

FERGUSON PREPARES VOCATIONAL PAPER FOR JUNE MEETING

(Continued from Page One)
sary to have concerted and definite action.

The psychology tests would be in some ways like those given in the army, but would be more varied and would in the end determine what that particular student can do best. Even the playthings of his youth will be inquired—whether he read all the time, was mechanical in his pastimes, or whether he was just "ordinary boy." These points would help the members of the committee to report on the future of that particular student.

BOARD OF REGENTS ADOPT PLANS OF CONSOLIDATION

(Continued from Page One)
fessors of high standing from other institutions.

The following resignations were accepted: Merle E. Wade, assistant in marketing, department of rural Economics; Astred Kjelson, instructor in home economics, school of agriculture; Katherine Cranor, assistant professor of home economics; H. L. Thompson, assistant professor of pharmacy. The following appointments were made: M. B. Posson, extension animal husbandryman; C. H. Heard, assistant professor of rural economics. The name of the department of secondary agricultural education was changed to the department of agricultural education.

Construction of a cottage near the irrigation well at North Platte substation was authorized. Latenser & Sons were authorized to draw tentative plans for certain improvements on the College of Medicine campus at Omaha.

GREEKS MAKE BIG SCORES IN OPENING FRAT GAMES

(Continued from Page One)
Empire: Crandall.

7. 6:00 o'clock.

Pi Kappa Phi vs. Bushnell Guild.
Empire: Zink.

The next stage in the elimination will be:

Winner of 1 vs. winner of 2.

Winner of 3 vs. winner of 4.

Winner of 5 vs. winner of 6.

Winner of 7 vs. winner of 8.

Winner of 9 vs. winner of 10.

Time and place to be announced later.

The score for the Saturday afternoon game follows:

Pi Phi Chi, 19—Beta Theta Pi, 5

H. Elston	c	Carter
F. Nelson	p	Kauf
Landmann	1b	Bowers
Allen	2b	Moore
Peterson	3b	Larned
Crowley	ss	Rogers
Bodemer	rf	Roberts
Leiniger	cf	Vincent
Newquist	lf	Alpin

Empire—Peters.

Pi Phi Chi—20 hits.

Beta Theta Pi—9 hits.

GOVERNMENT OFFERS INFORMATION ABOUT WAR RISK INSURANCE

(Continued from Page One)
may be reinstated at any time within six months, but after that it is lost entirely.

It is not necessary to convert the insurance immediately but it is advisable to convert as quickly as practicable, in order to take advantage of the lowest possible premium. The insured has five years in which to convert, and he must not exceed that period of time if he wishes to retain his insurance. It is not necessary to convert the insurance into any one particular policy. The insured may carry his insurance in several different types of policies if he wishes, and he may convert into these policies at different times, and in any amount from \$1,000.00 on, in multiples of \$500.00, the only requirement being that he must convert during the period of five years. If the insured elects to wait a year or two before converting his insurance, he will simply continue to make the premium payments as he is at present until such time as he feels he can convert.

The Government is going to continue to carry the insurance after it is converted. The cost of carrying the insurance will be borne by the Government and for that reason the rates on these policies will be considerably lower than regular life insurance companies granting similar policies. The premiums on the new policies will always remain the same, there being no increase from year to year as on the present form of insurance.

The Government is offering six types of policies: Ordinary life; 20 pay life; 30 pay life; 20 year endowment; 30 year endowment; and an endowment policy which matures at the age of 62. These policies are similar to policies of the same type issued by regular life insurance companies.

The premiums on these policies may be paid monthly, quarterly, half-yearly or yearly, as desired, and the insured may change from one method of payment to another at any time he chooses to do so. If paid monthly, the premium will be due on the first day of the month, but may be paid any time during the month.

Policies may be reduced at any time, but not increased.

There will be no medical examination required when converting to the new forms of policies.

There is no restriction as to occupation, residence or travel.

The proceeds of all policies are non-taxable. The insurance is unassignable and free from the claims of creditors.

Dividends will be paid on these policies annually. These dividends may be taken in cash or deducted from the premium, or may be left with the Government to accumulate at compound interest.

Cash values on these policies are provided and the full value may be obtained at any time, after the end of the first year. Loans may also be made on the policies up to 94 per cent of the cash value.

In the event the insured finds it necessary to lapse his policy, he may take paid-up insurance, extended insurance or may receive the actual value of the policy in cash. However, the disability clause is no longer in force when the option of paid-up insurance or extended insurance is taken.

In case of death, all policies are payable to the beneficiary in 240 monthly installments. The endowment policies are payable to the insured in a lump sum, if he lives out the period of the endowment.

All policies contain a disability clause which provides for payments to the assured in the event of total and permanent disability. The insured will receive, during the period of total disability, \$5.75 a month for each \$1,000.00 of insurance carried. If the insured lives less than 20 years, after disability, his beneficiary will receive the remaining payments necessary to complete the 20 years.

Anyone having questions which are not covered by the above letter, may communicate with the Navy Recruiting Office, 500 Paxton Block, Omaha, Nebr., and any information will be freely given.

HUSKERS SET NEW RECORD IN RELAY

(Continued from Page One)
have been training for the half-mile event and were entered in the mile for the experience. By the end of the season they should be able to reduce their time by three or four seconds. The mile relay team will probably be entered in the Western Conference meet to be held in Chicago the latter part of May.

