not be beaten, and the case is again under the dark clouds of gloom.

The season was started Saturday before last, with a team from Camp Funston. Before the game, hopes of even beating the soldiers had been entertained, but after the first two minutes of play, the case was hopeless. The Funston team was the cleverest and most accurate, if not the fastest, team seen on a Nebraska floor for some time. They started the game with an all-eastern man, an all-Illinois man, and three all-western men. And they had a second-string line-up that was almost as formidable as their regulars. The final score was 43 to 14. In spite of this one-sided defeat, however, the showing made by the inexperienced Nebraskans was decidedly encouraging, and Coach Stewart even went so far as stating that if the student body would stand behind the team, Nebraska would be represented as well or better than it was last year.

Six Men Out of Play
Then came semester examinations, and a week's rest. It was impossible to practice, because the gymnasium was being used for registration. A practice scrimmage was held Saturday night with Cotner, when the true delapidated condition of the squad became apparent. Schroeder is out of the game for good, because of a bad heart. Strohmer is ineligible for the next semester. Phillips left school and was unable to take the examinations, and so is ineligible. Hubka is in the hospital with an injured knee. Anthes and Adkins are on the hospital list, and the former is probably out of the game for the rest of the season. In all there are six regulars—some of them strong candidates for the first quintet—out of the game for some time, and some of them for the entire season.

In spite of these adverse conditions, however, Coach Stewart is still working hard with the team, and expects to turn out a fairly good five. The schedule will be continued as was originally planned.

For Friday and Saturday nights of this week, fans have been secured a real treat. Two games will be played with the team from Camp Dodge, for a benefit for the Camp Dodge athletic fund. As preliminaries to each game, Doane and Cotner will play the freshmen, on Friday and Saturday night respectively. This will be an opportunity to see a team in action that will be on a par with that from Funston, and to see the whirlwind freshmen show their worth. Definite plans for the games have not been fully completed, but an extensive campaign is being arranged for. Coach Griffith, director of athletics at Camp Dodge, has sent out Lieut. "Bill" Folsom to act as advance agent, and that fact alone means that things are going to happen.

LAST CALL ISSUED FOR CORNHUSKER PICTURES

Owing to Registration Week Time Limit Is Postponed Until February 2

A second call for junior and senior individual pictures for the Cornhusker has been issued by the management. Due to the unsettled condition of school this past week caused by examinations and registration, a few of the pictures have not yet been taken. For this reason the time limit set for having the pictures taken has been extended until Saturday, February 2, so that all of the pictures may be taken.

The contract for the engraving allows only a limited time for all the pictures to be gotten in, and since

DEAN W. G. HASTINGS
Appointed University's Acting Chancellor

some time is necessary for the photographer to develop and mount the pictures it will be absolutely necessary that the pictures all be taken before this time.

A majority of the pictures have already been taken but some few are yet missing. It is the duty of these few to have their pictures taken at once. Pictures can be taken any time up to 5 o'clock, any day this week.

The management plans to run a list of all juniors and seniors who have registered as such. This list will be made up in alphabetical order and all who do not have their picture in will have a blank space left where their picture should be, as a representative of their school patriotism.

It is, therefore, absolutely essential that these pictures be taken before February 2 if the Cornhusker is to come out on time.

NEWSPAPERS TO MAKE US THINK INTERNATIONALLY

"To make millions of Americans think intensionally is the tremendous task imposed upon the newspapers of this country. President Wilson's wonderful vision of the part that the United States is to play in world affairs can not be realized unless it is understood and supported by the American people. The weekly and daily newspapers are practically the sole mediums through which we can be informed and guided."

So said Prof. W. G. Bleyer, head of the Department of Journalism of the University of Wisconsin, in addressing the Library school on Friday.

SORORITIES ANNOUNCE NINETEEN PLEDGES

Alpha Xi Delta Heads Second Semester List—Pi Beta Phi Second

Sorority pledging for the second semester this year shows a decrease in members pledged, as compared to former pledge weeks. This fact perhaps is due to the fact that the membership in nearly every case has been maintained about to the normal standing. In this respect sorority and fraternity pledges show marked contrasts this year owing to the increased activity shown in fraternity pledging on account of membership ranks which have been materially depleted by the call to the colors.

