PRICE FIVE CENTS

FOOTBALL CRY IS STILL MORE MEN

Coach Asks For Twenty Additional Candidates

TRACK PROSPECT BRIGHTER

Ames Here One Week from Saturday
 No Men out for Weight Events

The success of the spring football practices which have been inaugurated in Nebraska this year, is still somewhat doubtful. So far only a relatively few men have reported for work, and the prospects for some real workouts are becoming more and more uncertain each day. As General Leonard Wood, who just returned from the battle fields of Europe, says, the urgent cry of the war now is men, men, men. And so it is with the football situation in Nebraska the cry of the coaches is for men, men, and still more men. It is not because there are not enough men in the school, for notwithstanding the heavy drain there has been on the football squad, there are still plenty of men in the University who, if they only knew it, would make excellent that every one sits back and either thinks that it is too nice weather to gridiron material. The real trouble is get out get all "tired out" or else they believe in letting the other fellow do it all, and the other fellow is too often apt to do the same and the thing never gets done.

If the present plans of the athletic department are to be carried out there must be at least twenty more men out for the regular evening grind. At present the work consists mostly in sprinting practice on the track for the purpose of getting the men hardened into condition, but very shortly the work of blocking and tackling will be gone into and it is planned also to give the men some scrimmage work of a more peppy variety. But to do this we must have men.

Track Prospects Brighter
 Everything is not gloom however, and by the way of a little consolation, the prospects for the track are looking somewhat better. Several new men have appeared on the track in the last couple of days who make things look like we would be able to get into things in the proper manner by the time the Ames aggregation makes its appearance on the field a week from Saturday. But there is still room for a number of more men here, too. As yet there are but two men out for the hurdles and one for the pole vault and the high jump, while in the weight events practically no one has entered. It takes co-operation and hard work.

ANNUAL TRIP TO ESTES ABANDONED THIS YEAR

Larger Conference To Be Held at Lake Geneva, North of Chicago

For several years delegates from Nebraska Association has gone to Estes Park for ten days in June to get training and inspiration for the next year's work. As a war measure this year the Estes Park conference has been cancelled in favor of a similar yet much larger conference at Lake Geneva, Wis., just north of Chicago.

The association has always depended for its leadership upon these conferences but this year the need of such a conference is far more important. It is necessary to train and use younger men in Y. M. C. A. work and in addition to this fact we must carry the greatly enlarged war program.

It is recognized that the Northfield conference has meant a great deal this year to the study program for students and has made it possible to enlist 200,000 students in these classes.

Lake Geneva must play this part in the regular association work for next year. Those interested either in going or in helping others to go, should see Wm. F. Urbach or Walter Judd.

UNIVERSITY NIGHT IS FINANCIAL SUCCESS

Total of \$69.95 To Be Turned Over to Gilkey Campaign Fund

The final report of the University Night, performance issued yesterday by Chairman William F. Urbach, shows that 1,537 students and faculty members were present and that \$69.95 surplus was realized and turned to the Bible study committee to partially defray the expenses of the Gilkey campaign.

Up until last year the University Night has resulted in a deficit, but staging the event at the Auditorium has lessened the cost to such an extent that a profit can be made. There is, however, no endeavor to make money, the object being first to please the University.

The committee directly responsible for the program is made up of men and women selected regardless of their connection with the Y. M. C. A. or the Y. W. C. A., but keeping in mind their part in University activities and their ability to help with such a program. The committee this year consisted of William F. Urbach, chairman; Florence Bishop, Theda Waterman, Ruth Hutton, Harold Long, George Driver, Ray Cowen and Laverne Stone.

In the working up of a program all organizations are asked to submit a sketch to be considered by the committee. About fifteen organizations usually respond and the best of the sketches submitted are selected.

Following is the financial statement: Tickets sold 1377 at 15c, total, \$206.60. Complimentaries, 160. Total attendance, 1,537.

Expenditures—
 Auditorium \$50.00
 War tax 30.65
 Orchestra 10.00
 Walt. Bros. 8.00
 Miscellaneous 38.00

Total \$136.65
 Profit \$ 69.95

GYMNASTIC EXHIBITION CANCELLED ACCOUNT WAR

No Trip To Be Made This Year By Gymnastic Team to Western Meet

The war has claimed another victim. The annual gymnastic exhibition has been called off "on account of the war," and thus the students have lost one more evening's entertainment.