The same four men entered the university half-mile relay and placed third in that event. Grinnell finished first with a fairly large lead and Kansas took second place.

Honors Evenly Divided

The points were well scattered among the schools because of the large number of teams entered. Chicago was first with one first and one second and Nebraska was second with one first and a third.

In the hundred-yard special event Hass, of Grinnell College, was first with Butler, of Dubuque, a close second. The time in this event, ten and one-fifth seconds, was fairly fast considering that the men were running against a stiff wind.

No records were broken in the university and college events, but Cedar Rapids high school set a new mark in the two mile event. The time was eight minutes thirty-four and four-fifths seconds.

Summary of Drake Relays

One-mile university relay—Nebraska, (Gibbs, Ed. Smith, Fuchs, McMahon), first; Missouri, (Edwards, Minton, Parker, Barlow), second; Kansas, (Clift, Deewall, Rodkey, O'Leary), third; Grinnell, (Crane, Daubenburger, Hoyt, Minty), fourth. Time, 3:26.

Two-mile university—Notre Dame, first; Chicago, second; Illinois, third. Time, 8:02.

One-mile, college—Wabash, first;

Coe, second; Hamilton, third. Time, 3:44.5.

100-yard dash—Hass, Grinnell, first; Butler, Dubuque, second; Hayes, Notre Dame, third. Time, 10:01.

Four-mile, university—Chicago, first; Ames, second; Drake, third. Time, 18:56.3-5.

Half-mile, university (first section)—Grinnell, first; Kansas, second; Nebraska, third. Time, 1:31.

Half-mile, university (second section)—Michigan, first; Illinois, second; Iowa, third. Time, 1:29.4-5.

Two-mile, college—Morningside, first; Cornell, second; Coe, third. Time, 8:23.3-5.

Half-mile, college—Dubuque, first; Coe, second; South Dakota, third. Time, 1:34.2-5.

EXPERIENCED CAST PLAYS IN DRAMATIC CLUB FARCE

(Continued from Page One)
who cannot find his tongue when "Milady" appears.

Miss Margaret Howes is doing exceptionally fine work as the stately and impressive Mrs. Hardcastle who cannot hear the eccentricities of her old husband. The family quarrels which arise are highly instructive and amusing.

The part of the old English country gentleman, the lover of books and antiquities, is taken by Mr. Sandstedt. "Sandy" has developed marvelously during the past two weeks and will be one of the big "stars" of the performance.

The part of the reserved Miss Neville is taken by Miss May Moritz in a very clever way.

"Cabe" Jackson will appear in the role of Hastings.

Not an Amateur Cast

Taken as a whole it is an "all star" cast for all have been seen in many former productions.

The center sections of the lower floor and of the balcony have been reserved for the students, a few of the seats at the side have been placed on sale at Harley's. There will be no charge for reservations except the paying of the three cents war tax. The tickets will be placed on reserve at the College Book Store Tuesday morning so that reservations may be made before the 8 o'clock classes.

DAILY DIARY RHYMES

By
Gayle Vincent Grubb

Now I hate to slam a friend of mine
For a stunt like that's not in my line
But inasmuch as the print looks well;
Let friendship pass, for I'm gonna tell
Just what I know and I'm here to state
I'm right well read on this scandal
slate

Which tells of the deeds that all
folks do
From the Dean himself down to me
and you.

Well, every morning at ten o'clock
There gathers the hugest sort of a
flock

Where the "Rag" is scanned and
gossip reigns

'Till a chill runs down a good man's
veins

And tho' I'm mentionin' nary a name
It ain't very hard to lay the blame
To a certain clique who are always
there

With one man singin' the leadin' air.

You can hear the gab for a block and
a half

And the stuff they pull would make
you laugh,

While I wonder why Lincoln was ever
shot

When some of the dubs and wits
we've got

Are allowed to agas with their backs
to the wall

'Till the plaster quivers and threatens
to fall;

And with all the gossips who talk and
grow fat—

Can you beat a package of nuts like
that?

MOVIES FOR DRILL MEN

Wednesday evening, April 16th, at the five o'clock drill hour the members of the R. O. T. C. unit at the university were marched to the Temple where they were shown four reels of motion pictures relating to the proper care of horses and mules for army purposes.

Uniforms are being issued the men all this week. Full equipment obtainable now consists of rifles, bayonets, belts, uniforms, leggings, hats and shirts.

Playing Rings Around the Rest

You see that arrow in the left hand diagram. It points at the elastic gusset in the Globe trowser seat.

Don't ignore this.

Stop and think a second.

That elastic gusset spells COMFORT in capital letters. You can see how it would. Bend or twist any way you will and the gusset stretches to correspond. Prevents binding or drawing absolutely.

Don't think you can find this elastic gusset in all underwear. You can't. It is a feature of

GLOBE Trowser Seat Union Suits

Notice the other diagram now. Observe how cleverly the flap is arranged to prevent sagging or gapping and yet to completely cover the figure.

Then consider these points. Buttons are sewed on with six cord thread to stand the laundry. Button holes are tailored to stand strains and hard usage. Seams are twice sewed to prevent breaking or unraveling. And, with all this, medium priced.
