UNIVERSITY OF NEBRASKA, LINCOLN, FRIDAY, APRIL 5, 1918.

PRICE FIVE CENTS

BE IN THE LIBERTY PARADE

"N" SPEEDSTERS IN LINE FOR HONORS

Husker Track Men Prepared For Drake Relays

HAVE TRYOUTS TOMORROW

Students and Faculty Given Chance to Witness Prowess of Field Aspirants—Nebraska in 6 Events

About thirty aspirants to the honor of representing the Cornhuskers on the track and field activities will try their prowess on the athletic field tomorrow. The tryouts are to be held primarily for the purpose of picking the men who will make the trip to the Drake Relay Carnival which takes place the 20th of this month at Des Moines. From the appearance of things at present the contests should be of the snappy variety as there are quite a number of men trying out for the various events.

Nebraska is entered in six events at the meet.

Nebraska in 6 Events

- Four-mile intercollegiate relay.
- Two-mile intercollegiate relay.
- One-mile intercollegiate relay.
- Half-mile intercollegiate relay.
- 100-yard dash.
- Pole vault.

Graf, Byron McMahon, Hansen and Grau all look pretty good in the four-mile affair, and there are a number of good men out for the 2-mile. In the mile relay there is a wealth of material and it is very probable that much the same team will be used as was used to defeat the Kansas four at Kansas City. H. McMahon and Bryans look good in the 100, and for the pole vault about the only men out are Gerhart and Towle. Altogether Nebraska has a good chance to cop off the honors at Des Moines if things continue to develop as they give promise of doing. The tryouts tomorrow are open to the students, and it is hoped that a good number will be out to witness the work of the spring athletes.

Sends Box of Fossil Shells to University

E. F. Shea, '20, who recently left the University, sent a box of fossil shells which he collected in Oklahoma, to the Geology department.

In a letter to Prof. E. H. Barbour, he remarks about the fine weather for working:

"We have been enjoying very favorable weather for field work this past month. If such a condition continues we hope to finish work in the Osage by June. Three or four of the survey parties are now working out of Bartlesville. Vetter and I will be the only Nebraska boys in Pawhuska after this week. The others are at Bartlesville."

CONVOCATION AUDIENCE ENJOYS MUSICAL PROGRAM

Miss Dorothy Raymond of Chicago Entertains with Series of Vocal Selections

Convocation yesterday morning was a song recital by Miss Dorothy Raymond. Miss Raymond has been studying in Chicago for the past year.

- She sang:

retired, Commandant.

Make Tests of Oil Lands

Prof. R. W. Ellis of the Geology department, has just returned from Glen Rock, Wyoming, where he tested oil land and examined clay deposits to be used in brick making.

ALUMNI GIVE RECEPTION TO AG SCHOOL GRADUATES

Annual Commencement Held at Temple Tonight—Regent E. P. Brown to Speak

The annual alumni reception for the seniors of the School of Agriculture was held last night in the Temple. This was the last event of a busy commencement week, except for the regular commencement exercises which will be held in the Temple this evening. Hon. E. P. Brown, president of the Board of Regents, will address the seniors at their commencement this evening.

The annual competitive drill of the Agricultural school, held yesterday afternoon, was won by Company F, under the direction of Captain M. A. Brinkerhoff. Company E, L. S. Cutter, captain, won second place. Corporal Hart of Company F, won the individual competitive drill, and Corporal Savage of Company H was second. The winners were awarded gold and silver medals. Sabers were presented to the field and staff officers by the sponsors.

The judges of the drill were W. J. Allen, Ord. Sergt. U. S. Army; R. A. Jenkins, Cadet Colonel and E. C. Jeffrey, Cadet Colonel. The University of Nebraska cadet band furnished music between events, and took part in the final review before Col. H. L. Roberts, Commandant of the University cadet regiment.

The following is a list of this year's senior class graduating this semester:
Technical Group
Horace M. Almy, Edith R. Anderson, Everett D. Bakewell, Ernest W. Bartz, Lee C. Bennett, Morris Brinkerhoff.