Every spring for years the physical education department has had one evening to entertain the student body with an exhibition in gymnastic drills, and folk dancing, tumbling, aesthetic dancing, and work with dumb-bells and gymnasium apparatus. The proceeds in the past have gone largely to pay the expenses of the gymnastic team on their yearly trip to the western collegiate gymnasium meet in Chicago. This meet has also been called off on account of the war hence there is no necessity to raise funds for this purpose.

Dr. Charles W. Gilkey of Chicago is to spend four days of next week in our University in the effort to strengthen and deepen religious work and feeling among the faculty and students. Dr. Gilkey was here last fall for a day and spoke at convocation. Those who heard him are enthusiastic about his powers as a public speaker as are those who know him as to his character. He will devote himself to the effort to touch all that is best and highest in the possibilities of student life.

Those who were fortunate enough to hear Dr. Ward at the Y. M. C. A. luncheon when he was through our city a few weeks ago could not fail to be impressed by the force with which he developed the idea that we who are left at home must not forget that those who are fighting our battle at the front are after all only doing so that we may freely and in a free world develop character and citizenship here at home. It lies with us to make our communities worthy of the sacrifice or else our dead will have died in vain.

Dr. Gilkey with all his powers cannot do this alone. Without our assistance he cannot even do any of it amongst us. If we hold ourselves selfishly or carelessly aloof he would as well not have come. Can we not give ourselves and him a chance by uniting in attendance at all his meetings?

W. G. HASTINGS,
 Acting Chancellor.

JUNIORS GET TITLE IN FINAL DEBATE

Win Unanimous Decision Over Sophomores Yesterday

ARGUE PUBLIC OWNERSHIP

Winning Team Composed of Robert Moodie, William Maddox and Walter James

Excelling the freshmen in argument and rebuttal the junior debating team, consisting of Robert Moodie of West Point, William Maddox, of Falls City and Walter James of Brush, Colorado, won the unanimous decision of the judges in the final debate of the interclass series in Law 101 yesterday afternoon. The question was, "Resolved, That the United States should own and operate the railroads of the United States."

The freshman team, winners from the sophomores, was composed of Reuben Claussen of Beatrice, Leo Sturgeon of Alton, Illinois, and Lawrence Slater of Lincoln. The judges were Prof. J. P. Senning, of political science department and L. W. Kline, '19, G. V. Lundmark, '18, of Omaha, chairman of the interclass debating board, presided.

The Juniors urged in the case which won the debate for them that the change to the system of government ownership and operation was necessary in that the present system had failed completely to provide efficient, economical and just service. They pointed out the discriminations which existed and which regulation

EMPLOYMENT BUREAU IS BIG AID TO STUDENTS

Helped to Find Positions for Wage Earners Aggregating \$2,500 This Year

There is one department of the University Y. M. C. A. that helps many men who work their way through school. The University Employment Bureau finds jobs for men that want to work for board and room, regular employment, or odd time work. Also at the first of the year, students are directed to residences and rooming-houses where rooms can be secured for the school year. No charge is made to the students for any work done by the employment secretary.

Up to date, the Employment Bureau has filled over four hundred jobs since the beginning of school. Many of these have been odd jobs in the residence districts for spare time. The most popular work is earning board in restaurants or in sorority and fraternity houses. About seventy-five men have done work to earn rooms. Over fifty miscellaneous jobs were given such as office and store work. Many calls are now being received for gardening and out-door jobs. The earnings of men put in employment by this department since the opening of school, aggregate about \$2,500.

NEBRASKA TO CHINA FUND NEARLY COMPLETE

\$1,207 is Total Amount Subscribed—Excellent Spirit Has Been Shown

That the Nebraska-to-China campaign has been more than successful and beneficial both to Miss Grace Coppock and to the girls of the University of Nebraska, was brought out at vespers, Tuesday at 5 o'clock in the Y. W. C. A. rooms. Over \$1,207 has already been subscribed and about 450 girls seen by the various teams.

Bernice Miller, chairman of the committee which has been working on this campaign, presided and called on the captains, or their representatives, for reports of the money, number of girls seen and also what the campaign had meant on the campus and to themselves personally. Summed up the opinions of the girls were as follows: that China, during the past week had been much more real and nearer, that Miss Taylor and Miss Ting had broadened and inspired every girl they really came into touch with, and that the campaign had brought out even more vividly the spirit of the times—that of unselfishness and sacrifice. Before the reports Gertrude Munger gave a vocal solo.