No large number of pledges was made by any of the sororities and in many instances no pledges were announced. Following are the sororities and their pledges.

Alpha Delta Pi—Frances Thompson, Clay Center; Marguerite Burton, Lincoln; Mary Witherow, Thurman, Ia.

Alpha Omicron Pi—Nina Belle Cook, Omaha.

Delta Delta Delta—Velma Scott, Morton, Kan. (Incomplete.)

Gamma Phi Beta—Marguerite Smith, Lincoln.

Kappa Kappa Gamma—Marguerite Temple, Lincoln.

Alpha Xi Delta—Gwendolyn Drayton, Orchard; Valeria Downs, Lincoln; Elsie Summers, Lincoln; Rose Skudler, Atkinson; Hazel Miller, Marmon; Geanne Rankin, Cambridge.

Alpha Phi—Marion Dunn, Tecumseh; Elizabeth Sturdevant, Omaha.

Pi Beta Phi—Bernice Miller, Detroit, Mich.; Marion Thrush, Spencer, Iowa; Julia Jacobson, Council Bluffs, Iowa; Hazel Barr, York.

CHANCELLOR AVERY ENTERS WAR WORK

To Be Replaced by Dean W. G. Hastings of College of Law

TO RETURN EARLY IN FALL

Leave of Absence Granted by Board of Regents Terminates in September—Pay to Continue

Chancellor Samuel Avery at his own personal request and at the instance of the government war department obtained from the University board of regents last week permission to take leave from his duties at the University for the present for the purpose of entering into official duties at Washington. He will be replaced in his position here by Dean William G. Hastings from the University college of law.

The term of the chancellor's leave continues until next September. During this time he will remain in the pay of the University as the duties at Washington are entirely voluntary and without compensation. The work which the chancellor will take up is expected to be chiefly in the chemical department since he maintains a national reputation as an expert in this field. He will leave for the capitol within the next week. The work in the government chemical department is now under the control of a committee of the national defense council and is headed by Prof. M. T. Bogert of the University of Columbia. It was at the recommendation of Professor Bogert that Chancellor Avery was selected as the man for this position.

Dean Hastings Acting Chancellor
Dean Hastings in taking the position left vacant by this change will at the same time continue in charge of the college of law and will presumably carry on his instructions in that department. The dean has been connected with the University for a number of years and has displayed ability in the execution of his duties as dean of the college of law that merit the award to him of this distinction. No changes in the policy of the University is expected to follow this new arrangement.

The University will have in Chancellor Avery the best possible representation in the war work now being carried on at Washington and the selection comes as a national recognition of the character and quality of officials heading the work of instruction in this state.

Whether the chancellor returns in September or not is a matter of speculation, and one which will be decided perhaps by the general issues of the war during the coming months. If it is seen that his presence at the capitol is necessary he may be allowed permission to continue his work there as long as the government requests.

Dean Hastings meanwhile will take active charge of University affairs and carry on the programs already begun along the construction process and other lines.

MAY ADOPT FOUR-DAY PROGRAM FOR NEBRASKAN

Publication Board to Act Wednesday in Regard to Future Policy of Paper

Only one after today remains for students of the University to assure for themselves and the boys at camp a five-day-a-week Daily Nebraskan. Wednesday the publication board will decide the question whether or not the school is justified in putting out a full-program paper. So far the student body has responded quite favorably to the appeal recently made by the management of The Nebraskan to support this the only representation of the University of Nebraska at home and among other states and colleges as well as at the camps and at the front.

But the response has not been sufficient to make the desired five-day issue possible. For such a program at least seven hundred subscribers will be necessary. At present there are not over an estimated four hundred paid subscriptions for this semester.

CHANCELLOR SAMUEL AVERY
Granted Leave of Absence by Board of Regents

The students must act today if ever and make up the deficiency in the support of the paper if they would have it bring to them daily the news of the campus and the class room.

During the registration days many active solicitors were about the various registration halls taking and soliciting orders from the students. Due to the strenuous and sincere efforts of these people the present four hundred subscriptions have been secured. The first year students and many of the upperclassmen have not yet been approached. It is to their interest and the interest of the paper if they are not solicited to go to the Student Activities office at once and subscribe.