CORNHUSKER SONS TO BE REMEMBERED

Proceeds of All-University Party to Base Hospital

TO ARRANGE SERVICE FLAG

Student Committee Will Care for Financing and Planning of Nebraska Emblem

At a meeting of the General Party committee last night at the Temple, it was decided to turn over the entire proceeds of the next all-University party, which is to be held Saturday, April 13, at the Armory, to a fund which is to be raised to furnish equipment for the base hospital of the University of Nebraska. The action was taken after the proposal of the plan by representatives of Black Masque. The party will be somewhat on the order of a carnival, and there will be amusements of various kinds, refreshments and dancing.

An announcement for the faculty division of the Patriotic League, was made by Dean Amanda Heppner. It was the request of the faculty members that the students assume the responsibility for the arrangement and financing of the Service Flag, which is to be made for the University men who have enlisted. A committee for this work will soon be appointed by Dr. Winfred Hyde, with power to act and have the flag completed and placed as soon as possible.

RED TRIANGLE PLEDGES ARE NEARLY ALL PAID

Entire Quota Is in the Hands of the Collectors on Monthly Payment Plan

The Red Triangle pledges made last November are coming in in fine shape, according to the committee in charge.

At the close of the big Red Triangle Rally at the Auditorium last November, when everyone had pledged their utmost under the inspiration of the enthusiasm created by the rally and the indicator pointed to \$23,000 in pledges, some pessimistic creak-hanger shouted, "And now collect." His cry was repeated and it was clearly up to Nebraska to silence that suspicion. She has done so to the complete satisfaction of the most optimistic prophets, and comparisons show that Nebraska University is among the very first in the United States not only in the amount pledged, but in the way the pledges are being paid up.

The committee reports that about \$15,000 has already been paid in on the monthly payment plan. Statements are being sent out to all pledge makers at this time by the student activities office, so that every one will be able to know exactly how much he pledged and the amount now due. It will also encourage the students to keep their monthly payments up so that a big lump sum will not be due at the end of the year.

"Sheminie" To Play For Coming Freshmen Hop

The freshman hop will be held on Friday evening, April 13, at the Lincoln hotel. Sheminie's first orchestra has been obtained for the occasion and everything has been arranged to make the party a great success. Ninety tickets have been validated and it is evident that they will not last long.

Tickets for the party will be \$1.50, and may be obtained from any of the following persons: Ralph Coates, Burks Harley, Raymond Jobs, Arline Abbott, Ada Stidworthy, and Florence Lewis.

ENGINEERS TO HOLD OPEN HOUSE TONIGHT

Public Given Opportunity of Witnessing Work

ALL LABORATORIES OPEN

Latest Model 250 Horse-Power Engine, Machine Work, Foundry Processes, Edison Generator Exhibited

The engineers will hold open house tonight from 7 to 10 o'clock. Each year the engineering laboratories are opened to the public and several treats are promised for those who attend this year.

The Freshmen will be at work in the Mechanical Engineering building operating the wood-work laboratories where a new pattern for an oil tractor is being built. They will also be at work in the foundry, where a heat will be run off between 8:30 and 9:30 o'clock.

The sophomores will be at work in the machine shop, which is one of the finest equipped in this section of the country. Among the large pieces of work on display is a 4-inch telescope and its complete equipment.

The juniors and seniors will have charge of the power laboratory, where the complete equipment will be in operation, including a specially designed 250 horse-power cross compound Murray Corliss engine, steam pumps, steam turbines and an early type of aviation engine. The fuel testing laboratory will also be open, showing the testing of oils and gases for their physical properties and heating values.

The electrical laboratory will be in charge of Professor Hollister, who has provided many interesting sights, among which are two of the first generators made in the Edison shops. A complete display of electrical cooking apparatus will claim the attention of the girls.

The C. E. and M. A. departments will have a display of blue prints and mechanical drawings. Several men will be at work in these laboratories, also.

It is thought that everyone will be interested in the displays this year, as these laboratories are the ones which will be used to train the drafted men for the aviation and motor service.