FILLMORE AND BOX BUTTE COUNTY REPORTS RECEIVED

The State Conservation and Soil-Survey department has just received a published report on the soil survey of Fillmore county, Nebraska.

An advanced copy of the map of the soil survey of Box Butte county has also been received. The final report will come in a few days.

The field work on these reports is made by the state and federal surveys, but the publications are issued at Washington.

JUDD IS ELECTED TO LEAD Y. M. C. A. WORK

Active Member of This Year's Cabinet to Succeed Ray Cowen as President

Walter H. Judd, '20, of Rising City was yesterday elected president of the Y. M. C. A. cabinet for the coming year. He will take the place of Ray H. Cowen, '19, of Stratton, who has entered war service. Cowen also acted as general secretary but it is probable that a special secretary will be engaged next year to take charge of that work.

Judd has been very active in the cabinet both this year and last. He was chairman of the Bible study committee and was representative to the big Volunteer conference at Northfield, Mass., the meeting which was the start of the big fight for Christian World democracy. He has been at the head of the organization work in the establishing of Tuesday evening discussion groups at the various fraternities. Judd was in charge of the big convocation in the second Red Triangle drive.

ELECT DELEGATES TO CHICAGO CONVENTION

Madeline Girard and Fae Breese to Represent Nebraska W. A. A. At April Meeting

Madeline Girard and Fae Breese were elected representatives to the National Convention of the Women's Athletic Association which is to be held in Chicago on April 12, 13, at the meeting of the University W. A. A. Tuesday evening in the gymnasium.

Gertrude De Santelle was elected hike leader and Irene Springer basketball leader.

Y. M. C. A. DRIVES OBTAIN RESULTS

Great Success Met With In All Student Campaigns

\$23,000 TO RED TRIANGLE

Oversubscribe Quota by \$8,000 in First Undertaking—Large Attendance at Volunteer Classes

The outstanding event of the first semester from a Y. M. C. A. standpoint was the Red Triangle campaign in November. The drive was not officially conducted by the student association, but by a general University committee. A goal of \$15,000 was set for the University of Nebraska and in a great patriotic convocation held November 23 at the auditorium over \$23,000 was subscribed. Most of the subscriptions were to be made in monthly installments and have been coming in very promptly. Already over \$15,000 has been paid in. The secondary results of the campaign—the effects on the students themselves, who sacrificed in order that their fellows in arms might have more of the comforts of life—were perhaps even more valuable than the money raised.

The campaign gave an entirely new note to University life—a distinctly war note. It did a great deal to broaden out students, giving them a vision of world needs of today than just a narrow local vision.

Helped Discussion Groups

The Red Triangle campaign made possible the organization during the second semester of a great many groups of men and women meeting weekly to discuss Christian principles as they relate to the present world situation. These are not indications of men becoming effeminate and "pious" but they are indications that virile men and women are answering the greatest call to be heard today—not so much the call to enlist in military service as the call for every individual to enlist in some sort of world service. University students are thinking in world terms, they are reorganizing their modes of living on a war basis, they are working not for America alone but for all the peoples of the earth in seeking to make possible a true world democracy. They are searching anew the life and words of Christ to find how His principles fit into the world situation today.

It is such questions and problems that these groups are seeking to solve and reports indicate that everywhere a hearty response is met with. Almost half the men in school are being reached by these classes. The leaders are faculty members, business and professional men, and students. Almost all of the fraternities

SOCIAL COMMITTEE HELPS STUDENT ENTERTAINMENT

Four Big Events Arranged For Men During Past Year By Association

Work of the Social committee of the association this year has centered mainly about four principal events. The first two were "Open Houses" at which new and old students numbering nearly to 100 at each meeting, were entertained during vacation week. Varied programs were presented at each of these meetings, and at the second gathering the freshmen were given an opportunity to meet with upperclassmen and with members of the faculty. Coach E. J. Stewart gave an interesting talk to the freshmen on the opportunities in athletics. The third of the meetings held was the All-membership party held November 17, following the Kansas-Nebraska football game. The enthusiasm of the victory made for one of the best meetings of the year at this time.

The last social event was the post-exam jubilee which was held February 2. The celebration this time was over the timely defeat of Captain Flunk and his cohorts, and there was nearly as much elation as of the time after the Kansas defeat.