A few fraternities have announced that every man among them has taken a subscription. This is the spirit which should prevail in every school organization that has the best interests of the school at heart. Later it is planned to publish the names of those organizations who can claim that mark of loyalty in having every member a supporter of The Nebraskan. During the past week letters were sent to the various organizations requesting their special attention to the matter and it is supposed that all fraternities and sororities will take up the question at tonight's regular business meeting.

It is hoped that by tomorrow evening the necessary number of subscriptions will have been secured to guarantee to the student and faculty body the five-day program of The Nebraskan for the coming semester.

STUDENT REGISTRATION SHOWS SLIGHT DECREASE

Seventy Per Cent of Last Year's Number in Attendance—Thousand at War

Optimism regarding student registration for the second semester of the school year prevailed in University official circles Saturday upon reviewing the number of registrations already applied for during the week. equals at least seventy per cent of the fears which authorities may have entertained over a threatening decrease in attendance.

Although no complete figures are yet obtainable the belief is expressed that the number registered to date equals at least seventy per cent of the number attending here a year ago. There will be at least one hundred and fifty make application during the coming week which will raise the percentage materially.

No little satisfaction is felt among the officials concerning the facts disclosed by these reports. Figures show that the present number of University students enrolled falls short by eight hundred the number in attendance at the same time last year.

Many Huskers in Service

There are at present at least one thousand Cornhusker men registered somewhere in the army of Uncle Sam. By far the greatest majority of these are now in active service or preparation and all of them would without doubt be in school at the present were it not for war.

From this it may be seen that under normal conditions the enrollment would now exceed that of the previous year by no less than two hundred per cent. (Continued on page two)

CITY RULING HITS CAMPUS PARTIES

Ordinance Governing all Social Functions Now in Effect

FEW EXCEPTIONS ARE MADE

Private Dances in Homes of Individuals Excluded from 10:30 O'Clock Ruling

University of Nebraska students experienced the first effects of the new law governing all social functions, Friday and Saturday evenings of last week at a number of dances and parties given in homes and downtown halls.

The new ordinance requires that all dances and University parties on the campus, at fraternity and sorority houses and in the city party rooms be dismissed at 10:30 o'clock. The city law requiring that all street cars be stopped at that hour makes it probable that the parties will need to be dismissed at 10:15 in order for the guests to catch the last car going from the city to their homes.

In a conference with Mayor J. E. Miller, Dean Amanda Heppner discussed the application of the city rule to University functions and expressed the desire of the student body to cooperate with the city in the new conservation plan. It was agreed at this interview that private dances given in the homes of individuals will be exempted from this ruling and will be permitted to continue until the 12 o'clock hour. This in no way will include the organizations and care will be taken that no organization will take advantage of this exception. No one will be permitted to entertain their respective organizations in their home and thus avoid the 10:30 o'clock rule.

Dean Heppner also announced that the Pan-Hellenic and University laws governing the closing hours of social activities would automatically change to comply with the new ordinance. All theatrical performances of whatever nature are not to be held later than 10 o'clock in accordance with the city requirements respecting entertainments of that sort. This will include plans or rehearsals either at the Temple or any other hall and will apply also to entertainments given by the dramatic and literary societies.

Sororities will be left to determine the application of the order to their respective organizations in regard to after-party lunches. Heretofore it has been generally the custom for the guests to visit the restaurants after the parties for lunches which lasted often until after 12 o'clock. This will necessarily be changed by the ruling that sorority women be at their homes by eleven o'clock.

University Need Not Suffer Coal Shortage

In the time of adversity, we have found at least one respect in which the University is fortunate. Superintendent Chowins states that there is a supply of coal on hand now that puts the possibility of a shortage out of the question for some time to come. Furthermore, there is a large amount of coal being received daily to add to the huge pile which already blockades T street from Eleventh to Twelfth.

FIRST ISSUE OF BLUE PRINT DISTRIBUTED TODAY

Valuable Publication of Engineering Magazine Put in Hands of Students

The first issue of the Blue Print, the engineering publication, will be out today. Subscribers may obtain their issues on the first floor of the A. M. building. Anyone who has not yet subscribed and wishes to do so may obtain an issue at the table where the papers are given out.

This is the first of two issues to be published during the school year and contains some very valuable material. An article by H. H. Wheeler, plant engineer of the Lincoln Telephone & Telegraph company, entitled "An Application of the Piece Work Plan." (Continued on page two)