DEAN TANCOCK AT FIRST ALL-UNIVERSITY VESPER

Chaplain of University Base Hospital No. 49, to Talk at Sunday Service

The first all-University vesper service of this year will be held in Memorial hall Sunday afternoon at 4 o'clock. At least one of these services are held each year and are well attended by the student body.

Dean Tancock of the Trinity Cathedral in Omaha, will be the principal speaker. His subject is, "God's Purpose Manifested in Fulfillment." Dean Tancock's address should be of especial interest to the students and faculty, as he has been selected as the chaplain of the University Base Hospital No. 49. The hospital unit is now at Des Moines, Iowa, where it will receive two months of special training before being sent to France.

Mrs. Carrie B. Raymond will play the organ and the chorus will give some special music. A large audience last year testified to the excellence of the music and expressed themselves as having enjoyed the service immensely.

E. R. SHEPHERD TO TALK AT SIGMA XI MEETING

E. R. Shepherd, associate electrical engineer of the Bureau of Standards, will give an address on "The Bureau of Standards and Its Works," at the Sigma Xi meeting to be held in the lecture room of Bessey hall, Monday evening, April 8, at 8 o'clock. Everyone is invited.

ALL READY FOR LIBERTY PARADE

Ten Thousand to Launch Third Loan Drive

FORM AT 9:30 O'CLOCK

Students and Faculty Members Form at Eleventh and G Streets—Wesleyan and Cotner Ready

The monstrous patriotic parade which will launch the Third Liberty Loan drive in Lincoln, containing 10,000 men, women and children, in fifty separate organizations, starts at Eleventh and J streets, Saturday morning at 10 o'clock. It covers the business section of the city in one sweep and disbands at the state capitol in time for the members to get home for their dinners.

From Boy Scouts to members of the Nebraska state senate, every one who is able to walk at all, including the school children, the ministers, the old soldiers, the R. O. T. C. cadets, the city, county and state officials, the woman's clubs, the labor unions and the bands will march in this parade.

University at G Street

The University division, number 5, under the supervision of Sam Waugh, will fall in on G street between Eleventh and Twelfth, and as the parade gets under way will swing into its place behind division 4. All participants are urged to wear uniforms or head dresses distinctive of their organizations, and as many flags and decorations as possible. The Commercial club will have a hundred or more painted banners for the different sectional leaders, but the festive trimmings are needed to give the parade the holiday atmosphere.

Two hundred Boy Scouts will go on duty at 8 o'clock, with instructions to keep O street clear of all vehicles. Eleventh street from O to J will also be guarded, and all members of the parade are warned to approach their meeting places by streets other than Eleventh.

The procession, headed by three mounted marshals, is to proceed north from J street to N, then west to Ninth, north to O and east to Fifteenth, and then south to the state capitol, where it will break up. In all it is not expected take more than two hours and all will be over by noon.

The state has arranged to have motion pictures taken of the procession, and these films will be shown all over the country, being a big advertisement to Lincoln and its patriotic enthusiasm. The bigger the parade, the better Uncle Sam will like it, and the more he will think of Lincoln.

Wesleyan and Cotner Ready

Wesleyan University, Cotner University and the School of Agriculture are planning to send big delegations and they hope to outshine the Nebraska representation so badly that the public won't know the University is marching. Each organization is striving to eclipse all others and the University seems to have the best
(Continued on page two)

FINAL CHANCE TO ENTER RADIO-TELEGRAPH SCHOOL

May Be Turned Over To Drafted Men Soon—Number of Attendants Increasing

Now is the last chance for the students to enroll in the Radio-Telegraph school, who want to complete the course by the close of this semester. The possibilities of using this school for training drafted men will no doubt necessitate the closing of voluntary enlistments. So men, who intend to enlist in the "Signal Corps," the select branch of the army, should take advantage of Nebraska's Radio Department and enroll at once.

Since the establishment of the Radio-Telegraph school at the University last September, seventy-five men have been transferred into active service, according to a statement made
